1868.

THE REYNOLDS

Mower & Reaper KNIVES,

MANUFACTURED EXCLUSIVELY BY US, UNDER REYNOLDS' PATENTS for Tempering Steel without the aid of any liquids, received the only award at the Great National Implement Trial, held at Auburn, in 1866. They possess the following superior qualities:

1. They are made with a fine Cutlery Temper at the edges.
2. They hold only a Spring Temper at the center and at the beel.
3. They are warranted perfectly uniform, every knife being exactly alike in temper.
4. We warrant they can be ground from 8 to 10 times without losing their cutting edge.
5. Finally, we will warrant them to cut from 40 to 50 acres of grain or grass without being once ground.

We are the sole Manufacturers of these Knives in the United States.

REYNOLDS, BARBER & CO.,

Steel Tempering Works, Auburn, N. Y.

To Harness Makers, Farmers, Teamsters & others using Team Harness

The annexed Engraving Represents the

“Cole Patent Wedge Tongue Trace Buckle,”

Which was Patented Oct. 10, 1865. It has been fully and practically tested, and wherever introduced has met with the hearty approval of all parties using it.

The following are a few of its advantages.

1. It allows the trace to be drawn PERFECTLY STRAIGHT without any *Cramping*.
2. There is *no draught* on a tongue as in nearly every other trace buckle in use, which is liable to *cut and break* the trace; but the strain comes *directly on an iron wedge*, and the harder the pull on the trace the firmer the *wedge* holds it.
3. It is more easily adjusted than any other buckle in use. *No hammers, sticks, stones or levers* being needed to assist in lengthening or shortening the trace.
4. The saving in wear of traces, will, in a very short time, more than pay the slight difference in cost between it and the ordinary buckle.
5. Any thickness of trace can be used that is desired, as there are rivet holes cast in the under side of the buckle for the purpose of fastening in layers of leather which will vary the space under the wedge as may be required.

We only ask a fair trial, being confident that it will prove the truth of the above statement.

For sale by all Saddlery Hardware Dealers and Harness Makers in the United States and Canadas.

Manufactured Exclusively by

Real Laces and Embroideries; Swiss Nainsook and Victoria Muslins;

Fancy Goods and Yankee Notions; Ribbons and Trimmings; Hosiery,
Wrappers and Drapers; Balmoral and Hoop Skirts; &c., &c., &c., &c., &c.

Our Jobbing business, which now extends from the Eastern portion of the State to the "Far West," offers inducements to city and country Merchants equal to any house in the United States. In addition to our advantages as Manufacturers and direct Importers, we have the sale of several makes of Brown Cottons and Woolen Mills in this locality.

Price Lists and Samples furnished on application, and orders sent by mail or entrusted to our agents, will receive prompt attention, and Dealers can rely upon purchasing of us the year around

At New York Jobbers' Prices.

INTRODUCTION.

In presenting the initial number of the "Gazetteer and Directory of Steuben County" to the public, the publisher desires to return his sincere thanks to all who have so kindly assisted in obtaining the valuable information which it contains, and without whose aid it would have been impossible to collect, in the brief space of time in which it is essential that all such works should be completed. Especially are our thanks due to the several editors of the *Steuben Farmers' Advocate*, *Steuben Courier*, *Addison Advertiser*, *Corning Journal*, *Corning Democrat*, *Hornellsville Tribune*, *Canisteo Valley Times* and the *Prattsburgh Advertiser*, for the uniform kindness which has been evinced in calling public attention to the author's efforts; and to them and the following persons, viz: A. A. Van Orsdale, Esq., County Clerk, *Bath*; H. H. Bouton, Esq., Clerk of Board of Supervisors, *Goff's Mills*; Geo. P. Avery, *Prattsburgh*; Wm. M. Sherwood, *Woodhull*, and Edwin Whiting, *Jasper*, School Commissioners of the County; for essential aid in furnishing material for the work. Many others have kindly volunteered their aid, to all of whom we return sincere thanks.

The following works were consulted in its preparation: French's admirable "Gazetteer of the State of New York;" "McMaster's History of Steuben County;" "Turner's Phelps & Gorham's Purchase;" "Documentary History of New York;" "Hotchkin's History of the Presbyterian Church in Western New York;" "Census Reports of 1865;" "Proceedings of the Board of Supervisors in 1867," and the "Session Laws of 1859 and 1862."

That errors may have occurred in so great a number of names and dates as are here given, is probable, and that names have been omitted that should have been inserted is quite certain. We can only say that we have exercised more than ordinary diligence and care in this difficult and complicated feature of book-making. To such as feel aggrieved in consequence of error or omission, we beg pardon, and ask the indulgence of the reader in marking such as had been observed in the subsequent reading of the proofs, and which are noted in the *Errata*, following the Introduction.

It is also suggested that our patrons observe and become familiar with the explanations at the commencement of the Directory.

The Map of the County was engraved with great care by Messrs. "Weed, Parsons & Co.," of Albany, and, it is believed, will prove a valuable acquisition to the work.

The *Advertisers* represent some of the leading business men and firms of the County, and also many enterprising and reliable dealers in other parts of the State. We most cheerfully commend them all to the patronage of those under whose observation these pages may come.

With thanks to friends generally, we leave our work to secure the favor which earnest endeavor ever wins from a discriminating business public.

HAMILTON CHILD.

ERRATA.

ADDITIONS AND CORRECTIONS.

Postal Rates and Regulations.—The new Postal Convention with the United Kingdom, which goes into operation on January 1, 1869, establishes the following rates of international postage:

1. Letters twelve cents per single rate of fifteen grammes, one half ounce, in the United States, and six pence (twelve cents) in the United Kingdom; pre-payment optional. A fine of five cents in the United States, and two pence (four cents) in the United Kingdom, is, however, to be levied and collected, in addition to the deficient postage, on each unpaid or insufficiently pre-paid letter received by one country from the other.

2. Newspapers, two cents each in the United States, and one penny each in the United Kingdom, if not exceeding four ounces in weight.

3. Book packets, including printed papers of all kinds, and patterns or samples of merchandise, including seeds and grain, when not exceeding one ounce in weight, two cents in the United States, and one penny in the United Kingdom; when exceeding one ounce, and not exceeding two ounces in weight, four cents in the United States, and two pence in the United Kingdom; when exceeding two ounces, and not exceeding four ounces in weight, six cents in the United States, and three pence in the United Kingdom; and when exceeding four ounces in weight, an additional rate of six cents in the United States, and three pence in the United Kingdom, will be charged for every additional four ounces, or fraction thereof. The postage chargeable as above upon all articles of printed matter, including patterns or samples of merchandise, must be fully prepaid at the mailing office in either country, and is in full to destination, the receiving country delivering the same in all cases without any charge whatever.

GAZETTEER.

Cameron.—*West Cameron* p. o. is abolished.

South Cameron is a post office in the south part of the town.

Corning.—*Gibson* is a post village.

Sylvester Gillett, son of Joseph Gillett, one of the early settlers of Corning, then *Painted Post*, says his father came to this town in 1779 or 80, but from other information we think he made a mistake in the year; as to the other items we presume he is all right. Mr. G. was obliged to go to Tioga Point to mill, a distance of forty miles. His mode of transportation was a canoe, and the time occupied by the trip about three days. He purchased a farm upon the river flats for five dollars an acre; it is now worth about one hundred. In 1813 he was a soldier in the company of Captain John Kennedy, and at the sortie opposite Black Rock, on the Canada side of the river, was wounded. He was removed to the residence of his father-in-law, at Honeoye Hollow. Mr. Gillett owned a mare that he frequently rode to his father-in-law's, and while there awaiting transportation, that mare broke out of her inclosure and went fifty miles to Honeoye Hollow, and was harnessed with another horse to carry her master to his home upon a feather bed. This was regarded at the time as a very singular circumstance.

Greenwood.—*Rough and Ready* p. o. is abolished.

Jasper.—*North Jasper* is a post office in the north-east part,

Thurston.—*Merchantville* is a post office.

Wayland.—*Perkinsville* is a post village.

Woodhull.—*Hedgesville* is a post office.

East Woodhull is a post office in the east part.

WILLCOCK, CHAS., (Greenwood,) farmer.

Hornellsville.—REZNOR, JOHN, should have been capitalized as a subscriber.

Wheeler.—In the name of SERLES, WILLET T., the initial T. was omitted.

The Hornellsville Tribune, the oldest paper in the town, advertises on page 170. It is a good paper for local and general news, and as a medium of advertising is worthy of patronage. The proprietors, Messrs. Hough & Beecher, are men who will not allow their patrons to suffer through any neglect on their part. Their *Job Office* is well supplied with all the materials for doing a first-class business.

Allen & Parker, dealers in American, English and German Hardware, No. 5 Liberty Street, Bath, N. Y., publish a card on page 186. This is one of the most enterprising Hardware establishments in the County. The proprietors have a very extensive stock of goods in the line of general Hardware, also a large assortment of Carriage and Saddlery Hardware. Carriage and Harness makers will find it for their advantage to call upon Messrs. A. & P., as they make this branch of their business a specialty. They also keep a large stock of Stoves, Tinware and Agricultural Implements, and everything in the line of hardware that the country demands. Call and see them.

The Reynold's Steel Tempering Works, Reynolds, Barber & Co., Proprietors, at Auburn, are largely engaged in the manufacture of Reaper and Mower Knives, Plane Irons, Chisels, &c. The process by which they temper steel is a peculiar one, and as patented by Mr. Reynolds, is the result of over forty years labor. This gentleman always worked on the plan that tempering steel was simply changing it from a *fibrous* to a *granular* state. He certainly has succeeded in producing a finer granulation (temper) than has ever before been produced. Messrs. Reynolds, Barber & Co., control the patents for these processes, and are applying them successfully in all their manufactures.—Their establishment is capable of turning out an immense amount of work, yet their orders are now, and have been for some months, accumulating far in advance of their present ability to supply; a circumstance which they will not long allow to be the case. We predict that the time is not far distant when all Mower and Reaper Factories and farmers will use their improved sections. See their advertisement on page 6, fronting the Introduction.

W. H. Perine & Co., dealers in Dry Goods, Bath, N. Y., have one of the largest establishments of the kind in the Southern Tier. The "Excelsior" is a model store, located in a pleasant part of the village, and recently constructed with all the modern conveniences. The building is 100 feet by 42 and three stories high, the whole of which is used for the business of the firm. The different classes of goods occupy their respective apartments, each of which has its clerks, and everything is conducted in the most systematic manner and on a strictly cash basis. A great variety of goods is to be found at this establishment. Dress Goods of every description, Staple and Fancy Dry Goods, Millinery Goods, Boots and Shoes, Groceries, Yankee Notions, Cloths and Cassimeres, Carpets, Oil Cloths and Matting, Wall Paper, Window Shades, Shawls, Sacques, Cloaks, and almost every article desired for domestic purposes. The Millinery and Dress Making departments are features of interest. The patronage of this immense concern is not strictly local. It has its customers from the remote towns of Steuben, as well as from other counties, and enjoys a reputation for fair dealing second to none in Western New York. To the enterprise of the

proprietors the people of Bath and of the county are greatly indebted.

A liberal and judicious system of advertising has not been without its influence in promoting the remarkable success of the "Excelsior," and the proprietors have reaped a rich reward in the confidence of a wide circle of patrons. There are very few villages, or even cities, in the State, that can boast of an establishment superior to this, and it will remain in the future, as it has been in the past, a truly great and popular depot of domestic supplies to the people of that section. See card, page 2.

Walter A. Wood's Improved Folding Bar Mower is advertised on colored page 267. This machine is pronounced the best ever manufactured in the country, by many of the best judges. It was awarded the Grand Gold Medal at the Paris Exposition, and has received prizes too numerous to mention at State and County Fairs, where it has been exhibited. It is manufactured by Walter A. Wood Mowing and Reaping Machine Co., Hoosick Falls, N. Y. Edgar Hill is the agent for this and several adjoining counties, in this State and Pennsylvania. Farmers will do well to try this machine.

A M E R I C A N

Button Hole, Overseaming

AND

SEWING MACHINE

COMBINED.

THE FIRST AND ONLY BUTTON HOLE & SEWING MACHINE COMBINED, IN THE WORLD.

It is also the **CHEAPEST** as well as the **BEST**, since it is really **two Machines combined in one**, making either the Lock Stitch or Button Hole Stitch, as occasion may require. It is at the same time simple in construction, almost noiseless, easily understood, and in a word it combines with those advantages exclusively its own, the most desirable qualities in all others. It will work beautiful Button Holes, Eyelet Holes, Embroider over the edge, do Overseaming as by hand—also all kinds of Stitching, Hemming, Cording, Felling, Braiding, Ruffling, Tucking. Every Machine is warranted to give entire satisfaction to the purchaser. Instruction given on the Machine gratuitously. Samples of work will be furnished upon application to

Mrs. C. C. Sheffield, General Agent, Elmira, N. Y.

Salesroom on Baldwin Street, nearly opposite the Post Office, and directly over the United States Express Office.

☞ For further particulars address Mrs. Sheffield for illustrated circular.

Hayden Brothers, proprietors of the Retail Woolen Mills, at Port Byron, have long been celebrated as being manufacturers of desirable and reliable goods. The establishment was started in 1824 as a small custommill. Since then the greatly increased business has called for extensive additions and improvements, which have been made; and to day their cloth is known and worn in every county in the State and every State in the Union. They use only the best qualities of wool, entirely free from waste or shoddy, and employ only experienced and careful workmen who strive to maintain the reputation their goods have ever borne among their retail customers. A few months since they opened a store at No. 29 Warren street, Syracuse, where they keep full lines of all goods of their manufacture. Farmers, mechanics and business men generally, can make good bargains by calling at the store, where Mr. J. W. Gates the manager, will be pleased to give them good goods at advantageous terms. See card, page 252.

C. H. Young, Produce, Forwarding and Commission Merchant, Bath, N. Y., advertises on page 252. Mr. Young has a new warehouse near the depot of the Erie Railway, where he is prepared to receive all kinds of grain and farm produce on commission. Farmers and others who have wool, grain or any other article, may safely leave it with Mr. Young with the assurance that he will dispose of it to the best advantage.

Aber & Stewart, manufacturers of Edge Tools, Bath, Steuben Co., advertise on page 174. Having been engaged in business for twenty years, their edge tools are too well known to need any recommendation from us. Those who have used them understand their merits and still continue their patronage. They also carry on a general Blacksmithing business, giving especial attention to Horse Shoeing, in which they have no superiors. All work warranted and charges reasonable.

The American Hotel, Addison, N. Y., has recently been refitted, and the proprietors, Messrs. J. & H. Eldridge, are prepared to receive their old patrons as well as many new ones, and provide them with all the comforts for which this house has been so justly celebrated. Give them a call. Their card appears on page 186.

Dr. Kingsley, of Rome, justly celebrated for the many cures he has effected of that most distressing disease, Cancer, publishes a notice on page 1. He is prepared to treat all scrofulous diseases, and others of long standing, and assures his patients that they will not be charged a heavy bill and dismissed without receiving any benefit. Persons who cannot conveniently call upon him in person, can address him by letter, and will receive prompt attention. Dr. K. is a graduate, with an experience of over fourteen years in the practice of medicine. Let the afflicted give him a call.

PUBLISHER'S NOTICES.

Important Knowledge.—As music is now an indispensable necessity in every household, any reliable information is valuable as to the best place to buy musical instruments. We have been acquainted for years personally with the firm of Redington & Howe, and have known of their business facilities. *We know* that no House between New York and Chicago can compete with them successfully, as their facilities are unequalled. In addition to the immense capital at their control, they have *special contracts* with several leading first-class manufacturers, whereby they buy cheaper than any other dealers in the United States *anywhere*. Their immense trade requires only a small profit on each one of their many transactions to ensure them a handsome income. Their terms are most highly liberal. And another important consideration is that their treatment of their customers is perfectly honorable, a very important matter in the purchase of such a complicated affair as a musical instrument. Their recommendation of instruments can be *depended on* implicitly.—This we know from an extensive acquaintance among hundreds to whom they have sold instruments. We advise our readers to give them a call, or certainly to write to them before deciding on the purchase of a Piano Forte, Organ or Melodeon, or any musical merchandise. See the Addenda to this volume, which contains a portion of their catalogue. Also see card on Co. Map.

Burke, Fitzsimons, Hone & Co., Importers, Jobbers and Retailers of Dry Goods, Fancy Goods and Woolens, No. 53 Main street, Rochester, publish a card on page 266. This House was established in 1849, since which time its success has been uninterrupted, each year increasing its amount of business. Their annual sales amount to the enormous sum of near \$1,500,000, their trade extending from the Eastern portions of the State to the "Far West." Occupying, as they do, fully 25,000 feet of flooring in actual business departments, every portion of which is crowded with immense piles of goods from foreign countries, as well as of domestic manufacture, renders the facilities of this house for Jobbing equal to any in the country. The firm are also proprietors of the "Genesee Falls Woolen Mills," where they manufacture 100,000 yards of goods annually.

Mothers, Read This!—So says Dr. G. T. Taft & Co., of Seneca Falls. In their advertisement on page 20, they desire to inform you of the wonderful qualities of their "Oriental Syrup," for children. We have heard of many cases where this valuable medicine has given great relief. They are also proprietors of "Rosenberger's Balm of Gilead Ointment," for old sores, ulcers, rheumatism, burns, chilblains, piles, &c., and for galls, or wounds on horses, it is unsurpassed.

Howe's Never-Falling Ague Cure and Tonic Bitters, and Howe's Concentrated Syrup, are prepared under the personal supervision of Dr. C. B. Howe, the proprietor, at Seneca Falls, N. Y., for ague and fever, and all periodic diseases, rheumatism, paralysis, etc. The "Ague Cure" has produced wonderful cures. The "Syrup," for the blood, liver, skin, digestive and uterine organs, has cured many cases of scrofula, cancer, tumors, goiter, salt rheum, scaldhead, and many other diseases too numerous to mention in this place. See card, page 20.

Cole's Patent Wedge Tongue Trace Buckle, as manufactured by Messrs. Harrell & Sargeant, at Syracuse, have secured a high reputation wherever they have been introduced. As the advertisement gives a good idea of the improvement, we advise the reader to peruse it.—See card, page 265.

O. A. Horn & Brother, Successors to E. E. Horn, manufacturers of Steam Engines, Circular Saw Mills and all kinds of machinery for manufacturing lumber, advertise inside first cover. Messrs. Horn are enterprising men and we cordially recommend them to all engaged in the manufacture of lumber, as men who understand their business, and who are prepared to furnish at short notice, and on reasonable terms all machinery used by carpenters, joiners and builders. Orders by mail addressed to Addison, Steuben County, will receive prompt attention.

Chas. Tremain & Co., manufacturers of Rag, Book, News, Tea and Wrapping Paper, at Manlius, publish a card on page 236. Publishers and paper dealers will find them fair and honorable men to purchase from. In the manufacture of *book and news*, they use only domestic stock, which is conceded to be superior to imported rags. They employ experienced paper makers only, and having improved machinery, they can insure a superior article in all cases. We use their paper in the publication of our directories.

The Steuben Courier, published by Hull & Barnes, Bath, N. Y., advertises on page 240. This is a thoroughly Republican paper of large size, and is calculated to supply the demand of a large class in the country who cannot fail to appreciate the efforts of the publishers to give them a reliable journal of passing events. *Job Printing* in all forms is executed at the Courier Office. Those who wish for first-class work at reasonable rates will call and have their wants supplied.

A. B. & W. E. Craig, dealers in Dry Goods, Groceries, Crockery, Boots, Shoes, Clothing, Drugs, and everything usually kept in a country store, publish a card on page 216. Messrs. Craig understand the wants of the public and how to supply them, and they are determined to do it at the lowest rate consistent with living. All kinds of country produce received and the highest price paid for it. Let all the inhabitants of Jasper and the region round about call on them for a supply, and none of them will be turned away unsupplied.

Keuka Vineyard and Propagating House, Lake Keuka, Wayne, N. Y., is one of the most extensive establishments of the kind in the State, and contains all the choicest varieties of grapes raised in this region. Several hundred acres of land in this vicinity are especially adapted to grape culture. For particulars see card, page 220, or address F. M. McDowell, agent.

Dr. T. H. Horton, Physician and Surgeon, is located at Cossville, in Bath, Steuben County, where he will be glad to relieve the sufferings of any who may give him a call. Those who have had occasion to test his skill in the treatment of disease, need no recommendation from us. To others we say give him a call. See card, page 236.

The Steuben Farmers' Advocate, published by Underhill & DeWolfe, Bath, N. Y., was established in 1815, and is the oldest newspaper in the County. For more than half a century it has carried its weekly messages to the homes of the citizens, and kept them posted as to what was going on in the world, and has mingled with its news, bits of gossip and advertisements showing where the wants of the people could be most cheaply and easily supplied. It has been enlarged from time to time, until it has become the largest in the Southern Tier. Let those who have not already subscribed, and who wish for a reliable Democratic paper, subscribe at once. See card, page 232.

William Walker, Insurance Agent, Corning, N. Y., whose card we publish on page 128, represents some of the oldest and most reliable Life and Fire Insurance Companies in the country. Their agency was established in 1856, and numbers amongst its customers most of the business men of Corning and the surrounding country.

Deutsch & Tschachli, wholesale and retail dealers in Furniture, and Undertakers, 89 main street, Hornellsville, N. Y., have one of the largest and best selected stocks of furniture to be found in this part of the State, and they are selling at prices that astonish their customers. Their stock of Undertaker's goods is large and well selected, embracing everything from metallic and walnut caskets to common coffins. Their card appears on page 212.

M. S. & R. E. Harris, Harness Makers, Cohocton, Steuben Co., publish a card on page 128. Messrs. Harris employ first class workmen and keep the best of stock from which they manufacture all kinds of Harness. Give them a call for anything in their line and you will be honorably dealt with.

Dodge & Lord, manufacturers of Melodeons and Reed Organs, at Ithaca, N. Y., were formerly connected with Syracuse manufactories. They have since moved their business where lumber is cheap, and expenses less than in the larger cities, like New York, Boston, Albany or Syracuse. The styles of their organs are particularly their own, possessing all modern improvements, and some unknown to other manufacturers. They have found market for their instruments in every county of the State, and in Northern Pennsylvania and New Jersey, and have an increasing trade with the West, in all of which places they are brought into successful competition with the first Eastern manufacturers. They are both practical men, and have secured workmen of long experience and tried abilities. Situated midway between the Erie and N. Y. C. Railroads, they can ship conveniently to all parts of the country. See card, page 174.

W. W. Wilson, dealer in Foreign and Domestic Dry Goods, &c., Bath, N. Y., publishes a card on page 228. Mr. W. keeps a large and well selected assortment, necessary to clothe a man or woman, and is selling at such prices that none can fail to be satisfied with them. Give him a call at 13 Liberty street.

The Canisteo Valley Times, Hornellsville, N. Y., is published by Thacher Tuttle. It has a large circulation in Steuben and adjoining counties and is worthy of the patronage which it receives. As an advertising medium it is unsurpassed by any paper in the vicinity. The *Job Office* is provided with all the facilities for doing every variety of plain and fancy work. See card, page 158.

A. Beekman, proprietor of the Bath Hardware Store, Bath, Steuben Co., N. Y., advertises on page 220. This house was established in 1840, and is the oldest and one of the most reliable Hardware Houses in the County, and has a reputation extending throughout this and adjoining Counties. The unparalleled success that has attended it has been the result of close attention to the wants of his customers, a thorough knowledge of the business, and by keeping at all times his stock complete in all departments. Saddlery Hardware is made a specialty, under the charge of a competent person. His trade in this line extends over several counties. All kinds of seeds are kept in large quantities, his purchases amounting to several thousand dollars annually.

Warren Wight, Propagator and dealer in the celebrated *Seneca Black Cap* and Davison's Thornless Raspberries, Grape Vines, Strawberries, and other small fruits, at Waterloo, Seneca Co., publishes a card on page 224. His experience in the business is large, and his soil is excellent, probably no better can be found in the State for the purpose he uses it. We advise our friends to peruse his advertisement and purchase their supplies of him. He uses great care in packing for shipment, and sends out none but first-class plants. It would do no harm to address him for a circular, and might be the means of affording you an abundance of his delicious fruits.

McCConnell & Co., dealers in Lumber, Maple street, Hornellsville, N. Y., advertise on page 128. Dressed Lumber, Sash, Doors and Blinds, are manufactured and furnished to order in large or small quantities. Builders and others in want of lumber will do well to give them a call.

Drakeford Brothers, manufacturers and dealers in Harness, Saddles, and all articles usually found in a first-class establishment, at 132 Canisteo street, corner of Park, Hornellsville, N. Y., publish a card on page 212. The proprietors feel confident that they can furnish any article in their line as cheap as it can be bought anywhere in the county. Repairing of all kinds done at short notice and on reasonable terms.

Preston & Heermans, Machinists and Iron Founders, Corning, N. Y., man-

ufacture Steam Engines, Boilers, Circular Saw Mills, Bridge Irons, Mill Machinery, Iron Fronts for buildings, Window and Door Caps and Sills, and Castings of every description. Mr. George W. Preston, of this firm, is a practical machinist, having had an experience of many years at the business, and for several years was foreman of a large establishment of this kind. It is generally conceded that he has no superior as a machinist in this section of the country. All machinery manufactured by this firm has his personal supervision. His card appears on page 210.

W. A. Smith, dealer in Dry Goods, Carpets, Boots, Shoes, &c., Addison, N. Y., has a large stock of goods which he is selling at low prices, as all his old customers know. By fair dealing and by selling at the lowest living profits, he has succeeded in building up a trade highly creditable to his enterprise. Groceries and Wall Paper of the best quality may always be found at his store. Call at the Iron and Brick Store, south side of the river, Addison, N. Y. See card, page 210.

C. Knight, manufacturer and dealer in Fashionable Furniture, No. 7 Pulteney Square, Bath, N. Y., advertises on page 228. This concern was established in 1843, and has recently been enlarged, offering rare inducements to those in want of any article of plain or ornamental furniture. Mr. K. is determined to sell at so low a price that no customer shall go away dissatisfied.

MOTHERS! READ THIS.

Are your children restless, irritable, wakeful, feverish? Are they cutting teeth? Are the gums red and painful? Have they diarrhoea? Have they fits or spasms? If so,

USE THE ORIENTAL SYRUP.

It is the only Syrup or Cordial, or CHILD MEDICINE in market free from Opium, Morphine, or Paragoric. These you can't give; or, at least, you ought not to. They destroy the functions of the BRAIN; the child grows pale; its eyes grow wild; its flesh becomes soft; it loses its mind; it becomes an Idiot. Mothers, these are facts! To be convinced, try it. The **Oriental Syrup** contains NONE of those poisons. It is perfectly harmless. It is soothing—quieting. The child sleeps sweetly, and awakes refreshed and lively. The teeth penetrate the gums without pain. It is good for aged and nervous people. TRY IT.

DR. G. T. TAFT & CO., Proprietors,
Seneca Falls, N. Y.

THE BALM OF GILEAD!

SIR ASHLEY COOPER, in one of his lectures to his class, says:—I have used the Balm of Gilead in my practice, in one form or other, for more than forty years; and for **Old Sores or Ulcers, Eruptions, Rheumatism, Burns, Chilblains, Scalds, Piles, Chafes, &c.**, it surpasses every other known remedy.

Rosenberger's Balm of Gilead Ointment

Is composed of Oils and Balsams from trees and shrubs, and for all the diseases referred to by Dr. Cooper, we warrant it almost a specific. **For Gall, Grease and Wounds of Horses**, it has no equal. We warrant it; therefore do not hesitate to try it for every kind of **Wound, Bruise or Sore**.

DR. G. T. TAFT & CO., Proprietors,
Seneca Falls, N. Y.

HOWE'S NEVER-FAILING AGUE CURE AND TONIC

B I T T E R S ,

Warranted to cure, permanently, Chills, Ague & Fever, and all Periodic Diseases. It cures Sciatic Rheumatism, Neuralgia, Paralysis, and all Weaknesses, &c., being wonderfully adapted to CURING Disease, restoring health and strength.

This Preparation is purely Vegetable, and entirely free from Quinine or Mineral Poison. N. B. Persons using this Medicine can commence working immediately, and without fear of the disease returning.

Howe's Concentrated Syrup.

FOR THE BLOOD, LIVER, SKIN, DIGESTIVE & UTERINE ORGANS, AND THE SYSTEM GENERALLY.

It Restores Health by Purifying

the Blood, Correcting the Liver, Cleansing the Skin, Strengthening and Restoring the Digestive and Uterine Organs, Regulating and Renovating the System.

It cures Scrofula or Kings Evil, Cancers, Tumors, Goiter, all Swellings of the Throat or Glands, Salt Rheum, Scald Head, Camp Itch, Erysipelas, Carbuncles, Boils, Blotches, Pimples, Sores, Mercurial and Syphilitic diseases, Ulceration of the Mouth and Throat, Liver, Kidneys; also Catarrh, Rheumatism, Piles, Gravel, Jaundice, Uterine and Female difficulties

C. B. HOWE, M. D., Prop'r, Seneca Falls, N. Y.

Office on Fall St. Rooms over the P.O. Residence, Cayuga St. above R. R.

THE STATES,

THEIR SETTLEMENT, ADMITTANCE TO THE UNION, POPULATION,
SUFFRAGE LAWS, ETC.

ALABAMA was settled near Mobile, in 1702, by the French; was formed into a Territory by act of Congress, approved March 3, 1817, from the eastern portion of the Territory of Mississippi; framed a Constitution August 2, 1819, and was admitted into the Union December 14 of the same year. Area 50,722 square miles, or 32,462,080 acres.—Population in 1860, 964,201, of whom 435,080 were slaves. It is the chief cotton growing State of the Union. White male citizens who have resided one year in the State and three months in the county, are entitled to vote. An election for a Convention was held December 24, 1860, and a majority of over 50,000 votes cast for secession; the Convention met January 7, 1861, and on the 11th passed the ordinance of secession, by a vote of 61 to 39, which was followed on the 21st by the resignation of its members of Congress.

ARKANSAS was settled at Arkansas Post in 1685, by the French, and was part of the Louisiana purchase ceded by France to the United States, April 30, 1803. It was formed into a Territory by act of Congress, March 2, 1819, from the southern part of the Territory of Missouri; its western boundary was settled May 26, 1824, and its southern, May 19, 1828. Having adopted a Constitution, a memorial was presented in Congress, March 1, 1836, and an act for its admission into the Union passed June 15 of the same year. Area 52,198 square miles, or 33,406,720 acres. In 1860 its population was 435,450, of whom 111,115 were slaves. It is an agricultural State, its staples being corn and cotton.—Citizenship and residence in the State for six months, qualify voters in the county and district where they reside. January 16, 1861, its Legislature ordered a State Convention, which assembled, and on May 6, voted to secede, 69 to 1. January 4, 1864, a Convention assembled in Little Rock, which adopted a new Constitution, the principle feature of which consisted in a clause abolishing slavery. The Convention adjourned January 22. This body also inaugurated a Provisional Government. The Constitution was submitted to the people, and 12,177 votes cast for it, to 226 against it. The State was re-organized under the plan contained in the Amnesty Proclamation of President LINCOLN, in pursuance of which an election was held March 14, 1864. The vote required under the Proclamation was 5,405. About 16,000 votes were cast.

CALIFORNIA was settled at Diego in 1768, by Spaniards, and was part of the territory ceded to the United States by Mexico, by the treaty concluded at Guadaloupe Hidalgo, February 22, 1848. After several ineffectual attempts to organize it as a Territory or admit it as a State, a law was passed by Congress for the latter purpose, which was approved September 9, 1850. Area 188,981 square miles, or 120,947,784 acres. Population in 1860, 305,439. It is the most productive gold mining region on the continent, and also abounds in many other minerals.—White male citizens of the United States, and those of Mexico who may choose to comply with the provisions of the treaty of Queretaro, of May 30, 1848, who have resided in the State six months and in the county or district thirty days, are entitled to vote.

CONNECTICUT was settled at Windsor, in 1633, by English Puritans from Massachusetts, and continued under the jurisdiction of that Province until April 23, 1662, when a separate charter was granted, which continued in force until a Constitution was formed, September 15, 1818. It was one of the original thirteen States, and ratified the United States Constitution, January 9, 1788. Area 4,674 square miles, or 2,991,360 acres. Population in 1860, 460,147. It is one of the most densely populated and principal manufacturing States in the Union. Residence for six months, or military duty for a year, or payment of State tax, or a freehold of the yearly value of seven dollars, gives the right to vote.

DELAWARE was settled at Wilmington, early in 1638, by Swedes and Finns; was granted to William Penn, in 1682, and continued under the government of Pennsylvania until the adoption of a Constitution, September 20, 1776; a new one was formed June 12, 1792. It was one of the original thirteen States, and ratified the United States Constitution, December 7, 1787. Area 2,120 square miles, or 1,356,800 acres.—Population, in 1860, 112,216, of whom 1,798 were slaves. It is a grain and fruit growing State, with some extensive manufactories. Residence in the State one year, and ten days in the election district, with payment of a State or county tax assessed ten days prior to an election, gives the right to vote, except that citizens between twenty-one and twenty-two years of age need not have paid the tax.

FLORIDA was settled at St. Augustine, in 1565, by Spaniards; was formed from part of the territory ceded by Spain to the United States by treaty of February 22, 1819; an act to authorize the President to establish a temporary government was passed March 3, 1819; articles of surrender of East Florida were framed July 10, and of West Florida, July 17, 1821, and it was then taken possession of by General Jackson as Governor. An act for the establishment of a Territorial Government was passed March 30, 1822, and by act of March 3, 1823, East and West Florida were constituted one Territory. Acts to establish its boundary line between Georgia and Alabama were passed May 4, 1826, and March 2, 1831. After several ineffectual attempts to organize it into two Territories, or into a State and Territory, an act for its admission into the Union was passed March 3, 1845. Area 59,268 square miles, or 37,930,520 acres. Population, in 1860, 140,425, of whom 61,745 were slaves. It is an agricultural State, tropical in its climate and products. Every free white male citizen, who has resided in the State two years and in the county six months, and has been enrolled in the militia (unless exempt by law,) is qualified to vote; but no soldier, seaman

or marine can vote unless qualified before enlistment. Its Legislature called a Convention, December 1, 1860, which met January 3, 1861, and passed a secession ordinance on the 10th by a vote of 62 to 7.

GEORGIA was settled at Savannah, in 1733, by the English under General Oglethorpe. It was chartered June 9, 1732; formed a Constitution February 5, 1777; a second in 1785 and a third May 30, 1798.— It was one of the original thirteen States, and ratified the United States Constitution January 2, 1788. Area 58,000 square miles, or 37,120,000 acres. Population, in 1860, 1,057,286, of whom 462,198 were slaves. It is a large cotton and rice growing State. Citizens of the State, six months resident of the county where voting, who have paid taxes the year preceding the election, are entitled to vote. November 18, 1860, its Legislature ordered an election for a State Convention, which assembled and passed a secession ordinance January 19, 1861, by a vote of 208 to 89, and on the 23d of the same month its members of Congress resigned.

ILLINOIS was settled at Kaskaskia, in 1683, by the French, and formed part of the northwestern territory ceded by Virginia to the United States. An act for dividing the Indiana Territory and organizing the Territory of Illinois, was passed by Congress, February 3, 1809; and an act to enable it to form a State Constitution, Government, &c., was passed April 18, 1818; a Constitution was framed August 26, and it was admitted into the Union December 23 of the same year. Area 54,405 square miles, or 64,819,200 acres. Population, in 1860, 1,711,951. It is the chief "prairie" State, and the largest grain growing and second largest cattle raising State in the Union. All white male inhabitants, who have resided in the State one year and election district sixty days, can vote in the district where actually residing.

INDIANA was settled at Vincennes, in 1690, by the French, and formed part of the northwestern territory ceded by Virginia to the United States. It was organized into a Territory May 7, 1800, from which the Territory of Michigan was set off in 1805, and Illinois in 1809. An act was passed to empower it to form a State Constitution, Government, &c., April 19, 1816, and it was admitted into the Union December 11 of the same year. Area 33,809 square miles, or 21,637,760 acres. Population, in 1860, 1,350,428. It is an agricultural State, chiefly devoted to grain growing and cattle raising. A residence of one year in the State entitles males of 21 years of age to vote in the county of their residence.

IOWA was first settled at Burlington by emigrants from the Northern and Eastern States. It was part of the region purchased from France; was set off from the Territory of Wisconsin and organized as a separate Territory June 12, 1838; an act for its admission as a State was passed and approved March 3, 1845, to which the assent of its inhabitants was to be given to be announced by Proclamation of the President, and on December 28, 1846, another act for its admission was passed. Area 50,914 square miles or 32,584,960 acres. Population, in 1860, 674,913. It is an agricultural State, resembling Illinois, and contains important lead mines. White male citizens of the United States, having resided in the State six months and county twenty days, are entitled to vote.

KANSAS was formed out of the original Louisiana purchase, and organized into a Territory by act of Congress, May 30, 1854, and after several ineffectual attempts was finally admitted into the Union in January, 1861. Area 78,418 square miles, or 50,187,520 acres. Population, in 1860, 107,206. It is an agricultural State, with a soil of rich and deep black loam, except the central portion, which is partly a desert. The western portion is a fine grazing country, well wooded. Residence in the State six months, and in the township or ward thirty days, confers the right of suffrage on white male citizens. It also abounds in minerals.

KENTUCKY was settled in 1775, by Virginians; formed into a Territory by act of the Virginia Legislature, December 18, 1789, and admitted into the Union June 1, 1792, by virtue of an act of Congress passed February 4, 1791. Area 37,680 square miles, or 24,115,200 acres.—Population in 1860, 1,155,684, of whom 225,483 were slaves. It is an agricultural State, raising more flax and hemp than any other. Loyalty, a residence of two years in the State and one in the county are the requirements to vote. "Any citizen of this State who shall enter the service of the so-called Confederate States, in either a civil or military capacity; or into the service of the so-called Provisional Government of Kentucky, in either a civil or military capacity; or having heretofore entered such service of either the Confederate States or Provisional Government, shall continue in such service after this act takes effect, (March 11, 1862,) or shall take up or continue in arms against the military forces of the United States or State of Kentucky, or shall give voluntary aid and assistance to those in arms against said forces, shall be deemed to have expatriated himself, and shall no longer be a citizen, except by permission of the Legislature by a general or special statute."

LOUISIANA was settled at Iberville, in 1699, by the French, and comprised a part of the territory ceded by France to the United States, by treaty of April 30, 1803, which purchase was erected into two Territories by act of Congress March 26, 1804, one called the Territory of Orleans, the other the District of Louisiana, afterwards changed to that of Missouri.—Congress, March 2, 1806, authorized the inhabitants of Orleans Territory to form a State Constitution and Government when their population should amount to 60,000; a Constitution was adopted January 22, 1812, and the State admitted into the Union April 8 of the same year, under the name of Louisiana. Area 41,255 square miles, or 26,403,200 acres. Population in 1860, 708,002, of whom 331,726 were slaves. It is the chief sugar producing State of the Union. Two years' residence in the State and one in the parish are the qualifications of voters. December 10, 1860, the Legislature ordered a State Convention to be held, which assembled and passed an ordinance of secession January 26, 1861, by a vote of 113 to 17. The people voted on the question, and on March 28 the following was announced as the result: For, 20,448; against, 17,296; a majority of 3,152. The Convention ratified the 'Confederate' Constitution March 11, 1861, by a vote of 107 to 7, and refused to submit it to the people by 94 to 10. On the 11th day of January, 1864, Maj. Gen. Banks issued a Proclamation for an election of State officers and delegates to a Constitutional Convention, for the purpose of affecting a reconstruction of the State Government under the plan suggested in the Amnesty Proclamation of President Lincoln. The election was held on the 22d day of February, 1864. The officers thus elected were installed March 4. The total vote cast was 10,725. The vote requisite under the Proclamation was 5,051. The Convention amended the Constitution so as to abolish slavery. The new Constitution was adopted by the people by a vote of 6,836 for, to 1,566 against.

MAINE was settled at York, in 1623, by the English, and was formerly under the jurisdiction of Massachusetts. October 29, 1819, the inhabitants of the District of Maine framed a Constitution; applied for admission December 8, 1819. Congress passed an act March 3, 1820, and it was admitted as a State March 15, of the same year. Area 31,766 square miles, or 20,330,240 acres. Population, in 1860, 628,279. It is largely engaged in the lumber trade and ship building. Citizens of the United States, except paupers and persons under guardianship, who have resided in the State for three months next preceding the election, are entitled to vote.

MARYLAND was settled at St. Mary, in 1634, by Irish Roman Catholics, having been chartered June 20, 1632. It was one of the original thirteen States; formed a Constitution August 14, 1776, and ratified the Constitution of the United States April 28, 1788. Area 11,124 square miles, or 7,119,260 acres. Population in 1860, 687,049, of whom 87,189 were slaves. It is mainly an agricultural State, producing grain and tobacco. A residence of one year in the State, and six months in the county, gives the right to vote to every white male citizen who takes the oath of allegiance prescribed in the Constitution. January 28, 1864, a bill passed the Legislature submitting to the people the question of a Convention to revise the Constitution of the State. The popular vote on the question was as follows: For Convention, 32,203; against, 18,337. The Convention assembled and adopted a Constitution abolishing slavery, which was submitted to and adopted by the people; and in accordance with its provisions, on the 29th of October, 1864, the Governor issued his Proclamation declaring the slaves in that State free from the 1st day of November.

MASSACHUSETTS was settled at Plymouth, November 3, 1620, by English Puritans, and Charters were granted March 4, 1629, January 13, 1630, August 20, 1726, and October 7, 1731. It was one of the original 13 States; adopted a Constitution March 2, 1780, which was amended November 3, 1820, and ratified the Constitution of the United States February 6, 1788. Area 7,800 square miles, or 4,992,000 acres. Population in 1860, 1,231,066. It is a largely commercial, the chief manufacturing and most densely populated State in the Union. A residence of one year in the State, and payment of State or county tax, gives the right to vote to male citizens of 21 years and upward, except paupers and persons under guardianship.

MICHIGAN was settled at Detroit in 1670, by the French, and was part of the territory ceded to the United States by Virginia. It was set off from the territory of Indiana, and erected into a separate Territory January 11, 1805; an act to attach to it all the territory of the United States west of the Mississippi river, and north of the State of Missouri, was passed June 28, 1834. Wisconsin was organized from it April 30, 1836. In June of the same year an act was passed to provide for the admission of the State of Michigan into the Union, and a Constitution having been adopted, it was admitted January 26, 1837. Area 56,243 square miles, or 35,995,552 acres. Population in 1860, 749,113. It is a grain growing and cattle rearing State, with rich and extensive mines of copper and iron in the Northern Peninsula. A residence in the State of six months preceding the election, entitles white male citizens to vote.

MINNESOTA was settled about 1846, chiefly by emigrants from the Northern and Western States. It was organized as a Territory by act of Congress approved March 3, 1849, and admitted into the Union February 26, 1857. Area 95,274 square miles, or 60,975,536 acres. Population in 1860, 172,123 whites, and about 25,000 Indians, many of the tribes being of a warlike character. It is an agricultural State, chiefly devoted to Northern grains. The right to vote is extended to male persons of 21 years of age, of the following classes, if they have resided in the United States one year, the State four months, and the election district ten days: White citizens of the United States, and those of foreign birth who have declared their intention to become citizens; persons of mixed white and Indian blood who have adopted the customs of civilization, and those of pure Indian blood who have been pronounced capable by any district court of the State.

MISSISSIPPI was settled at Natchez, in 1716, by the French, and was formed out of part of the territory ceded to the United States by South Carolina in 1787, and Georgia in 1802. It was organized as a Territory by act of Congress, April 7, 1789, and enlarged on the north March 27, 1804, and on the south May 14, 1812. After several unsuccessful attempts to enter the Union, Congress finally passed an act March 1, 1817, enabling the people of the western part of the Territory to form a State Constitution and Government, which being complied with August 15, it was admitted December 10 of the same year. Area 47,156 square miles, or 30,179,840 acres. Population in 1860, 791,305, of whom 436,631 were slaves. It is the second cotton growing State of the Union. Citizens who have resided one year in the State, and four months in the county, and having performed military duty or paid taxes, are entitled to vote. A Convention met January 7, 1861, and on the 9th passed an ordinance of secession by a vote of 84 to 15.

MISSOURI was settled at Genevieve in 1763, by the French, and was part of the territory ceded by France by treaty of April 30, 1803. It was created under the name of the District of Louisiana, by an act approved March 26, 1804, and placed under the direction of the officers of the Indiana Territory, and was organized into a separate Territory June 4, 1812, its name being changed to that of Missouri; and was divided March 2, 1819, the Territory of Arkansas being then created. An act authorizing it to form a State Constitution and Government was passed March 6, 1820, and it was admitted into the Union December 14, 1821. Area 67,380 square miles, or 43,123,200 acres. Population in 1860, 1,182,012, of whom 114,931 were slaves. An act of gradual emancipation was passed July 1, 1863, by a vote of 51 to 30. On the 6th of January, 1865, a Constitutional Convention assembled in St. Louis, and on the 8th of April adopted a new Constitution, declaring the State free, prohibiting compensation for slaves, and adopting many other radical changes. On the 6th of June the Constitution was adopted by the people by a vote of 43,670 to 41,808, and pursuant to a Proclamation issued on the 1st of July, the Constitution went into effect July 4, 1865. It is an agricultural and mining State. Citizens of the United States who have resided in the State one year, and county three months, are entitled to vote. By an act passed by the Legislature of 1863, voting by ballot was adopted, and the *viva voce* system abolished.

NEBRASKA was settled by emigrants from the Northern and Western States, and was formed out of a part of the territory ceded by France, April 30, 1803. Attempts to organize it were made in 1844 and 1848, but it was not accomplished until May 30, 1854. Area 75,955 square miles, or 44,796,160 acres. Population 28,841, besides a few roving tribes of Indians. A Convention adopted a State Constitution February 9, 1866, which was submitted to the people on the 22d of June, and adopted by a vote of 3,938 for, to 3,838 against, and State officers were elected. A bill was passed by Congress, July 27th, admitting the State, but the President withheld his signature. In February, 1867, Congress passed an act imposing certain conditions to admission, which were promptly accepted, and the territory became a State. It is an agricultural region, its prairies affording boundless pasture lands.

NEVADA was organized as a Territory March 2, 1861. Its name signifies snowy, and is derived from the Spanish word *nieve* (snow.) It comprises 81,539 square miles, or 52,184,960 acres, lying mostly within the Great Basin of the Pacific coast. Congress, at its session in 1864, passed an act which was approved March 21, to enable the people of the Territory to form a Constitution and State Government, in pursuance of which a Government was organized and the Territory admitted as a State by Proclamation of the President, October 31, 1864. At the time of its organization the Territory possessed a population of 6,857 white settlers. The development of her mineral resources was rapid and almost without parallel, and attracted a constant stream of immigration to the Territory. As the population has not been subject to the fluctuations from which other Territories have suffered, the growth of Nevada has been rapid and steady. At the general convention election of 1863, 10,934 votes were cast. During 1864 great accessions to the population were made. It is probably the richest State in the Union in respect to mineral resources. No region in the world is richer in argentiferous leads. It also contains an immense basin of salt, five miles square. Quartz mills are a very important feature in mining operations. The State is barren for agricultural purposes, and is remarkably healthy.

NEW HAMPSHIRE was settled at Dover, in 1623, by English Puritans, and continued under the jurisdiction of Massachusetts until September 18, 1679, when a separate charter was granted. It was one of the original thirteen States, and ratified the United States Constitution June 21, 1788; its State Constitution was framed January 5, 1776, and amended in 1784 and 1792. Area 9,280 square miles, or 5,939,200 acres. Population in 1860, 326,073. It is a grazing and manufacturing State. All male citizens, except paupers, are allowed to vote.

NEW JERSEY was settled at Bergen, in 1624, by the Dutch and Danes; was conquered by the Dutch in 1655, and submitted to the English in 1664, being held thereafter under the same grants as New York, until it was surrendered to the Crown in 1702. It was one of the original thirteen States, adopted a State Constitution July 2, 1776, and ratified the United States Constitution December 18, 1787. Area 8,320 square miles, or 5,324,800 acres. Population in 1860, 672,035. It is a grain and fruit growing region, its orchard and market products being relatively greater than those of any other State. A residence of one year in the State gives the right to vote, except to paupers, &c.

NEW YORK was settled at Manhattan, in 1614, by the Dutch; was ceded to the English by grants to the Duke of York, March 20, April 26, and June 24, 1664; was retaken by the Dutch in 1673, and surrendered again by them to the English, February 9, 1674. It was one of the original thirteen States; ratified the United States Constitution July 26, 1788; framed a Constitution April 20, 1777, which was amended October 27, 1801, and November 10, 1821; a new one was adopted November 3, 1846. Area 47,000 square miles, or 30,080,000 acres. Population in 1865, 3,831,777. It is the most populous, wealthy and commercial of the States. White male citizens of the United States, who have resided in the State one year, in the county four months, and election district thirty days, are entitled to vote; and all men of color who have resided in the State three years, and own and pay taxes on a freehold assessed at \$250.

NORTH CAROLINA was settled at Albemarle, in 1650, by the English, and was chartered March 20, 1663. It was one of the original thirteen States, and ratified the United States Constitution, November 21, 1789; its State Constitution was adopted December 18, 1776, and amended in 1835. Area 50,704 square miles, or 32,450,560 acres. Population in 1860, 992,622, of whom 331,059 were slaves. It is an agricultural State, with some mines and extensive pine forests. Every freeman of 21 years of age, having resided one year in any county in the State, may vote for a member of the House of Commons, but must own fifty acres of land to vote for a Senator. A State Convention passed an ordinance of secession May 21, 1861. An election for delegates to a State Convention took place September 21, 1865. The Convention assembled October 2. On the 2d of October it passed an ordinance forever prohibiting slavery. The Legislature ratified the Constitutional amendment December 1. An election was held on the first Thursday of November, for Governor, Members of Congress and the Legislature.

OHIO was settled at Marietta, in 1788, by emigrants from Virginia and New England; was ceded by Virginia to the United States October 20, 1783; accepted by the latter March 1, 1784, and admitted into the Union April 30, 1802. Area 39,964 square miles, or 25,576,960 acres. Population in 1860, 2,339,511. It is the most populous and wealthy of the agricultural States, devoted principally to wool growing, grain and live stock. A male of 21 years of age, who has resided in the State one year, and has paid or been charged with a State or county tax, is eligible to vote.

OREGON, although it had previously been seen by various navigators, was first taken possession of by Capt. Robert Gray, who entered the mouth of its principal river May 7, 1792, naming it after his vessel, the *Columbia*, of Boston. Exploring expeditions soon followed, and fur companies sent their trappers and traders into the region. In 1811 a trading post was established at the mouth of the *Columbia* river by the American Fur Company, who named it Astoria. For some time a Provisional Territorial Government existed, but the boundary remained unsettled until the treaty with Great Britain in 1846, when the 49th parallel was adopted. It was formally organized as a Territory August 14, 1848; was divided March 2, 1853, on the 46th parallel, the northern portion being called Washington and the southern Oregon. November 9, 1857, a State Constitution was adopted, under which it was admitted February 14, 1859,

about one-third of it on the east being added to Washington Territory, its northern boundary following the Columbia river until its intersection with latitude 46° north. Area 102,606 square miles, or 65,667,840 acres. Population in 1860, 52,465. It is an agricultural State, possessed of a fertile soil, extensive pastures, genial climate, and is well wooded. Gold and other precious metals are found in considerable abundance.

PENNSYLVANIA was settled at Philadelphia, in 1681, by English Quakers, and was chartered February 28 of the same year. It was one of the original thirteen States, ratifying the United States Constitution December 12, 1787; adopted a State Constitution September 28, 1776, and amended it September 2, 1790. Area 46,000 square miles, or 29,440,000 acres. Population in 1860, 2,906,115. It is the second State in wealth and population, and the principal coal and iron mining region in the Union. Residence in the State one year, and ten days in the election district, with payment of a State or county tax assessed ten days prior to an election, gives the right to vote; except that citizens between 21 and 22 years of age need not have paid the tax.

RHODE ISLAND was settled at Providence in 1636, by the English from Massachusetts, under Roger Williams. It was under the jurisdiction of Massachusetts until July 8, 1662, when a separate charter was granted, which continued in force until the formation of a Constitution in September, 1842. It was one of the original thirteen States, ratifying the United States Constitution May 29, 1790. Area 1,306 square miles, or 835,840 acres. Population in 1860, 174,620. It is largely engaged in manufactures. A freehold possession of \$13; or, if in reversion, renting for \$7, together with a residence of one year in the State and six months in the town; or, if no freehold, then a residence of two years in the State and six months in the town, and payment of \$1 tax or military service instead, are the qualifications of voters.

SOUTH CAROLINA was settled at Port Royal, in 1670, by the English, and continued under the charter of Carolina, or North Carolina, until they were separated in 1729. It was one of the original thirteen States, ratifying the United States Constitution May 23, 1798; it framed a State Constitution March 26, 1776, which was amended March 19, 1778, and June 3, 1790. Area 29,385 square miles, or 18,806,400 acres. Population in 1860, 703,708, of whom 402,406 were slaves, an excess of 101,270 over the whites. It is the principal rice-growing State. Whites, who have resided in the State two years and district six months, and have a freehold of fifty acres of land, or have paid a State tax, are entitled to vote. December 17, 1860, a Convention assembled in Columbia, adjourned to Charleston, and on the 24th unanimously adopted an ordinance of secession, which was followed the next day by a Declaration of Causes claimed to be sufficient to justify the act. An election for delegates to a State Convention was held September 4, 1865. The Convention assembled September 13, and adjourned on the 28th. It repealed the ordinance of secession, abolished slavery, equalized the representation of the Senate and taxation throughout the State, giving the election of Governor and Presidential electors to the people, ordered voting in the Legislature by *viva voce*, endorsed the Administration unanimously, and directed a commission to submit a code to the Legislature for the protection of the colored population. The Legislature ratified the Constitutional Amendment November 13, 1865.

TENNESSEE was settled at Fort Donelson, in 1756, by emigrants from Virginia and North Carolina; was ceded to the United States by North Carolina, December, 1789, conveyed by the Senators of that State February 25, 1790, and accepted by act of Congress April 2 of the same year; it adopted a Constitution Feb. 6, 1796, and was admitted into the Union the 1st of June following. Area 45,600 square miles, or 29,184,000 acres. Population in 1860, 1,109,601, of whom 275,179 were slaves. It is a mining and agricultural State, and is largely productive of live stock. Citizens of the United States who have resided six months in the county are entitled to vote. A military league was formed between the Governor, Isham G. Harris, and the rebel States, May 7, 1861, ratified the same day by the Senate by a vote of 14 to 6, and a Declaration of Independence submitted to the people, the election to be held June 8, the result of which was declared by the Governor, June 24, to be 104,913 for, and 47,238 against. This movement not being acceptable to the people of East Tennessee, which had declared against separation by a vote of 32,923 to 14,780, they, in a Convention held at Greenville, June 18-21, repudiated it. Andrew Johnson, Provisional Governor of the State, called a State Convention to be held in Nashville the second Monday in January. Delegates were elected, the Convention met, declared slavery forever abolished, prohibited compensation to owners of slaves, and abrogated the secession ordinances. These amendments of the Constitution were submitted to the people 22d of February, 1865, with the following result: For ratification, 22,197; rejection, 63. The United States Constitutional Amendment was ratified April 5, 1865.

TEXAS was first settled at Bexar, in 1694, by Spaniards; formed a part of Mexico until 1836, when she revolted from that Republic and instituted a separate Government, under which she existed until admitted into the Union by a joint resolution approved March 1st, 1845, imposing certain conditions, which were accepted, and a Constitution formed July 4 of the same year, and another joint resolution adopted by Congress, consummating the annexation, was approved December 29, 1845. Area 237,504 square miles, or 152,002,500 acres. Population in 1860, 604,215, of whom 182,566 were slaves. It is an agricultural region, principally devoted to grain, cotton and tropical fruits. Free white male citizens of 21 years of age, who have resided in the State one year and district six months are entitled to vote. A Convention assembled at Galveston January 28, 1861, and on February 1 passed an ordinance of secession, by a vote of 166 to 7, to be submitted to the people February 23, and on March 4 they declared the State out of the Union, and Gov. Houston issued a Proclamation to that effect.

VERMONT was settled in 1724, by Englishmen from Connecticut, chiefly under grants from New Hampshire; was formed from a part of the territory of New York, by act of its Legislature March 6, 1769; framed a Constitution December 25, 1777, and was admitted into the Union March 4, 1791, by virtue of an act of Congress passed February 18 of the same year. Area 10,212 square miles, or 6,535,680 acres. Population in 1860, 315,098. It is a grazing region, producing more wool, live stock, maple sugar, butter, cheese and hay, in proportion to its population, than any other State. Any citizen of the United States who has resided in the State one year, and will take the oath of allegiance, is entitled to vote.

VIRGINIA was settled at Jamestown, in 1607, by the English, and was chartered April 10, 1606, May 23, 1609, and March 12, 1612. It was one of the original thirteen States, ratifying the United States Constitution June 25, 1788; it framed a State Constitution July 5, 1776, which was

amended January 15, 1830. The State was divided in 1863. Present area 37,352 square miles. Population in 1860, 1,314,532, of whom 481,410 were slaves. It is a large corn producing, and the chief tobacco growing State. Every white male citizen of the age of 21 years, who has been a resident of the State for one year, and of the county, city or town where he offers to vote for six months next preceding an election, and has paid all taxes assessed to him, after the adoption of the Constitution, under the laws of the Commonwealth after the re-organization of the county, city or town where he offers to vote, is qualified to vote for members of the General Assembly and all officers elective by the people. A Convention sitting in Richmond on the 17th of April, 1861, passed an ordinance of secession, by a vote of 88 to 55, which was submitted to the people at an election held May 23, the result of which was announced June 25 to be 128,824 for, and 32,134 against. The State Government was re-organized by a Convention which met at Wheeling, May 11, 1861. Upon the division of the State in 1863, the seat of Government was removed to Alexandria. A State Constitutional Convention, March 10, 1864, adopted a section abolishing slavery.

WEST VIRGINIA.—On the passage of the ordinance of secession by the Virginia Convention, a Convention of the western and other loyal counties of the State was held at Wheeling, which assembled May 11, 1861, and on the 17th unanimously deposed the then State officers and organized a Provisional Government. On the 26th of November, 1861, a Convention representing the western counties assembled in Wheeling and framed a Constitution for West Virginia, which was submitted to the people on the 3d of May, 1862, and adopted by them by a nearly unanimous vote. The division of the State was sanctioned by the Legislature May 13, 1862, and ratified by Congress by an act approved December 31, 1862, conditioned on the adoption of an amendment to the Constitution providing for the gradual abolition of slavery, which was done on the 24th of March, 1863, by a vote of the qualified electors of the proposed State, 28,318 voting in favor of the amendment, and 572 against it. In pursuance of the act of Congress, the President issued a Proclamation, April 20, 1863, admitting the State sixty days from the date thereof, and on the 20th of June the new State Government was formally inaugurated. Area 24,000 square miles. Population in 1860, 350,599, of whom 12,754 were slaves. It is a large corn producing State, and abounds in coal and other minerals. The Alexandria Legislature adopted the United States Constitutional Amendment February 9, 1865. White male citizens, residents of the State one year and county thirty days, unless disqualified by rebellion, are entitled to vote.

WISCONSIN was settled at Green Bay, in 1669, by the French; was a part of the territory ceded by Virginia, and was set off from Michigan December 24, 1834, and was organized into a Territory April 30, 1836. Iowa was set off from it June 12, 1838, and acts were passed at various times setting its boundaries. March 3, 1847, an act for its admission into the Union was passed, to take effect on the issuing of a Proclamation by the President, and by act of May 29, 1848, it was admitted into the Union. Area 53,924 square miles, or 34,511,360 acres. Population in 1860, 775,881. It is an agricultural State, chiefly engaged in grain raising and wool growing. Both white and colored citizens of the United States, or white foreigners who have declared their intention to become citizens, are entitled to vote. Colored citizens were admitted to the franchise, by a decision of the Supreme Court, rendered the 27th day of March, 1866, holding that, whereas an election was held in 1849, under the provisions of chapter 137, of that year, at which election 5,265 votes were cast in

favor of the extension of the right of suffrage to colored men, and 4,075 against such extension, therefore, the section of said law conferring such right had been constitutionally adopted and is the law of the land.

THE TERRITORIES,

THEIR BOUNDARIES, AREA, PHYSICAL FEATURES, ETC.

ALASKA, our new territory, recently purchased of Russia, comprehends all the north-west coast on the Pacific, and the adjacent islands north of the parallel of 50 degrees 40 minutes north, and the portion of the mainland west of the meridian (about 140° west) of Mount St. Elias. The area is computed at 481,276 square miles. The climate, although warmer than in the same latitude on the eastern coast, is too rigorous to admit of successful agricultural operations, and the chief value of the country and adjacent seas is derived from their fisheries and hunting grounds. The southern and central portions are mountainous; the northern portion along the Arctic ocean is quite flat, nowhere rising more than fifteen or twenty feet above the sea. The population is estimated at about 80,000, mostly Esquimaux.

ARIZONA was organized by the Thirty-Seventh Congress, in the winter of 1863, out of the western half of New Mexico, the boundary between the two Territories being the 109th meridian (32d west from Washington,) and includes the greater portions of the valleys of Colorado and Gila, which two rivers drain its entire surface, with parts of Utah, New Mexico and Nevada, and yet convey, it is reported, a less volume of water to the sea than the Hudson at Albany. The fertile Messilla Valley was left with New Mexico. The Territory forms a block nearly square, and contains 126,141 square miles, or 80,730,240 acres. Its white population is probably considerably less than 10,000. For agricultural purposes it is probably the most worthless on the Continent, owing to the absence of rains, but it is reputed to abound in silver mines.

COLORADO was organized March 2, 1861, from parts of Kansas, Nebraska and Utah, and is situated on each side of the Rocky Mountains, between latitude 37° and 41°, and longitude 25° and 32° west from Washington. Area 104,500 square miles, or 66,880,000 acres. Population 50,000, besides numerous tribes of Indians. By an enabling act passed March 21, 1864, the people of the Territory were authorized to frame a State Constitution and organize a State Government, and a Convention accordingly met in 1865, and on the 12th of August adopted a Constitution, which was submitted to and adopted by the people September 5, and State officers elected November 14. A bill to admit the Territory as a State passed Congress, but was vetoed May 25, 1866. It is said to be a superior grazing and cattle producing region, with a healthy climate and rich soil. An extensive coal bed, and also gold, iron and other minerals abound.

DAKOTA was first settled by employe'es of the Hudson Bay Company, but is now being peopled by emigrants from the Northern and Western States. It was set off from the western portion of Minnesota when that Territory became a State in 1857, and was organized March 2, 1861. Area 148,932 square miles, or 95,316,480 acres. Population 2,576 whites, and 2,261 Indians, besides the roving tribes.

IDAHO was organized by the Thirty-Seventh Congress, at its second session, in the winter of 1863. Its name means 'Bead of the Mountains,' and it embraces the whole breadth of the Rocky Mountain region, and has within its bounds the head waters of nearly all the great rivers that flow down its either slope, but the greater portion lies east of the mountains. Its southern boundary is the 41st, its northern the 46th parallel of latitude. It extends from the 104th meridian on the east to the 110th on the west. Area 326,373 square miles, or 208,870,720 acres. For agricultural purposes it is comparatively worthless, but abounds in gold and other valuable mines.

MONTANA was settled by emigrants from the Northern and Western States. Organized in 1864, with the following boundaries: Commencing at a point formed by the intersection of the 27° L. W. from Washington with the 45° N. L.; thence due west on said 45th degree to a point formed by its intersection with the 34th degree W. from Washington; thence due south along said 34th degree of longitude to its intersection with the 44th degree and 30 minutes of N. L.; thence due west along said 44th degree and 30 minutes of N. L. to a point formed by its intersection with the crest of the Rocky Mountains; thence following the crest of the Rocky Mountains northward till its intersection with the Bitter Root Mountains; thence northward along the crest of said Bitter Root Mountains to its intersection with the 39th degree of longitude W. from Washington; thence along said 39th degree of longitude northward to the boundary line of the British possessions; thence eastward along said boundary to the 27th degree of longitude W. from Washington; thence southward along said 27th degree to the place of beginning. This makes it the northermost Territory next the States east of the Missouri Valley. It is a good mining and agricultural region. The total population is put down at 15,822. Large accessions have been made since the census was taken.

NEW MEXICO was formed from a part of the territory ceded to the United States by Mexico, by the treaty of Guadalupe Hidalgo, February 2, 1848, and was organized into a Territory September 9, 1850.—Area 121,201 square miles, or 77,568,640 acres. Population 83,000, besides large tribes of warlike Indians. The principal resource of the country is its minerals.

UTAH was settled by the Mormons, and was formed from a part of the territory ceded to the United States by Mexico, by the treaty of Guadalupe Hidalgo, February 2, 1848, and was organized into a Territory, September 9, 1850. Area, 106,382 square miles, or 68,084,480 acres. Population, 40,273, of whom 29 were slaves. Brine, sulphureous and chalybeate springs abound; limestone, granite, sandstone and marble are found in large quantities; iron is abundant, and gold, silver, copper, lead and zinc have been found. Not one-fiftieth part of the soil is fit for tillage, but on that which is, abundant crops of grain and considerable cotton are raised. A Convention was held at Great Salt Lake City, January 22, 1862, and a State Constitution formed, but it has not been acted on by Congress.

WASHINGTON was settled by emigrants from the Northern and Western States, and was organized into a Territory, March 2, 1853, from the northern portion of Oregon, to which was added another portion from the

eastern part when the latter Territory was admitted as a State, February 14, 1859. Area 69,994 square miles, or 48,636,800 acres. Population 11,168, besides numerous tribes of Indians.

WYOMING was organized in July 1868. It lies between the 27th and 34th meridians of longitude west from Washington, and between the 41st and 45th parallels of latitude. The Territory is rich in mineral wealth, having large quantities of iron, coal, gypsum and building stone, besides vast quantities of gold, silver and copper. Salt springs of great value are found within its limits. The western portion of the Territory embraces what is generally known as the "Sweet Water Mines." The climate is healthy, and the Territory is rapidly filling up with an enterprising and hardy population. The act of Congress organizing the Territory, provides that "There shall be no denial of the elective franchise or any other right, on account of color or race, and all persons shall be equal before the law."

STAMP DUTIES.

SCHEDULE OF DUTIES ON AND AFTER MARCH 1, 1867.

	Stamp Duty.		Stamp Duty.
Accidental injuries to persons, tickets, or contracts for insurance against,	exempt.	bank, banker or trust company at sight or on demand,	2
Affidavits,	exempt.	When drawn upon any other person or persons, companies or corporations, for any sum exceeding \$10, at sight or on demand,	2
Agreement or contract not otherwise specified:		Bill of exchange, (inland,) draft or order for the payment of any sum of money not exceeding \$100, otherwise than at sight or on demand, or any promissory note, or any memorandum, check, receipt, or other written or printed evidence of an amount of money to be paid on demand or at a time designated: For a sum not exceeding \$100,	5
For every sheet or piece of paper upon which either of the same shall be written,	\$0 5	And for every additional \$100 or fractional part thereof in excess of \$100,	5
Agreement, renewal of, same stamp as original instrument.		Bill of exchange, (foreign,) or letter of credit drawn in, but payable out of, the United States: If drawn singly, same rates of duty as inland bills of exchange or promissory notes.	
Appraisal of value or damage, or for any other purpose: For each sheet of paper on which it is written,	5	If drawn in sets of three or more, for every bill of each set, where the sum made payable shall not	
Assignment of a lease, same stamp as original, and additional stamp upon the value or consideration of transfer, according to the rates of stamps on deeds. (See Conveyance.)			
Assignment of policy of insurance, same stamp as original instrument. (See Insurance.)			
Assignment of mortgage, same stamp as that required upon a mortgage for the amount remaining unpaid. (See Mortgage.)			
Bank check, draft or order for any sum of money drawn upon any

exceed \$100 or the equivalent thereof in any foreign currency	2
And for every additional \$100, or fractional part thereof in excess of \$100.	2
Bill of lading or receipt (other than charter party) for any goods, merchandise, or effects to be exported from a port or place in the United States to any foreign port or place,	10
Bill of lading to any port in British North America,	exempt.
Bill of lading, domestic or inland,	exempt.
Bill of sale by which any ship or vessel, or any part thereof, shall be conveyed to or vested in any other person or persons :	
When the consideration shall not exceed \$500,	50
Exceeding \$500, and not exceeding \$1,000,	1 00
Exceeding \$1,000, for every additional \$500, or fractional part thereof,	50
Bond for indemnifying any person for the payment of any sum of money : When the money ultimately recoverable thereupon is \$1,000 or less,	50
When in excess of \$1,000, for each \$1,000 or fraction,	50
Bond-administrator or guardian, when the value of the estate and effects, real and personal, does not exceed \$1,000,	exempt.
Exceeding \$1,000,	1 00
Bond for due execution or performance of duties of office,	1 00
Bond, personal, for security for the payment of money. (See Mortgage.)	
Bond of any description, other than such as may be required in legal proceedings, or used in connection with mortgage deeds, and not otherwise charged in this schedule,	25
Broker's notes, (See Contract.)	
Certificates of measurement or weight of animals, wood, coal or hay,	exempt.
Certificates of measurement of other articles,	5
Certificates of stock in any incorporated company,	25
Certificates of profits, or any certificate or memorandum showing an interest in the property or accumulations of any incorporated company : If for a sum not less than \$10 and not exceeding \$50,	10
Exceeding \$50 and not exceeding \$1,000,	25
Exceeding \$1,000, for every additional \$1,000 or fractional part thereof,	25
Certificate. Any certificate of damage or otherwise, and all other certificates or documents issued by any port warden, marine surveyor, or other person acting as such,	25
Certificate of deposit of any sum of money in any bank or trust company, or with any banker or person acting as such : If for a sum not exceeding \$100,	2
For a sum exceeding \$100.	5
Certificate of any other description than those specified,	5
Charter, renewal of, same stamp as an original instrument.	
Charter party for the charter of any ship or vessel, or steamer, or any letter, memorandum, or other writing relating to the charter, or any renewal or transfer thereof : If the registered tonnage of such ship, vessel, or steamer does not exceed 150 tons,	1 00
Exceeding 150 tons, and not exceeding 300 tons,	3 00
Exceeding 300 tons, and not exceeding 600 tons,	5 00
Exceeding 600 tons,	10 00
Check. Bank check,	2
Contract. Broker's note, or memorandum of sale of any goods or merchandise, exchange, real estate, or property of any kind or description issued by brokers or persons acting as such : For each note or memorandum of sale,	10
Bill or memorandum of the sale or contract for the sale of stocks, bonds, gold or silver bullion, coin, promissory notes, or other securities made by brokers, banks, or bankers, either for the benefit of others or on their own account : For each hundred dollars, or fractional part thereof, of the amount of such sale or contract,	1
Bill or memorandum of the sale or contract for the sale of stocks, bonds, gold or silver bullion, coin, promissory notes, or other securities, not his or their own property, made by any person, firm, or company not paying a special tax as broker, bank or banker : For each hundred dollars, or fractional part thereof, of the amount of such sale or contract,	5
Contract. (See Agreement.)	
Contract, renewal of, same stamp as original instrument.	
Conveyance, deed, instrument or writing, whereby any lands, tenements, or other realty sold shall be granted, assigned, transferred, or otherwise conveyed to or vested in the purchaser or purchasers, or any other person or persons, by his, her or their direction, when the consideration or value does not exceed \$500,	50

	Stamp Duty.		Stamp Duty.
When the consideration exceeds \$500, and does not exceed \$1,000,	1 00	peals from justice courts or other courts of inferior jurisdiction to a court of record.	exempt.
And for every additional \$500, or fractional part thereof, in excess of \$1,000,	50	Warrant of distress.	exempt.
Conveyance. The acknowledgment of a deed, or proof by a witness,	exempt.	Letters of administration. (See Probate of will.)	
Conveyance. Certificate of record of a deed,	exempt.	Letters testamentary, when the value of the estate and effects, real and personal, does not exceed \$1,000,	Exempt.
Credit, letter of. Same as foreign bill of exchange.		Exceeding \$1,000,	5
Custom-house entry. (See Entry.)		Letters of credit. Same as bill of exchange, (foreign.)	
Custom-house withdrawals. (See Entry.)		Manifest for custom-house entry or clearance of the cargo of any ship, vessel, or steamer, for a foreign port :	
Deed. (See Conveyance — Trust deed.)		If the registered tonnage of such ship, vessel, or steamer does not exceed 300 tons,	1 00
Draft. Same as inland bill of exchange,		Exceeding 300 tons, and not exceeding 600 tons,	3 00
Endorsement of any negotiable instrument,	exempt.	Exceeding 600 tons,	5 00
Entry of any goods, wares or merchandise at any custom-house, either for consumption or warehousing: Not exceeding \$100 in value,	25	[These provisions do not apply to vessels or steamboats plying between ports of the United States and British North America.]	
Exceeding \$100, and not exceeding \$500 in value,	50	Measurers' returns,	exempt.
Exceeding \$500 in value,	1 00	Memorandum of sale, or broker's note. (See Contract.)	
Entry for the withdrawal of any goods or merchandise from bonded warehouse,	50	Mortgage of lands, estate, or property, real or personal, heritable or movable, whatsoever, a trust deed in the nature of a mortgage, or any personal bond given as security for the payment of any definite or certain sum of money; exceeding \$100, and not exceeding \$500,	50
Ganger's returns,	exempt.	Exceeding \$500, and not exceeding \$1,000,	1 00
Indorsement upon a stamped obligation in acknowledgment of its fulfillment,	exempt.	And for every additional \$500, or fractional part thereof, in excess of \$1,000,	50
Insurance (life) policy: When the amount insured shall not exceed \$1,000,	25	Order for payment of money, if the amount is \$10, or over,	2
Exceeding \$1,000, and not exceeding \$5,000,	50	Passage ticket on any vessel from a port in the United States to a foreign port, not exceeding \$35,	50
Exceeding \$5,000,	1 00	Exceeding \$35, and not exceeding \$50,	1 00
Insurance (marine, inland, and fire,) policies, or renewal of the same: If the premium does not exceed \$10,	10	And for every additional \$50, or fractional part thereof, in excess of \$50,	1 00
Exceeding \$10, and not exceeding \$50,	25	Passage tickets to ports in British North America,	exempt.
Exceeding \$50,	50	Pawner's checks,	5
Insurance contracts or tickets against accidental injuries to persons,	exempt.	Power of attorney for the sale or transfer of any stock, bonds or scrip, or for the collection of any dividends or interest thereon,	25
Lease, agreement, memorandum, or contract for the hire, use, or rent of any land, tenement, or portion thereof: Where the rent or rental value is \$300 per annum or less,	50	Power of attorney, or proxy, for voting at any election for officers of any incorporated company or society, except religious, charitable, or literary societies, or public cemeteries,	10
Where the rent or rental value exceeds the sum of \$300 per annum, for each additional \$200, or fractional part thereof in excess of \$300,	50	Power of attorney to receive or collect rent,	25
Legal documents:		Power of attorney to sell and convey real estate, or to rent or	
Writ, or other original process, by which any suit, either criminal or civil, is commenced in any court, either of law or equity,	exempt.		
Confession of judgment or cognovit,	exempt.		
Writs or other process on ap-			

	Stamp Duty.
lease the same,	1 00
Power of attorney for any other purpose,	50
Probate of will, or letters of administration; where the estate and effects for or in respect of which such probate or letters of administration applied for shall be sworn or declared not to exceed the value of \$1,000,	exempt.
Exceeding \$1,000, and not exceeding \$2,000,	1 00
Exceeding \$2,000, for every additional \$1,000, or fractional part thereof, in excess of \$2,000,	50
Promissory note. (See Bill of exchange, inland.)	
Deposit note to mutual insurance companies, when policy is subject to duty,	exempt.
Renewal of a note, subject to the same duty as an original note.	
Protest of note, bill of exchange, acceptance, check, or draft, or any marine protest,	25
Quit-claim deed to be stamped as a conveyance, except when given as a release of a mortgage by the mortgagee to the mortgagor, in which case it is exempt; but if it contains covenants <i>may</i> be subject as an agreement or contract.	
Receipts for satisfaction of any mortgage or judgment or decree of any court,	exempt.
Receipts for any sum of money or debt due, or for a draft or other instrument given for the payment of money; exceeding \$20, not being for satisfaction of any mortgage or judgment or decree of court, (See Indorsement.)	2
Receipts for the delivery of property.	exempt.
Renewal of agreement, contract or charter, by letter or otherwise, same stamp as original instrument.	
Sheriff's return on writ or other process,	exempt.
Trust deed, made to secure a debt, to be stamped as a mortgage.	
Warehouse receipts,	exempt.
Warrant of attorney accompanying a bond or note, if the bond or note is stamped,	exempt.
Weigher's returns,	exempt.
Official documents, instruments, and papers issued by officers of the United States Government,	exempt.
Official instruments, documents, and papers issued by the officers of any State, county, town, or other municipal corporation, in the exercise of functions strictly belonging to them in their ordinary governmental or municipal capacity,	exempt.
Papers necessary to be used for	

Stamp Duty.
the collection from the United States Government of claims by soldiers, or their legal representatives, for pensions, back pay, bounty, or for property lost in the service, exempt.

CANCELLATION.

In all cases where an *adhesive* stamp is used for denoting the stamp duty upon an instrument, the person using or affixing the same must write or imprint thereupon *in ink* the initials of his name, and the date (the year, month, and day) on which the same is attached or used. Each stamp should be separately cancelled. When stamps are printed upon checks, &c., so that in filling up the instrument, the face of the stamp is and must necessarily be written across, no other cancellation will be required.

All cancellation must be distinct and legible, and except in the case of proprietary stamps from private dies, no method of cancellation which differs from that above described can be recognized as legal and sufficient.

PENALTIES.

A penalty of fifty dollars is imposed upon every person who makes, signs, or issues, or who causes to be made, signed, or issued, any paper of any kind or description whatever, or who accepts, negotiates, or pays, or causes to be accepted, negotiated, or paid, any bill of exchange, draft, or order, or promissory note, for the payment of money, without the same being duly stamped, or having thereupon an adhesive stamp for denoting the tax chargeable thereon, cancelled in the manner required by law, with intent to evade the provisions of the revenue act.

A penalty of two hundred dollars is imposed upon every person who pays, negotiates, or offers in payment, or receives or takes in payment, any bill of exchange or order for the payment of any sum of money drawn or purporting to be drawn in a foreign country, but payable in the United States, until the proper stamp has been affixed thereto.

A penalty of fifty dollars is imposed upon every person who fraudulently makes use of an adhesive stamp to denote the duty required by the revenue act, without effectually cancelling and obliterating the same in the manner required by law.

Attention is particularly called to the following extract from section 155, of the act of June 30, 1864, as amended by the act of July 13, 1866:

"If any person shall wilfully remove or cause to be removed, alter or cause to be altered, the cancelling or defacing marks on any adhesive stamp, with intent to use the same, or to cause the use of the same, after it shall have been used once, or shall knowingly or wilfully sell or buy such washed or restored stamps, or offer the same for sale, or give or expose the same to any per-

son for use, or knowingly use the same or prepare the same with intent for the further use thereof, or if any person shall knowingly and without lawful excuse (the proof whereof shall lie on the person accused) have in his possession any washed, restored, or altered stamps, which have been removed from any vellum, parchment, paper, instrument or writing; then, and in every such case, every person so offending, and every person knowingly and wilfully aiding, abetting, or assisting in committing any such offence as aforesaid, shall, on conviction thereof, * * * be punished by a fine not exceeding one thousand dollars, or by imprisonment and confinement to hard labor not exceeding five years, or both, at the discretion of the court."

It is not lawful to record any instrument, document, or paper required by law to be stamped, or any copy thereof, unless a stamp or stamps of the proper amount have been affixed and cancelled in the manner required by law; and such instrument or copy and the record thereof are utterly null and void, and cannot be used or admitted as evidence in any court until the defect has been cured as provided in section 158.

All willful violations of the law should be reported to the United States District Attorney within and for the district where they are committed.

GENERAL REMARKS.

Revenue stamps may be used indiscriminately upon any of the matters or things enumerated in Schedule B, except proprietary and playing card stamps, for which a special use has been provided.

Postage stamps cannot be used in payment of the duty chargeable on instruments.

The law does not designate which of the parties to an instrument shall furnish the necessary stamp, nor does the Commissioner of Internal Revenue assume to determine that it shall be supplied by one party rather than by another; but if an instrument subject to stamp duty is issued without having the necessary stamps affixed thereto, it cannot be recorded, or admitted, or used in evidence, in any court, until a legal stamp or stamps, denoting the amount of tax, shall have been affixed as prescribed by law, and the person who thus issues it is liable to a penalty, if he omits the stamps with an intent to evade the provisions of the internal revenue act.

The first act imposing a stamp tax upon certain specified instruments took effect, so far as said tax is concerned, October 1, 1862. The impression which seems to prevail to some extent, that no stamps are required upon any instruments issued in the States lately in insurrection, prior to the surrender, or prior to the establishment of collection districts there, is erroneous.

Instruments issued in those States since October 1, 1862, are subject to the same taxes as similar ones issued at the same time in the other States.

No stamp is necessary upon an instrument executed prior to October 1, 1862, to make

it admissible in evidence, or to entitle it to record.

Certificates of loan in which there shall appear any written or printed evidence of an amount of money to be paid on demand, or at a time designated, are subject to stamp duty as "promissory notes."

When two or more persons join in the execution of an instrument, the stamp to which the instrument is liable under the law, may be affixed and cancelled by either of them; and "when more than one signature is affixed to the same paper, one or more stamps may be affixed thereto, representing the whole amount of the stamp required for such signatures."

No stamp is required on any warrant of attorney accompanying a bond or note, when such bond or note has affixed thereto the stamp or stamps denoting the duty required; and, whenever any bond or note is secured by mortgage, but one stamp duty is required on such papers—such stamp duty being the highest rate required for such instruments, or either of them. In such case a note or memorandum of the value or denomination of the stamp affixed should be made upon the margin or in the acknowledgement of the instrument which is not stamped.

Particular attention is called to the change in section 154, by striking out the words "or used;" the exemption thereunder is thus restricted to documents, &c., issued by the officers therein named. Also to the changes in sections 152 and 158, by inserting the words "and cancelled in the manner required by law."

The acceptor or acceptors of any bill of exchange, or order for the payment of any sum of money, drawn or purporting to be drawn in any foreign country, but payable in the United States, must, before paying or accepting the same, place thereupon a stamp indicating the duty.

It is only upon conveyances of realty sold that conveyance stamps are necessary. A deed of real estate made without valuable consideration need not be stamped as a conveyance; but if it contains covenants, such, for instance, as a covenant to warrant and defend the title, it should be stamped as an agreement or contract.

When a deed purporting to be a conveyance of realty sold, and stamped accordingly, is inoperative, a deed of confirmation, made simply to cure the defect, requires no stamp. In such case, the second deed should contain a recital of the facts, and should show the reasons for its execution.

Partition deeds between tenants in common, need not be stamped as conveyances, inasmuch as there is no sale of realty, but merely a marking out, or a defining, of the boundaries of the part belonging to each; but where money or other valuable consideration is paid by one co-tenant to another for equality of partition, there is a sale to the extent of such consideration, and the conveyance, by the party receiving it, should be stamped accordingly.

A conveyance of lands sold for unpaid taxes, issued since August 1, 1866, by the officers of any county, town, or other mu-

nicipal corporation in the discharge of their strictly official duties, is exempt from stamp tax.

A conveyance of realty sold, subject to a mortgage, should be stamped according to the consideration, or the value of the property *unencumbered*. The consideration in such case is to be found by adding the amount paid for the equity of redemption to the mortgage debt. The fact that one part of the consideration is paid to the mortgagor and the other part to the mortgagee does not change the liability of the conveyance.

The stamp tax upon a mortgage is based upon the amount it is given to secure. The fact that the value of the property mortgaged is less than that amount, and that consequently the security is only partial, does not change the liability of the instrument. When, therefore, a second mortgage is given to secure the payment of a sum of money partially secured by a prior mortgage upon other property, or when two mortgages upon separate property are given at the same time to secure the payment of the same sum, each should be stamped as though it were the only one.

A mortgage given to secure a surety from loss, or given for any purpose whatever, other than as security for the payment of a definite and certain sum of money, is taxable only as an agreement or contract.

The stamp duty upon a lease, agreement, memorandum, or contract for the hire, use, or rent of any land, tenement, or portion thereof, is based upon the *annual* rent or rental value of the property leased, and the duty is the same whether the lease be for one year, for a term of years, or for the fractional part of a year only.

Upon every assignment or transfer of a mortgage, a stamp tax is required equal to that imposed upon a mortgage for the amount remaining unpaid; this tax is required upon every such transfer in writing, whether there is a *sale* of the mortgage or not; but no stamp is necessary upon the endorsement of a negotiable instrument, even though the legal effect of such indorsement is to transfer a mortgage by which the instrument is secured.

An assignment of a lease within the meaning and intent of Schedule B, is an assignment of the *leasehold*, or of some portion thereof, by the *lessee*, or by some person claiming by, from, or under him; such an assignment as subrogates the assignee to the rights, or some portion of the rights, of the *lessee*, or of the person standing in his place. A transfer by the *lessor* of his part of a lease, neither giving nor purporting to give a claim to the leasehold, or to any part thereof, but simply a right to the rents, &c., is subject to stamp tax as a contract or agreement only.

The stamp tax upon a fire insurance policy is based upon the *premium*.

Deposit notes taken by a mutual fire insurance company, not as payment of premium nor as evidence of indebtedness therefor, but to be used simply as a basis upon which to make rateable assessments to meet the losses incurred by the company,

should not be reckoned as premium in determining the amount of stamp taxes upon the policies.

When a policy of insurance properly stamped has been issued and lost, no stamp is necessary upon another issued by the same company to the same party, covering the same property, time, &c., and designed simply to supply the loss. The second policy should recite the loss of the first.

An instrument which operates as the renewal of a policy of insurance, is subject to the same stamp tax as the policy.

When a policy of insurance is issued for a certain time, whether it be for one year only or for a term of years, a receipt for premium, or any other instrument which has the legal effect to continue the contract and extend its operation *beyond that time*, requires the same amount of revenue stamps as the policy itself; but such a receipt as is usually given for the payment of the monthly, quarterly, or annual premium, is not a renewal within the meaning of the statute. The payment simply prevents the policy from expiring, by reason of non-performance of its conditions; a receipt given for such a payment requires a two-cent stamp, if the amount received exceeds twenty dollars, and a two-cent stamp only. When, however, the time of payment has passed, and a tender of the premium is not sufficient to bind the company, but a new policy or a new contract in some form, with the mutuality essential to every contract, becomes necessary between the insurer and the insured, the same amount of stamps should be used as that required upon the original policy.

A permit issued by a life insurance company changing the terms of a policy as to travel, residence, occupation, &c., should be stamped as a contract or agreement.

A bill single or a bill obligatory, *i. e.*, an instrument in the form of a promissory note, *under seal*, is subject to stamp duty as written or printed evidence of an amount of money to be paid on demand or at a time designated, at the rate of five cents for each one hundred dollars or fractional part thereof.

A waiver of protest, or of demand and notice, written upon negotiable paper and signed by the indorser, is an agreement, and requires a five-cent stamp.

A stamp duty of twenty-five cents is imposed upon the "protest of every note, bill of exchange, check or draft," and upon every marine protest. If several notes, bills of exchange, drafts, &c., are protested at the same time and all attached to one and the same certificate, stamps should be affixed to the amount of twenty-five cents for each note, bill, draft, &c., thus protested.

When, as is generally the case, the caption to a deposition contains other certificates in addition to the jurat to the affidavit of the deponent, such as a certificate that the parties were or were not notified, that they did or did not appear, that they did or did not object, &c., it is subject to a stamp duty of five cents.

When an attested copy of a writ or other

process is used by a sheriff or other person in making personal service, or in attaching property, a five-cent stamp should be affixed to the certificate of attestation.

A marriage certificate issued by the officiating clergyman or magistrate, to be returned to any officer of a State, county, city, town, or other municipal corporation, to constitute part of a public record, requires no stamp; but if it is to be retained by the parties, a five-cent stamp should be affixed.

The stamp tax upon a bill of sale, by which any ship or vessel, or any part thereof, is conveyed to or vested in any other person or persons, is at the same rate as that imposed upon conveyances of realty sold; a bill of sale of any other personal property should be stamped as a contract or agreement.

An assignment of real or personal property, or of both, for the benefit of creditors, should be stamped as an agreement or contract.

Written or printed assignments of agreements, bonds, notes not negotiable, and of all other instruments the assignments of which are not particularly specified in the foregoing schedule, should be stamped as agreements.

No stamp is necessary upon the registry of a judgment, even though the registry is such in its legal effect as to create a lien which operates as a mortgage upon the property of the judgment debtor.

When a "power of attorney or proxy for voting at any election for officers of any incorporated company or society, except religious, charitable, or literary societies, or public cemeteries," is signed by several stockholders, owning separate and distinct shares, it is, in its legal effect, the separate instrument of each, and requires stamps to the amount of ten cents for each and every signature; one or more stamps may be used representing the whole amount required.

A notice from landlord to tenant to quit possession of premises requires no stamp.

A stamp tax is imposed upon every "manifest for custom-house entry or clearance of the cargo of any ship, vessel, or steamer for a foreign port." The amount of this tax in each case depends upon the registered tonnage of the vessel.

If a vessel clears in ballast and has no cargo whatever, no stamp is necessary; but if she has any, however small the amount—a stamp should be used.

A bond to convey real estate requires stamps to the amount of twenty-five cents.

The stamp duty upon the probate of a will, or upon letters of administration, is based upon the sworn or declared value of all the estate and effects, real, personal, and mixed, undiminished by the debts of the estate for or in respect of which such probate or letters are applied for.

When the property belonging to the estate of a person deceased, lies under different jurisdictions and it becomes necessary to take out letters in two or more places, the letters should be stamped according to the value of all the property, real, personal, and mixed, for or in respect of which the particular letters in each case are issued.

Letters *de bonis non* should be stamped according to the amount of property remaining to be administered upon thereunder, regardless of the stamps upon the original letters.

A mere *copy* of an instrument is not subject to stamp duty unless it is a certified one, in which case a five-cent stamp should be affixed to the certificate of the person attesting it; but when an instrument is executed and issued in duplicate, triplicate, &c., as in the case of a lease of two or more parts, each part has the same legal effect as the other, and each should be stamped as an original.

POSTAL RATES AND REGULATIONS.

LETTERS.—The law requires postage on all letters (including those to foreign countries when prepaid), excepting those written to the President or Vice President, or members of Congress, or (on official business) to the chiefs of the executive departments of the Government, and the heads of bureaux and chief clerks, and others invested with the franking privilege, to be prepaid by stamps or stamped envelopes, prepayment in money being prohibited.

All drop-letters must be prepaid. The rate of postage on drop-letters, at offices where free delivery by carrier is established, is two cents per half ounce or fraction of a half ounce; at offices where such free delivery is not established the rate is one cent.

The single rate of postage on all domestic mail letters throughout the United States, is three cents per half ounce, with an additional rate of three cents for each additional half ounce or fraction of a half ounce. The ten cent (Pacific) rate is abolished.

NEWSPAPERS, ETC.—Letter postage is to be charged on all handbills, circulars, or other printed matter which shall contain any manuscript writing whatever.

Daguerreotypes, when sent in the mail, are to be charged with letter postage by weight.

Photographs on cards, paper, and other flexible material, (not in cases), can be sent at the same rate as miscellaneous printed matter, viz., two cents for each four ounces or fraction thereof.

Photograph Albums are chargeable with book postage—four cents for each four ounces or fraction thereof.

NEWSPAPER POSTAGE.—Postage on daily papers to subscribers when prepaid quarterly or yearly in advance, either at the mailing office or office of delivery, per quarter (three months), 35 cts.; six times per week, per quarter 30 cts.; for tri-weekly, per quarter 15 cts.; for semi-weekly, per quarter 10 cts.; for weekly, per quarter 5 cents.

Weekly newspapers (one copy only) sent by the publisher to actual subscribers within the county where printed and published, FREE.

Postage per quarter (to be paid quarterly or yearly in advance) on newspapers and periodicals issued less frequently than once a week, sent to actual subscribers in any part of the United States: Semi-monthly, not over 4 oz., 6 cts.; over 4 oz. and not over 8 oz., 12 cts.; over 8 oz. and not over 12 oz., 18 cts.; monthly, not over 4 oz., 3 cts.; over 4 oz. and not over 8 oz., 6 cts.; over 8 oz. and not over 12 oz., 9 cts.; quarterly, not over 4 oz., 1 cent; over 4 oz. and not over 8 oz., 2 cts.; over 8 oz. and not over 12 oz., 3 cts.

TRANSIENT MATTER.—Books not over 4 oz. in weight, to one address, 4 cts.; over 4 oz. and not over 8 oz., 8 cts.; over 8 oz. and not over 12 oz., 12 cts.; over 12 oz. and not over 16 oz., 16 cts.

Circulars not exceeding three in number to one address, 2 cts.; over 3 and not over 6, 4 cts.; over 6 and not over 9, 6 cts.; over 9 and not exceeding 12, 8 cts.

On miscellaneous mailable matter, (embracing all pamphlets, occasional publications, transient newspapers, hand-bills and posters, book manuscripts and proof-sheets, whether corrected or not, maps, prints, engravings, sheet music, blanks, flexible patterns, samples, and sample cards, photographic paper, letter envelopes, postal envelopes or wrappers, cards, paper, plain or ornamental, photographic representations of different types, seeds, cuttings, bulbs, roots and scions,) the postage to be pre-paid by stamps, is on one package, to one address, not over 4 oz. in weight, 2 cts.; over 4 oz. and not over 8 oz., 4 cts.; over 8 oz. and not over 12 oz., 6 cts.; over 12 oz. and not over 16 oz., 8 cts. The weight of packages of seeds, cuttings, roots and scions, to be franked, is limited to thirty-two ounces.

[ALL printed matter (except single copies of newspapers, magazines, and periodicals to regular subscribers) sent via overland mail, is to be charged at LETTER POSTAGE rates.]

Any word or communication, whether by printing, writing, marks or signs, upon the cover or wrapper of a newspaper, pamphlet, magazine, or other printed matter, other than the name or address of the person to whom it is to be sent, and the date when the subscription expires, subjects the package to letter postage.

MONEY ORDERS.—Absolute safety in sending money by mail is secured by obtaining a Money Order, on any Money Order Office, for which the fees are:—Orders not exceeding \$20, 10 cents. Orders not exceeding \$50, 25 cents. ~~Orders~~ NEVER PUT MONEY IN A LETTER—ALWAYS PROCURE A MONEY ORDER.

Valuable Letters should be carried to the Post-office. If money is to be remitted, a Postal Money Order should be obtained. If upon points where there is no Money Order Office, then the letter should be registered. Money should never be enclosed in an ordinary letter. **STAMPS AND ENVELOPES** can be obtained at the BOX DELIVERY. Envelopes in numbers not less than 500 with the "address of the purchaser," and a "return request," across the end, can be procured (by leaving an order with the Post-master,) at the same prices as ordinary stamped envelopes.

REGISTERED LETTERS.—Valuable Letters for any part of the United States, Holland, United Kingdom, Italian States, Africa, East Indies, Egypt, Falkland Islands, China, and Australia, will be registered on application at the office. Registry fee to the above foreign countries, 16 cents. Registry fee in the United States, 20 cents; Canada and the British Provinces, 5 cents; North Germany, 8 cents. ~~Letters~~ Letters addressed to Post-Masters must be prepaid at the usual rates.

RULES:—1. Direct Letters plainly to the street and number, as well as the Post-office and State.
 2. Head letters with the name of the writer's Post-office and State, Street and Number. Sign them with full name, and request that answers be directed accordingly.

3. Letters sent to strangers or transient visitors in a town or city, whose special address may be unknown, should be marked on the lower left hand corner with the word "Transient."
 4. Place the postage stamp on the upper right hand corner, and leave space between the stamp and direction for post marking, without interfering with the writing. N. B.—A request for the return of a letter to the writer, if unclaimed within thirty days or less, written or printed, with the writer's name, Post Office and State across the left hand side of the envelope, on the face side, will be complied with. Letters bearing such indorsements will be returned to the writer free of charge.

Additional Table of Foreign Postage.

The * indicates that, unless the letter is registered, pre-payment is optional; in all other cases it is required. § Pamphlets and Periodicals, ten cents per four ounces or fraction thereof. † Pamphlets, Magazines, &c., two cents per four ounces or fraction thereof.

The recent postal treaty with Great Britain provides that besides letters and newspapers, "book packets," and "packets of patterns and samples," may be sent. Such packets—

1. Must contain no writing.
2. Must be fully prepaid (6 cents per 4 ounces from the U. S., or 3 pence sterling from Great Britain.)
3. Must be open at the ends to allow inspection.

Samples of merchandise must not be of intrinsic value.

Dutiable articles—books, music, &c., sent from Great Britain to the United States, must, in addition to the postage, pay the regular duties, which are—On books and engravings, 25 per cent.; music and photographs, 20 per cent.

If letters or articles sent to Italy are not prepaid, or are insufficiently paid, they will be charged with deficient postage, and subject to fine, on arrival at their destination.

Infallible Rules for Detecting Counterfeit or Spurious Bank Notes.

RULE 1st.—Examine the shading of the letters in title of Bank called **LATHWORK**, which in genuine notes presents an even, straight, light and silky appearance, generally so fine and smooth as to appear to be all in one solid, pale body. In the counterfeit the lines are coarse and irregular, and in many of the longer lines breaks will be perceived, thus presenting a very inferior finish in comparison to genuine work.

2d.—Observe the dies, circles and ovals in the genuine; they are composed of a network of lines, which, by crossing each other at certain angles, produce an endless variety of figures; **SEE THE ONE CENT STAMP ATTACHED.** The fine line alone is the unit which enables you to detect spurious work. In the counterfeit, the **REPRESENTED** white lines are coarse, irregular, and cross each other in a confused, irregular manner, thus producing blurred and imperfect figures.

3d.—Examine the form and features of all human figures on the note. In the genuine, the texture of the skin is represented by fine dots and lines intermixed. In the eyes, the pupil is distinctly visible, and the white clearly seen; the nose, mouth and chin, well formed, natural and expressive; the lips are slightly pouting, and the chin well thrown out; and the delicate shading of the neck perfectly harmonizes with the rest of the figure. Observe the fingers and toes; they should be clearly and accurately defined. The hair of the head should show the fine strands and present a natural appearance. The folds of the drapery of human figures should lay natural and present a fine, finished appearance. In the counterfeit the female figure does not bear the natural prominence in outlines; observe, the eyes and shading surrounding does not present the lifelike appearance it should. The fingers and toes are not properly and proportionately defined; the hair does not bear that soft and finished appearance as in the genuine.

4th.—Examine the imprint or engraver's names in the evenness and shape of the

fine letters. Counterfeits never bear the imprint perfect. This rule should be strictly observed, as it is infallible in detecting counterfeits.

5th.—In the genuine note the landscapes are well finished; trees and shrubs are neatly drawn; the limbs well proportioned, and the foliage presenting a fine natural appearance; clear sky is formed of fine parallel lines, and when clouds or heavy skies appear, they cross each other, and bear a soft, smooth and natural appearance. The perspective, showing a view of the surrounding country, is always clear and distinct. The small figures in the background are always plainly seen, and their outlines and general character recognized. Ships are well defined and the canvass has a clear texture; railroad cars are very accurately delineated; in examining a train observe carefully the car most distant. In the counterfeit the landscape is usually poorly executed; the leaves of trees poorly and unnaturally defined.—The lines representing still water are scratchy rather than parallel, the sky is represented generally in like manner, and where rolling clouds are to be seen, the unnatural effect is obvious. Domestic animals are generally poorly executed, particularly the head and limbs; the eyes are seldom clearly defined. Ships are poorly drawn, the texture of the canvass coarse and inferior in style of workmanship, thus giving an artificial appearance. Railroad cars are also poorly executed; the car farthest from the eye is usually the most imperfect. The perspective is always imperfect, the figures in the background can seldom be recognized.

6th.—Bills altered from a smaller to a higher denomination, can readily be detected by a close observer, in consequence of the striking difference between the parts which have been extracted and the rest of the note. This difference is readily perceived in the lack of color, body and finish of the dye; we have seen bills where the surrounding shading in altered dies was

too dark, but from the back or finish of the white lines you have a sure test. Again observe particularly the words "Five" or "Ten Dollars" as the case may be, denoting the denomination of the note; the parallel outlines and shading (if any) are coarse and imperfect. Alterations are frequently made by pasting a greater denomination over a smaller, but by holding the bill up to the light, the fraud will be perceived. Another method resorted to is to cut out the figures in the dies as well as the words one dollar, or the words two or three as the case may be, and with a sharp eraser, scrape down the ends and also the edges of the pieces to be inserted; when the pieces thus prepared are affixed they are hardly perceivable; but by passing the note through the hand, so as to feel the die both with the finger and thumb at the same time, the fraud will be detected by the stiffness of the outer edges, "occasioned by the gum or method adopted" in affixing the parts. The letter S should always be examined, as in many alterations it is pasted or stamped at the end of the word "dollar;" and even when stamped there, the carrying out of the outlines for its shading will readily show the fraud. Bills of broken banks are frequently altered by extracting the name of bank, state and town; they may readily be de-

tected by observing first the state, second the title or name of the bank, third the town or location.

GENERAL REMARKS IN REFERENCE TO COUNTERFEITS.—The paper on which they are printed is generally of a very inferior quality, with less body, finish and toughness than bank note paper has. The ink generally lacks the rich luster of the genuine; the red letters and figures are generally imperfect, and the ink does not present the vermilion hue as it should. The printing is generally inferior, usually exhibiting specks of white in the most prominent letters. The date and filling up, and the President's and Cashier's names are generally written by the same person, although in many instances they present a different appearance. There are bills in circulation bearing either genuine dies or vignettes; but upon close examination you will be enabled to detect any spurious bill, whether counterfeit or altered, by the instructions here given, if persevered in for a short time. We beg to suggest, if time will admit, the learner should examine minutely every bill he receives. A powerful pocket magnifying glass, which can be purchased for from fifty cents to one dollar at any of the opticians, will greatly enable you to see and comprehend the difference between genuine and spurious work.

HOW TO SUCCEED IN BUSINESS.

What will my readers give to know how to get rich? Now, I will not vouch that the following rules will enable every person who may read them to acquire wealth; but this I will answer for, that if ever a man does grow rich by honest means, and retains his wealth for any length of time, he must practice upon the principles laid down in the following essay. The remarks are not original with me, but I strongly commend them to the attention of every young man, at least as affording the true secret of success in attaining wealth. A single perusal of such an essay at an impressive moment, has sometimes a very wonderful effect upon the disposition and character.

Fortune, they say, is a fickle dame—full of her freaks and caprices; who blindly distributes her favors without the slightest discrimination. So inconstant, so wavering is she represented, that her most faithful votaries can place no reliance on her promises. Disappointment, they tell us, is the lot of those who make offerings at

her shrine. Now, all this is a vile slander upon the dear blind lady.

Although wealth often appears the result of mere accident, or a fortunate concurrence of favorable circumstances without any exertion of skill or foresight, yet any man of sound health and unimpaired mind may become wealthy, if he takes the proper steps.

Foremost in the list of requisites are honesty and strict integrity in every transaction of life. Let a man have the reputation of being fair and upright in his dealings, and he will possess the confidence of all who know him. Without these qualities every other merit will prove unavailing. Ask concerning a man, "Is he active and capable?" Yes. "Industrious, temperate and regular in his habits?"—Oh yes. "Is he honest? Is he trustworthy?" Why, as to that, I am sorry to say that he is not to be trusted; he needs watching; he is a little tricky, and will take an undue advantage, if he can. "Then I will have nothing to do with him," will be the in-

variable reply. Why, then, is honesty the best policy? Because, without it, you will get a bad name, and everybody will shun you.

A character for knavery will prove an insurmountable obstacle to success in almost every undertaking. It will be found that the straight line is, in business, as in geometry, the shortest. In a word, it is almost impossible for a dishonest man to acquire wealth by a regular process of business, because he is shunned as a depredator upon society.

Needy men are apt to deviate from the rule of integrity, under the plea that necessity knows no law; they might as well add that it knows no shame. The course is suicidal, and by destroying all confidence, ever keeps them immured in poverty, although they may possess every other quality for success in the world.

Punctuality, which is said to be the soul of business, is another important element in the art of money getting. The man known to be scrupulously exact in the fulfillment of his engagements, gains the confidence of all, and may command all the means he can use with advantage; whereas, a man careless and regardless of his promises in money matters will have every purse closed against him. Therefore be prompt in your payments.

Next, let us consider the advantages of a cautious circumspection in our intercourse with the world. Slowness of belief and a proper distrust are essential to success. The credulous and confiding are ever the dupes of knaves and impostors. Ask those who have lost their property how it happened, and you will find in most cases that it has been owing to misplaced confidence. One has lost by endorsing, another by crediting, another by false representations; all of which a little more foresight and a little more distrust would have prevented. In the affairs of this world men are not saved by faith, but by the want of it.

Judge of men by what they do, not by what they say. Believe in looks rather than words. Observe all their movements. Ascertain their motives and their ends. Notice what they say or do in their unguarded moments, when under the influence of excitement. The passions have been compared to tortures which force men to reveal their secrets. Before trusting a man, before putting it in his power to cause you a loss, possess yourself of every available information relative to him. Learn his history, his habits, inclinations and propensities; his reputation for honor, industry, frugality and punctuality; his prospects, resources, supports, advantages and disadvantages; his intentions and motives of action; who are his friends and enemies, and what are his good or bad qualities. You may learn a man's good qualities and advantages from his friends—his bad qualities and disadvantages from his enemies. Make due allowance for exaggeration in both. Finally, examine carefully before engaging in anything, and act with energy afterwards. Have the hundred eyes of

Argus beforehand, and the hundred hands of Briarius afterwards.

Order and system in the management of business must not be neglected. Nothing contributes more to dispatch. Have a place for everything and everything in its place; a time for everything, and everything in its time. Do first what presses most, and having determined what is to be done, and how it is to be done, lose no time in doing it. Without this method all is hurry and confusion, little or nothing is accomplished, and business is attended to with neither pleasure nor profit.

A polite, affable deportment is recommended. Agreeable manners contribute powerfully to a man's success. Take two men, possessing equal advantages in every other respect, but let one be gentlemanly, kind, obliging and conciliating in his manners; the other harsh, rude and disobliging; and the one will become rich, while the other will starve.

We are now to consider a very important principle in the business of money-getting, namely—Industry—persevering, indefatigable attention to business. Persevering diligence is the Philosopher's stone, which turns everything to gold. Constant, regular, habitual and systematic application to business, must in time, if properly directed, produce great results. It must lead to wealth, with the same certainty that poverty follows in the train of idleness and inattention. It has been truly remarked that he who follows his amusements instead of his business, will, in a short time, have no business to follow.

The art of money-saving is an important part of the art of money-getting. Without frugality no one can become rich; with it, few would be poor. Those who consume as fast as they produce, are on the road to ruin. As most of the poverty we meet with grows out of idleness and extravagance, so most large fortunes have been the result of habitual industry and frugality. The practice of economy is as necessary in the expenditure of time as of money. They say if "we take care of the pence the pounds will take care of themselves." So, if we take care of the minutes, the days will take care of themselves.

The acquisition of wealth demands as much self-denial, and as many sacrifices of present gratification, as the practice of virtue itself. Vice and poverty proceed, in some degree, from the same sources, namely—the disposition to sacrifice the future to the present; the inability to forego a small present pleasure for great future advantages. Men fail of fortune in this world, as they fail of happiness in the world to come, simply because they are unwilling to deny themselves momentary enjoyments for the sake of permanent future happiness.

Every large city is filled with persons, who, in order to support the appearance of wealth, constantly live beyond their income, and make up the deficiency by contracting debts which are never paid. Others, there are, the mere drones of so-

ciety, who pass their days in idleness, and subsist by pirating on the lives of the industrious. Many who run a short-lived career of splendid beggary, could they be but persuaded to adopt a system of rigid economy for a few years, might pass the remainder of their days in affluence. But no! They must keep up appearances, they must live like other folks.

Their debts accumulate; their credit fails; they are harassed by duns, and besieged by constables and sheriff. In this extremity, as a last resort, they submit to a shameful dependence, or engage in criminal practices which entail hopeless wretchedness and infamy on themselves and families.

Stick to the business in which you are regularly employed. Let speculators make thousands in a year or a day; mind your own regular trade, never turning from it to the right hand or to the left. If you are a merchant, a professional man, or a mechanic, never buy lots or stocks, unless you have surplus money which you wish to invest. Your own business you understand as well as other men; but other people's business you do not understand. Let your business be some one which is useful to the community. All such occupations possess the elements of profit in themselves.

How to Secure the Public Lands,

OR THE ENTRY OF THE SAME UNDER THE PRE-EMPTION AND HOMESTEAD LAWS.

The following circular gives all necessary information as to the procedure necessary in purchasing and securing the public lands:

DEPARTMENT OF THE INTERIOR,
GEN'L LAND OFFICE, July 19, 1865. }

Numerous questions having arisen as to the mode of procedure to purchase public lands, or acquire title to the same by bounty land locations, by pre-emptions or by homestead, this circular is communicated for the information of all concerned.

In order to acquire title to public lands the following steps must be taken:

1. Application must be made to the Register of the district land office in which the land desired may be situated.

A list of all the land offices in the United States is furnished by the Department, with the seats of the different offices, where it is the duty of the Register and Receiver to be in attendance, and give proper facilities and information to persons desirous of obtaining lands.

The minimum price of ordinary public lands is \$1.25 per acre. The even or reserved sections falling within railroad grants are increased to double the minimum price, being \$2.50 per acre.

Lands once offered at public sale, and not afterwards kept out of market by reservation, or otherwise, so as to prevent free competition, may be entered or located.

2. By the applicant filing with the Register his written application describing the

tract, with its area; the Register will then certify to the receiver whether the land is vacant, with its price; and when found to be so, the applicant must pay that price per acre, or may locate the same with land warrant, and thereafter the Receiver will give him a "duplicate receipt," which he is required to surrender previous to the delivery to him of the patent, which may be had either by application for it to the Register or to the General Land Office.

3. If the tract has not been offered at public sale it is not liable to ordinary private entry, but may be secured by a party legally qualified, upon his compliance with the requirements of the pre-emption laws of 4th September, 1841, and 3d March, 1843; and after such party shall have made actual settlement for such a length of time as will show he designs it for his permanent home, and is acting in good faith, building a house and residing therein, he may proceed to the district land office, establish his pre-emption claim according to law, by proving his actual residence and cultivation, and showing that he is otherwise within the purview of these acts.— Then he can enter the land at \$1.25, either in cash or with bounty land warrant, unless the premises should be \$2.50 acre lands. In that case the whole purchase-money can be paid in cash, or one-half in cash, the residue with a bounty land warrant.

4. But if parties legally qualified desire to obtain title under the Homestead Act of 20th May, 1862, they can do so on com-

plying with the Department Circular, dated 30th October, 1862.

5. The law confines Homestead entries to surveyed lands; and although, in certain States and Territories noted in the sub-joined list, pre-emptors may go on land before survey, yet they can only establish their claim after return of survey, but must file their pre-emption declaration within three months after receipt of official plat, at the local land-office where the settlement was made before survey. Where, however, it was made after survey, the claimant must file within three months after date of settlement; and where actual residence and cultivation have been long enough to show

that the claimant has made the land his permanent home, he can establish his claim and pay for the same at any time before the date of the public sale of lands within the range in which his settlement may fall.

6. All unoffered surveyed lands not acquired under pre-emption, homestead, or otherwise, under express legal sanction, must be offered at public sale under the President's Proclamation, and struck off to the highest bidder, as required by act of April 24, 1820.

J. M. EDMUNDS,
Commissioner General Land Office.

LAW MAXIMS.

1. A promise of a debtor to give "satisfactory security" for the payment of a portion of his debt, is a sufficient consideration for a release of the residue by his creditor.

2. Administrators are liable to account for interest on funds in their hands, although no profit shall have been made upon them, unless the exigencies of the estate rendered it prudent that they should hold the funds thus uninvested.

3. Any person who voluntarily becomes an agent for another, and in that capacity obtains information to which as a stranger he could have had no access, is bound in subsequent dealing with his principal, as purchaser of the property that formed the subject of his agency, to communicate such information.

4. When a house is rendered untenable in consequence of improvements made on the adjoining lot, the owner of such cannot recover damages, because it is presumed that he had knowledge of the approaching danger in time to protect himself from it.

5. When a merchant ship is abandoned by order of the master, for the purpose of saving life, and a part of the crew subsequently meet the vessel so abandoned and bring her safe into port, they will be entitled to salvage.

6. A person who has been led to sell goods by means of false pretenses, cannot recover them from one who has purchased them in good faith from the fraudulent vendor.

7. An agreement by the holder of a note to give the principal debtor time for payment, without depriving himself of the right to sue, does not discharge the surety.

8. A seller of goods who accepts, at the time of sale, the note of a third party, not endorsed by the buyer, in payment, cannot in case the note is not paid, hold the buyer responsible for the value of the goods.

9. A day-book copied from a "blotter" in which charges are first made, will not be received in evidence as a book of original entries.

10. Common carriers are not liable for extraordinary results of negligence that could not have been foreseen by ordinary skill and foresight.

11. A bidder at a Sheriff's sale may retract his bid at any time before the property is knocked down to him, whatever may be the conditions of the sale.

12. Acknowledgment of debt to a stranger does not preclude the operation of the statute.

13. The fruits and grass on the farm or garden of an intestate descend to the heir.

14. Agents are solely liable to their principals.

15. A deposit of money in bank by a husband, in the name of his wife, survives to her.

16. Money paid on Sunday contracts may be recovered.

17. A debtor may give preference to one creditor over another, unless fraud or special legislation can be proved.

18. A court cannot give judgment for a larger sum than that specified in the verdict.

19. Imbecility on the part of either husband or wife, invalidates the marriage.

20. An action for malicious prosecution will lie, though nothing further was done than suing out warrants.

21. An agreement not to continue the practice of a profession or business in any specified town, if the party so agreeing has received a consideration for the same, is valid.

22. When A consigns goods to B to sell on commission, and B delivers them to C, in payment of his own antecedent debts, A can recover their value.

23. A finder of property is compelled to make diligent inquiry for the owner thereof, and to restore the same. If, on finding such property, he attempts to conceal such fact, he may be prosecuted for larceny.

24. A private person may obtain an injunction to prevent a public mischief by which he is affected in common with others.

25. Any person interested may obtain an injunction to restrain the State or a municipal corporation from maintaining a nuisance on its lands.

26. A discharge under the insolvent laws of one State will not discharge the insolvent from a contract made with a citizen of another State.

27. To prosecute a party with any other motive than to bring him to justice, is malicious prosecution, and actionable as such.

28. Ministers of the gospel, residing in any incorporated town, are not exempt from jury, military, or fire service.

29. When a person contracts to build a house, and is prevented by sickness from finishing it, he can recover for the part performed, if such part is beneficial to the other party.

30. In a suit for enticing away a man's wife, actual proof of the marriage is not necessary. Cohabitation, reputation, and the admission of marriage by the parties, are sufficient.

31. Permanent erections and fixtures, made by a mortgagor after the execution of the mortgage upon land conveyed by it, become a part of the mortgaged premises.

32. When a marriage is denied, and plaintiff has given sufficient evidence to establish it, the defendant cannot examine the wife to disprove the marriage.

33. The amount of an express debt cannot be enlarged by application.

34. Contracts for advertisements in Sunday newspapers cannot be enforced.

35. A seller of goods, chattels, or other property, commits no fraud, in law, when he neglects to tell the purchaser of any flaws, defects, or unsoundness in the same.

36. The opinions of witnesses, as to the value of a dog that has been killed, are not admissible in evidence. The value of the animal is to be decided by the jury.

37. If any person puts a fence on or plows the land of another, he is liable for trespass whether the owner has sustained injury or not.

38. If a person, who is unable from illness to sign his will, has his hand guided in making his mark, the signature is valid.

39. When land trespassed upon is occupied by a tenant, he alone can bring the action.

40. To say of a person, "If he does not come and make terms with me, I will make a bankrupt of him and ruin him," or any such threatening language, is actionable, without proof of special damage.

41. In an action for slander, the party making the complaint must prove the words alleged; other words of like meaning will not suffice.

42. In a suit of damages for seduction, proof of pregnancy, and the birth of a child, is not essential. It is sufficient if the illness of the girl, whereby she was unable to labor, was produced by shame for the seduction; and this is such a loss of service as will sustain the action.

43. Addressing to a wife a letter containing matter defamatory to the character of her husband is a publication, and renders the writer amenable to damages.

44. A parent cannot sustain an action for any wrong done to a child, unless he has incurred some direct pecuniary injury therefrom in consequence of some loss of service or expenses necessarily consequent thereupon.

45. A master is responsible for an injury resulting from the negligence of his servant, whilst driving his cart or carriage, provided the servant is at the time engaged in his master's business, even though the accident happens in a place to which his master's business does not call him; but if the journey of a servant be solely for a purpose of his own, and undertaken without the knowledge and consent of his master, the latter is not responsible.

46. An emigrant depot is not a nuisance in law.

47. A railroad track through the streets is not a nuisance in law.

48. In an action for libel against a newspaper, extracts from such newspaper may be given to show its circulation, and the extent to which the libel has been published. The jury, in estimating the damages, are to look at the character of the libel, and whether the defendant is rich or poor. The plaintiff is entitled, in all cases, to his actual damages, and should be compensated for the mental sufferings endured, the public disgrace inflicted, and all actual discomfort produced.

49. Delivery of a husband's goods by a wife to her adulterer, he having knowledge that she has taken them without her husband's authority, is sufficient to sustain an indictment for larceny against the adulterer.

50. The fact that the insurer was not informed of the existence of impending litigation, affecting the premises insured, at the time the insurance was effected, does not vitiate the policy.

51. The liability of an innkeeper is not confined to personal baggage, but extends to all the property of the guest that he consents to receive.

52. When a minor executes a contract, and pays money, or delivers property on the same, he cannot afterwards disaffirm such contract and recover the money, or property, unless he restores to the other party the consideration received from him for such money or property.

53. When a person has, by legal inquisition been found an habitual drunkard, he cannot, even in his sober intervals, make contracts to bind himself or his property, until the inquisition is removed.

54. Any person dealing with the representative of a deceased person, is presumed, in law, to be fully apprized of the extent of such representative's authority to act in behalf of such estate.

55. In an action against a railroad company, by a passenger, to recover damages for injuries sustained on the road, it is not compulsory upon the plaintiff to prove actual negligence on the part of the defendants; but it is obligatory on the part of the latter to prove that the injury was not owing to any fault or negligence of theirs.

56. A guest is a competent witness, in an action between himself and an inn-keeper, to prove the character and value of lost personal baggage. Money in a trunk, not exceeding the amount reasonably required by the traveler to defray the expenses of the journey which he has undertaken, is a part of his baggage; and in case of its loss, while at any inn, the plaintiff may prove its amount by his own testimony.

57. The deed of a minor is not absolutely void. The court is authorized to judge, from the instrument, whether it is void or not, according to its terms being favorable or unfavorable to the interests of the minor.

58. A married woman can neither sue nor be sued on any contract made by her during her marriage, except in an action relating to her individual property. The action must be commenced either by or against her husband. It is only when an action is brought on a contract made by her before her marriage, that she is to be joined as a co-plaintiff, or defendant, with her husband.

59. Any contract made with a person judicially declared a lunatic is void.

60. Money paid voluntarily in any transaction, with a knowledge of the facts, cannot be recovered.

61. In all cases of special contract for services, except in the case of a minor, the plaintiff can recover only the amount stipulated in the contract.

62. A wife is a competent witness with her husband, to prove the contents of a lost trunk, or when a party.

63. A wife cannot be convicted of receiving stolen goods when she received them of her husband.

64. Insurance against fire, by lightning or otherwise, does not cover loss by lightning when there is no combustion.

65. Failure to prove plea of justification, in a case of slander, aggravates the offence.

66. It is the agreement of the parties to sell by sample that constitutes a sale by sample, not the mere exhibition of a specimen of the goods.

67. An agent is liable to his principals for loss caused by his misstatements, tho' unintentional.

68. Makers of promissory notes given in advance for premiums on policies of insurance, thereafter to be taken, are liable thereon.

69. An agreement to pay for procuring an appointment to office is void.

70. An attorney may plead the statute of limitations, when sued by a client for money which he has collected and failed to pay over.

71. Testimony given by a deceased witness on first trial, is not required to be repeated verbatim on the second.

72. A person entitling himself to a reward offered for lost property, has a lien upon the property for the reward; but only when a definite reward is offered.

73. Confession by a prisoner must be voluntarily made, to constitute evidence against him.

74. The defendant in a suit must be served with process; but service of such process upon his wife, even in his absence from the State, is not, in the absence of statutory provisions, sufficient.

75. The measure of damages in trespass for cutting timber, is its value as a chattel on the land where it was felled, and not the market price of the lumber manufactured.

76. To support an indictment for malicious mischief in killing an animal, malice towards its owner must be shown, not merely passion excited against the animal itself.

77. No action can be maintained against a sheriff for omitting to account for money obtained upon an execution within a reasonable time. He has till the return day to render such account.

78. An interest in the profits of an enterprise, as profits, renders the party holding it a partner in the enterprise, and makes him presumptively liable to share any loss.

79. Males can marry at fourteen, and females at twelve years of age.

80. All cattle found at large upon any public road, can be driven by any person to the public pound.

81. Any dog chasing, barking, or otherwise threatening a passer-by in any street, lane, road, or other public thoroughfare, may be lawfully killed for the same.

82. A written promise for the payment of such amount as may come into the hands of the promisor, is held to be an instrument in writing for the payment of money.

83. The declaration of an agent is not admissible to establish the fact of agency.—But when other proper evidence is given, tending to establish the fact of agency, it is not error to admit the declarations of the agent, accompanying acts, though tending to show the capacity in which he acted. When evidence is competent in one respect and incompetent in another, it is the duty of the court to admit it, and control its effects by suitable instructions to the jury.

84. The court has a general power to remove or suspend an attorney for such immoral conduct as rendered him unworthy of confidence in his official capacity.

85. Bankruptcy is pleadable in bar to all actions and in all courts, and this bar may be avoided whenever it is interposed, by showing fraud in the procurement of the discharge, or a violation of any of the provisions of the bankrupt act.

86. An instrument in the form of a deed, but limited to take effect at the termination of the grantor's natural life, is held to be a deed, not a will.

87. A sale will not be set aside as fraudulent, simply because the buyer was at the time unable to make the payment agreed upon, and knew his inability, and did not intend to pay.

88. No man is under an obligation to make known his circumstances when he is buying goods.

89. Contracting parties are bound to disclose material facts known to each, but of which either supposes the other to be ignorant, only when they stand in some special relation of trust and confidence in relation to the subject matter of the contract. But neither will be protected if he does anything, however slight, to mislead or deceive the other.

90. A contract negotiated by mail is formed when notice of acceptance of the offer is duly deposited in the post-office, properly addressed. This rule applies, although the party making the offer expressly requires that if it is accepted, speedy notice of acceptance shall be given him.

91. The date of an instrument is so far a material part of it, that an alteration of the date by the holder after execution, makes the instrument void.

92. A corporation may maintain an action for libel, for words published of them and relating to its trade or business, by which it has incurred special damages.

93. It is unprofessional for a lawyer who has abandoned his case without trying it, a term or two before trial, to claim a fee conditional upon the success of his client, although his client was successful.

94. Although a party obtaining damages for injuries received through the default of another, was himself guilty of negligence, yet that will not defeat his recovery, unless his negligence contributed to cause the injury.

95. A person may contract to labor for another during life, in consideration of receiving his support; but his creditors have the right to inquire into the intention with which such arrangement is made, and it will be set aside if entered into to deprive them of his future earnings.

96. A grantor may by express terms exclude the bed of a river, or a highway, mentioned as boundary; but if without language of exclusion a line is described as 'along,' or 'upon,' or as 'running to' the highway or river, or as 'by,' or 'running to the bank of' the river; these expressions carry the grantee to the center of the highway or river.

97. The court will take pains to construe the words used in a deed in such a way as to effect the intention of the parties, however unskillfully the instrument may be drawn. But a court of law cannot exchange an intelligible word plainly employed in a deed for another, however evident it may be that the word used was by mistake for another.

98. One who has lost his memory and understanding is entitled to legal protection, whether such loss is occasioned by his own misconduct or by an act of Providence.

99. When a wife leaves her husband voluntarily, it must be shown, in order to make him liable for necessaries furnished to her, that she could not stay with safety. Personal violence, either threatened or inflicted, will be sufficient cause for such separation.

100. Necessaries of dress furnished to a discarded wife must correspond with the pecuniary circumstances of the husband, and be such articles as the wife, if prudent, would expect, and the husband should furnish, if the parties lived harmoniously together.

101. A fugitive from justice from one of the United States to another, may be arrested and detained in order to his surrender by authority of the latter, without a previous demand for his surrender by the executive of the State whence he fled.

102. A watch will not pass under a bequest of "wearing apparel," nor of "household furniture and articles for family use."

103. Money paid for the purpose of settling or compounding a prosecution for a supposed felony, cannot be recovered back by a party paying it.

104. An innkeeper is liable for the death of an animal in his possession, but may free himself from liability by showing that the death was not occasioned by negligence on his part.

105. Notice to the agent of a company is notice to the company.

106. An employer is not liable to one of his employees for an injury sustained by the latter in consequence of the neglect of others of his employees engaged in the same general business.

107. Where a purchaser at a Sheriff's sale has bid the full price of property under the erroneous belief that the sale would divest the property of all liens, it is the duty of the court to give relief by setting aside the sale.

108. When notice of protest is properly sent by mail, it may be sent by the mail of the day of the dishonor; if not, it must be mailed for the mail of the next day; except that if there is none, or it closes at an unseasonably early hour, then notice must be mailed in season for the next possible mail.

109. A powder-house located in a populous part of a city, and containing large quantities of gunpowder, is a nuisance.

110. When the seller of goods accepts at the time of the sale, the note of a third person, unindorsed by the purchaser, in payment, the presumption is that the payment was intended to be absolute; and though the note should be dishonored, the purchaser will not be liable for the value of the goods.

111. A man charged with crime before a committing magistrate, but discharged on his own recognizance, is not privileged from arrest on civil process while returning from the magistrate's office.

112. When one has been induced to sell goods by means of false pretences, he cannot recover them from one who has bona fide purchased and obtained possession of them from the fraudulent vendor.

113. If the circumstances attendant upon a sale and delivery of personal property are such as usually and naturally accompany such a transaction, it cannot be declared a legal fraud upon creditors.

114. A stamp impressed upon an instrument by way of seal, is good as a seal, if it creates a durable impression in the texture of the paper.

115. If a party bound to make a payment use due diligence to make a tender, but through the payee's absence from home is unable to find him or any agent authorized to take payment for him, no forfeiture will be incurred through his failure to make a tender.

Government Land Measure.

A township, 36 sections, each a mile square.

A section, 640 acres.

A quarter section, half a mile square, 160 acres.

An eighth section, half a mile long, north and south, and a quarter of a mile wide, 80 acres.

A sixteenth section, a quarter of a mile square, 40 acres.

The sections are numbered from one to thirty-six, commencing at the northeast corner, thus:

6	5	4	3	2	<table border="1" style="display: inline-table; vertical-align: middle;"><tr><td>n</td><td>w</td><td>n</td><td>e</td></tr><tr><td>s</td><td>w</td><td>s</td><td>e</td></tr></table>	n	w	n	e	s	w	s	e
n	w	n	e										
s	w	s	e										
7	8	9	10	11	13								
18	17	16	15	14	13								
19	20	21	22	23	24								
30	29	28	27	26	25								
31	32	33	34	35	36								

The sections are all divided in quarters, which are named by the cardinal points, as in section one. The quarters are divided in the same way. The description of a 40 acre lot would read: The south half of the west half of the southwest quarter of section 1 in township 24, north of range 7 west, or as the case might be; and sometimes will fall short, and sometimes overrun the number of acres it is supposed to contain.

THE DECIMAL SYSTEM
OF
WEIGHTS AND MEASURES.

As Authorized by Act of Congress--Approved July 28, 1866.

STANDARDS.

In every system of Weights and Measures it is necessary to have what are called "Standards," as the pound, yard, gallon, &c., to be divided and multiplied into smaller and larger parts and denominations. The definition and construction of these Standards involve philosophical and scientific principles of a somewhat abstruse character, and are made and procured by the legislative department of the government. The nominal Standards in the new system are the METER, the ARE, the LITER, and the GRAM. The only *real* Standard, the one by which all the other standards are measured, and from which the system derives its name of "Metric," is the METER.

THE METER

Is used for all measures of length, distance, breadth, depth, height, &c., and was intended to be, and is very nearly, one ten-millionth of the distance on the earth's surface from the equator to the pole. It is about $39\frac{3}{8}$ inches, or 3 feet, 3 inches and 3 eighths, and is to be substituted for the yard.

THE ARE

Is a surface whose side is ten Meters, and is equal to 100 square Meters or about 4 square rods.

THE LITER

Is the unit for measuring solids and capacity, and is equal to the contents of a cube whose edge is one-tenth of a meter. It is about equal to 1 quart, and is a standard in cubic, dry and liquid measures.

 A cubic Meter (or Kiloliter) is called a *stere*, and is also used as a standard in certain cubic measures.

THE GRAM

Is the Unit of *weight*, and is the weight of a cube of pure water, each edge of the cube being one one-hundredth of a Meter. It is about equal to $15\frac{1}{2}$ grains. It is intended as the Standard in *all* weights, and with its divisions and multiples, to supersede the use of what are now called Avoirdupois, Apothecaries and Troy Weights.

Each of the foregoing Standards is divided decimally, and larger units are also formed by multiples of 10, 100, &c. The successive subordinate parts are designated by the prefixes Deci, Centi and Milli; the successive multiples by Dekka, Hecto, Kilo and Myria; each having its own numerical signification, as will be more clearly seen in the tables hereinafter given.

The terms used may, at first sight, have a formidable appearance, seem difficult to pronounce, and to retain in memory, and to be, therefore, objectionable; but with a little attention and use, the apprehended difficulty will be found more apparent than real, as has been abundantly proved by experience. The importance, also, of conformity in the use of commercial terms, on the part of the United States, with the practice of the many nations in which the system, *with its present nomenclature*, has already been adopted, must greatly overbalance the comparatively slight objection alluded to.

TABLES.

OLD.	MONEY.	NEW.
4 farthing make	1 penny.	10 mills make 1 cent.
12 pence "	1 shilling.	10 cents " 1 dime.
20 shillings " "	1 pound.	10 dimes " 1 dollar.

LONG AND CLOTH MEASURE.—NEW.

10 millimeters	make	1 centimeter.
10 centimeters	"	1 decimeter.
10 decimeters	"	1 METER.
10 meters	"	1 dekameter.
10 dekameters	"	1 hectometer.
10 hectometers	"	1 kilometer.
10 kilometers	"	1 myriameter.

SQUARE MEASURE.—NEW.

100 square millimeters	make	1 square centimeter.
100 square centimeters	"	1 square decimeter.
100 square decimeters	"	1 square meter or CENTARE.
100 centares	"	1 ARE.
100 ares	"	1 hectare.

 The denominations less than the Are, including the Meter, are used in specifying the contents of surfaces of small extent; the terms *Centare*, *Are* and *Hectare*, in expressing quantities of land surveyed or measured.

The above table may, however, be continued beyond the Meter, thus:

100 square meters	make	1 square dekameter.
100 square dekameters	"	1 square hectometer.
100 square hectometers	"	1 square kilometer.
100 square kilometers	"	1 square myriameter.

CUBIC MEASURE.—NEW.

For Solids.

1000 cubic millimeters	make	1 cubic centimeter.
1000 cubic centimeters	"	1 cubic decimeter or liter.
1000 cubic decimeters	"	1 cubic meter or stere.
1000 cubic meters	"	1 cubic dekameter.
1000 cubic dekameters	"	1 cubic hectometer.
1000 cubic hectometers	"	1 cubic kilometer.
1000 cubic kilometers	"	1 cubic myriameter.

For Dry and Liquid Measures.

10 milliliters	make	1 centiliter.
10 centiliters	"	1 deciliter.
10 deciliters	"	1 LITER.
10 liters	"	1 dekaliter.
10 dekaliters	"	1 hectoliter.
10 hectoliters	"	1 kiloliter.
10 kiloliters	"	1 myrialiter.

 A LITER, the standard of Measures of Capacity, usually in a cylindrical form, is equivalent to a cubic *Decimeter*, or the one-thousandth part of a cubic *Meter*, the contents of which are about one quart.]

The Kiloliter, or STERE, is a cubic Meter, and is used as a unit in measuring firewood and lumber.

10 decisteres	make	1 stere.
10 steres	"	1 dekastere.

ALL WEIGHTS.—NEW.

10 milligrams	make	1 centigram.
10 centigrams	"	1 decigram.
10 decigrams	"	1 GRAM.
10 grams	"	1 dekagram.
10 dekagrams	"	1 hectogram.
10 hectograms	"	1 kilogram.
10 kilograms	"	1 myriagram.
10 myriagrams	"	1 quintal.
10 quintals	"	1 millier or tonneau.

Acts and Resolutions of Congress.

PUBLIC—No. 183.

AN ACT to authorize the use of the metric system of weights and measures.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled. That from and after the passage of this act, it shall be lawful throughout the United States of America to employ the weights and measures of the metric system; and no contract or dealing, or pleading in any court, shall be deemed invalid or liable to objection, be-

cause the weights or measures expressed or referred to therein are weights or measures of the metric system.

Sec. 2. *And be it further enacted,* That the tables in the schedule hereto annexed, shall be recognized in the construction of contracts, and in all legal proceedings, as establishing, in terms of the weights and measures now in use in the United States, the equivalents of the weights and measures expressed therein in terms of the metric system; and said tables may be lawfully used for computing, determining and expressing, in customary weights and measures, the weights and measures of the metric system.

MEASURES OF LENGTH.

METRIC DENOMINATIONS AND VALUES.	EQUIVALENTS IN DENOMINATIONS IN USE.	
Myriametre,	10,000 metres,	6.2137 miles.

Discount and Premium.

When a person buys an article for \$1.00—20 per cent off, (or discount,) and sells it again for \$1.00, he makes a profit of 25 per cent. on his investment. Thus: He pays 80 cents and sells for \$1.00—a gain of 20 cents, or 25 per cent of 80 cents. And for any transaction where the sale or purchase of gold, silver, or currency is concerned, the following rules will apply in all cases.

RULE 1st.—To find premium when discount is given: Multiply 100 by rate of discount and divide by 100, less rate of discount.

RULE 2d.—To find discount when premium is given. Multiply the rate of interest by 100, and divide by 100, plus the rate of premium.

Suppose A has \$140 in currency, which he wishes to exchange for gold, when gold is 27 per cent. premium, how much gold should he receive? In this case the premium is given, consequently we must find the discount on A's currency and subtract it from the \$140, as per rule 2d, showing the discount to be a trifle more than 21 per cent. and that he should receive \$110.60 in gold.

*Flax Seed by cust'm weighs 56 lb. per bush.

Facts on Advertising.

The advertisements in an ordinary number of the London Times exceed 2,500. The annual advertising bills of one London firm are said to amount to \$200,000; and three others are mentioned who each annually expend for the purpose \$50,000. The expense for advertising the eight editions of the "Encyclopædia Britannica" is said to have been \$15,000.

In large cities nothing is more common than to see large business establishments, which seem to have an immense advantage over all competitors, by the wealth, experience, and prestige they have acquired, drop gradually out of public view, and be succeeded by firms of a smaller capital, more energy, and more determined to have the fact that they sell such and such commodities known from one end of the land to the other. In other words, the establishments advertise; the old die of dignity.—The former are ravenous to pass out of obscurity into publicity; the latter believe that their publicity is so obvious that it cannot be obscured. The first understand that they must trust themselves upon public attention, or be disregarded; the second, having once obtained public attention, suppose they have arrested it permanently; while, in fact, nothing is more characteristic of the world than the ease with which it forgets.

Stephen Girard, than whom no shrewder business man ever lived, used to say: I have always considered advertising liberally and long to be the great medium of success in business, and the prelude to wealth. And I have made it an invariable rule too, to advertise in the dullest times as well as the busiest; long experience having taught me that money thus spent is well laid out; as by keeping my business continually before the public it has secured me many sales that I would otherwise have lost.

Brilliant Whitewash.

Many have heard of the brilliant stucco whitewash on the east end of the President's house at Washington. The following is a recipe for it; it is gleaned from the National Intelligencer, with some additional improvements learned by experiments: Take half a bushel of nice unslacked lime, slack it with boiling water, cover it during the process to keep in the steam. Strain the liquid through a fine sieve or strainer, and add to it a peck of salt, previously well dissolved in warm water; three pounds of ground rice, boiled to a thin paste, and stirred in boiling hot; half a pound of powdered Spanish whiting, and a pound of clean glue, which has been previously dissolved by soaking it well, and then hanging it over a slow fire, in a small kettle within a large one filled with water. Add five gallons of hot water to the mixture, stir it well, and let it stand a few days covered from the dirt.

It should be put on right hot; for this purpose it can be kept in a kettle on a portable furnace. It is said that about a pint of this mixture will cover a square yard upon the outside of a house if properly applied. Brushes more or less small may be used according to the neatness of the job required. It answers as well as oil paint for wood, brick or stone, and is cheaper. It retains its brilliancy for many years. There is nothing of the kind that will compare with it, either for inside or outside walls.

Coloring matter may be put in and made of any shade you like. Spanish brown stirred in will make red pink, more or less deep according to the quantity. A delicate tinge of this is very pretty, for inside walls. Finely pulverized common clay, well mixed with Spanish brown, makes a reddish stone color. Yellow-ochre stirred in makes yellow wash, but chrome goes further, and makes a color generally esteemed prettier. In all these cases the darkness of the shades of course is determined by the quantity of coloring used. It is difficult to make rules, because tastes are different. It would be best to try experiments on a shingle and let it dry. We have been told that green must not be mixed with lime. The lime destroys the color, and the color has an effect on the whitewash, which makes it crack and peel. When walls have been badly smoked, and you wish to have them a clean white, it is well to squeeze indigo plentifully through a bag into the water you use, before it is stirred in the whole mixture. If a larger quantity than five gallons be wanted, the same proportion should be observed.

How to get a Horse out of a Fire.

The great difficulty of getting horses from a stable where surrounding buildings are in a state of conflagration, is well known.—The plan of covering their eyes with a blanket will not always succeed.

A gentleman whose horses have been in great peril from such a cause, having tried

in vain to save them, hit upon the expedient of having them harnessed as though going to their usual work; when, to his astonishment, they were led from the stable without difficulty.

The Chemical Barometer.

Take a long narrow bottle, such as an old-fashioned Eau-de-Cologne bottle, and put into it two and a half drachms of camphor, and eleven drachms of spirits of wine; when the camphor is dissolved, which it will readily do by slight agitation, add the following mixture: Take water, nine drachms; nitrate of potash (saltpetre) thirty-eight grains; and muriate of ammonia (sal ammoniac) thirty-eight grains. Dissolve these salts in the water prior to mixing with the camphorated spirit; then shake the whole well together. Cork the bottle well, and wax the top, but afterwards make a very small aperture in the cork with a red-hot needle. The bottle may then be hung up, or placed in any stationary position. By observing the different appearances which the materials assume, as the weather changes, it becomes an excellent prognosticator of a coming storm or of a sunny sky.

Leech Barometer.

Take an eight ounce phial, and put in it three gills of water, and place in it a healthy leech, changing the water in summer once a week, and in winter once in a fortnight, and it will most accurately prognosticate the weather. If the weather is to be fine, the leech lies motionless at the bottom of the glass and coiled together in a spiral form; if rain may be expected, it will creep up to the top of its lodgings and remain there till the weather is settled; if we are to have wind, it will move through its habitation with amazing swiftness, and seldom goes to rest till it begins to blow hard; if a remarkable storm of thunder and rain is to succeed, it will lodge for some days before almost continually out of the water, and discover great uneasiness in violent throes and convulsive-like motions; in frost as in clear summer-like weather it lies constantly at the bottom; and in snow as in rainy weather it pitches its dwelling in the very mouth of the phial. The top should be covered over with a piece of muslin.

TO MEASURE GRAIN IN A BIN.—Find the number of cubic feet, from which deduct *one-fifth*. The remainder is the number of bushels—allowing, however, one bushel extra to every 224. Thus in a remainder of 224 there would be 225 bushels. In a remainder of 448 there would be 450 bushels, &c.

VALUABLE RECIPES.

[The following recipes are vouched for by several who have tried them and proven their virtues. Many of them have been sold singly for more than the price of this book.—PUB.]

HORSES.

RING BONE AND SPAVIN.—2 oz. each of Spanish flies and Venice turpentine; 1 oz. each of aqua ammonia and euphorbium; $\frac{3}{8}$ oz. red precipitate; $\frac{1}{4}$ oz. corrosive sublimate; 1 $\frac{1}{2}$ lbs. lard. When thoroughly pulverized and mixed, heat carefully so as not to burn, and pour off free from sediment.

For ring-bone, rub in thoroughly, after removing hair, once in 48 hours. For spavin, once in 24 hours. Cleanse and press out the matter on each application.

POLL-EVIL.—Gum arabic $\frac{1}{4}$ oz; common potash $\frac{1}{4}$ oz; extract of belladonna $\frac{1}{2}$ dr. Put the gum in just enough water to dissolve it. Pulverize the potash and mix with the dissolved gum, and then put in the extract of belladonna, and it will be ready for use. Use with a syringe after having cleansed with soap suds, and repeat once in two days till a cure is affected.

SCOURS.—Powdered tormentil root, given in milk, from 3 to 5 times daily till cured.

GREASE-HEEL AND SCRATCHES.—Sweet oil 6 ozs.; borax 2 ozs.; sugar of lead 2 ozs. Wash off with dish water, and, after it is dry, apply the mixture twice a day.

CHOLIC IN HORSES.—To $\frac{1}{2}$ pt. of warm water add 1 oz. laudanum and 3 ozs. spirits of turpentine, and repeat the dose in about $\frac{1}{4}$ of an hour, adding $\frac{1}{4}$ oz. powdered aloes, if not relieved.

BOTS.—Three doses. 1st. 2 qts milk and 1 of molasses. 2d. 15 minutes after, 2 qts. warm sage tea. 3d. After the expiration of 30 minutes, sufficient lard to physic.—Never fails.

MISCELLANEOUS.

PILES—PERFECTLY CURED.—Take flour of sulphur 1 oz., rosin 3 ozs., pulverize and mix well together. (Color with carmine or cochineal, if you like.) *Dose*—What will lie on a five cent piece, night and morning, washing the parts freely in cold water once or twice a day. This is a remedy of great value.

The cure will be materially hastened by taking a table-spoon of sulphur in a half pint of milk, daily, until the cure is affected.

SURE CURE FOR CORNS, WARTS AND CHILBLAINS.—Take of nitric and muriatic acids, blue vitriol and salts of tartar, 1 oz. each. Add the blue vitriol, pulverized, to either of the acids; add the salts of tartar in the same way; when done foaming, add the other acid, and in a few days it will be ready for use. For chilblains and corns apply it very lightly with a swab, and repeat in a day or two until cured. For warts, once a week, until they disappear.

HOOF-AIL IN SHEEP.—Mix 2 ozs. each of butter of antimony and muriatic acid with 1 oz. of pulverized white vitriol, and apply once or twice a week to the bottom of the foot.

COMMON RHEUMATISM.—Kerosene oil 2 ozs.; neats-foot oil 1 oz.; oil of organum $\frac{1}{2}$ oz. Shake when used, and rub and heat in twice daily.

VERY FINE SOAP, QUICKLY AND CHEAPLY MADE.—Fourteen pounds of bar soap in a half a boiler of hot water; cut up fine; add three pounds of sal-soda made fine; one ounce of pulverized rosin; stir it often till all is dissolved; just as you take it off the fire, put in two table-spoonfuls of spirits of turpentine and one of ammonia; pour it in a barrel, and fill up with cold soft water; let it stand three or four days before using. It is an excellent soap for washing clothes, extracting the dirt readily, and not fading colored articles.

WATER PROOF FOR LEATHER.—Take linseed oil 1 pint, yellow wax and white turpentine each 2 ozs. Burgundy pitch 1 oz., melt and color with lampblack.

TO KEEP CIDER SWEET.—Put into each barrel, immediately after making, $\frac{1}{2}$ lb. ground mustard, 2 oz. salt and 2 oz. pulverized chalk. Stir them in a little cider, pour them into the barrel, and shake up well.

AGUE CURE.—Procure $1\frac{1}{2}$ table-spoons of fresh mandrake root juice, (by pounding) and mix with the same quantity of molasses, and take in three equal doses, 2 hours a part, the whole to be taken 1 hour before the chill comes on. Take a swallow of some good bitters before meals, for a couple of weeks after the chills are broken, and the cure will be permanent.

CURE FOR SALT RHEUM OR SCURVY.—Take of the pokeweed, any time in summer; pound it; press out the juice; strain it into a pewter dish; set it in the sun till it becomes a salve—then put it into an earthen mug; add to it fresh water and bees' wax sufficient to make an ointment of common consistency; simmer the whole over a fire till thoroughly mixed. When cold, rub the part affected. The patient will almost immediately experience its good effects, and the most obstinate cases will be cured in three or four months. Tested.—The juice of the ripe berries may be prepared in the same way.

SUPERIOR PAINT—FOR BRICK HOUSES.—To lime whitewash, add for a fastener, sulphate of zinc, and shade with any color you choose, as yellow ochre, Venetian red, etc. It outlasts oil paint.

FELONS.—Stir 1 oz. of Venice turpentine with $\frac{1}{2}$ tea-spoonful of water, till it looks like candied honey, and apply by spreading upon cloth and wrapping around the finger. If not too long delayed will cure in 6 hours.

A poke root poultice is also said to be a sure remedy.

WATER-PROOF BLACKING AND HARNESS POLISH.—Take two and a half ounces gum shellac and half a pint of alcohol, and set in a warm place until dissolved; then add two and a half ounces Venice turpentine to neutralize the alcohol; add a tablespoonful of lampblack. Apply with a fine sponge. It will give a good polish over oil or grease.

MOSQUITOS.—To get rid of these tormentors, take a few hot coals on a shovel, or a chafing dish, and burn upon them some brown sugar in your bed-rooms and parlors, and you effectually banish or destroy every mosquito for the night.

CHEAP OUTSIDE PAINT.—Take two parts (in bulk) of water lime ground fine, one part (in bulk) of white lead ground in oil. Mix them thoroughly, by adding best boiled linseed oil, enough to prepare it to pass through a paint mill, after which temper with oil till it can be applied with a common paint brush. Make any color to suit. It will last three times as long as lead paint, and cost not one-fourth as much. IT IS SUPERIOR.

CURE FOR A COUGH.—A strong decoction of the leaves of the pine, sweetened with loaf sugar. Take a wine-glass warm on going to bed, and half an hour before eating, three times a day. The above is sold as a cough syrup, and is doing wonderful cures, and it is sold at a great profit to the manufacturers.

How to Judge a Horse.

A correspondent, contrary to old maxims, undertakes to judge the character of a horse by outward appearances, and offers the following suggestions, the result of his close observation and long experience:

If the color be light sorrell, or chestnut, his feet, legs and face white, these are marks of kindness. If he is broad and full between the eyes, he may be depended on as a horse of good sense, and capable of being trained to anything.

As respects such horses, the more kindly you treat them the better you will be treated in return. Nor will a horse of this description stand a whip, if well fed.

If you want a safe horse, avoid one that is dish-faced. He may be so far gentle as not to scare; but he will have too much go-ahead in him to be safe with everybody.

If you want a fool, but a horse of great bottom, get a deep bay, with not a white hair about him. If his face is a little dish-ed, so much the worse. Let no man ride such a horse that is not an adept in riding—they are always tricky and unsafe.

If you want one that will never give out, never buy a large, overgrown one.

A black horse cannot stand heat, nor a white one cold.

If you want a gentle horse, get one with more or less white about the head; the more the better. Many persons suppose the parti-colored horses belonging to the circuses, shows, &c., are selected for their oddity. But the selections thus made are on account of their great docility and gentleness.

Measurement of Hay in the Mow or Stack.—It is often desirable, where conveniences for weighing are not at hand, to purchase and sell hay by measurement. It is evident that no fixed rule will answer in all cases, as it would require more cubic feet at the top of a mow than at the bottom. The general rule adopted by those who have tested it, is $7\frac{1}{2}$ cubic feet of solid Timothy hay, as taken from mow or bottom of stack. The rule may be varied for upper part of mow or stack according to pressure.

EXPLANATION.—Find the Year and observe the Letter above it; then look for the Month, and in a line with it find the Letter of the Year; above the Letter find the Day; and the figures on the left, in the same line, are the days of the same name in the month.

Leap Years have two letters; the first is used till the end of February, the second during the remainder of the year.

C. E. MYERS'

"HORNELLSVILLE GALLERY,"

No. 151 Main St., Cor. Canasteo St.,

Opposite the Park, is the Place to

GET YOUR PICTURE TAKEN.

It is situated on the "sunny side," with a pleasant, airy parlor, well lighted and overlooking the most cheerful portion of Main and Canasteo Streets, and is reached by one broad, easy flight of stairs.

It presents many worthy objects of interest to visitors, and ladies and gentlemen are cordially invited to visit it frequently whether they want pictures or not.

Its glass room is more skillfully lighted, and it possesses a better class of instruments and more of them than is usually found outside of our largest city galleries.

The Artist is prepared to execute in the best style,

VIGNETTES, CARTES DE VISITE,

THE CHARMING NEW CABINET PICTURE.

LIFE SIZE PHOTOGRAPHS, GEMS, BON-TONS,

AND ALL STYLES OF

Ambrotypes, Ferrotypes,

TIN-TYPES, or any other "TYPES,"

The OPAL or Porcelain Picture, and the NEW PEARL PICTURE, which rivals the Porcelain, at a lower price; single or double PORTRAITS, GROUPS, SCHOOLS, PARADES, PHOTOGRAPHS OF RESIDENCES, exterior or interior, or PICTURES or STEREOGRAPHS of yourself or family, taken at home, and at any distance from the Gallery.

Photographs of MAPS, MODELS, MACHINERY, DRAWINGS, ENGRAVINGS or STATUARY, executed *promptly*.

Old Pictures Restored, Copied or Enlarged.

PICTURE CASES and FRAMES of all styles, shapes and finish; plain or colored PICTURES for ALBUMS or FRAMING; STEREOSCOPES and ALBUMS on hand, or supplied upon application.

If you visit the Gallery, and do not see JUST what you want,

MAMMOTH CASH STORE
OF
J. C. ROBIE & CO.

1826.

1860.

Jobbers and Retailers in Dry Goods, Woolens, Mantillas, Cloaks, Shawls, Laces, Carpets, Boots and Shoes, Wall Paper, Notions, &c., &c. The Cheapest Store in the County. **BATE, N. Y.**

STEUBEN COUNTY.

THIS COUNTY was formed from Ontario, March 18th, 1796, and named in honor of Baron Steuben. The seventh Range of Townships was annexed to Allegany County, March 11th, 1808; the part in the fork of Crooked Lake to Ontario County, February 25th, 1814; a part of Dansville, to Livingston County, February 15th, 1822, and a part to Schuyler County, April 7th, 1854. It lies upon the south border of the State, considerably west of the center, is centrally distant 188 miles from Albany, and contains 1,425 square miles. The surface consists chiefly of ridges and high rolling uplands, which form the northern continuation of the Alleghany Mountains. The water-shed between Lake Ontario and Susquehanna River extends from Allegany County eastward, across the northern part of the County. The deep valley of Crooked Lake breaks through this chain of highlands and extends seventeen miles south-west from the head of the lake, connecting with the Conhocton Valley at Bath, forming a natural pass between the southern valleys and the basin of Lake Ontario. The highlands in the south-western part of the County form a portion of this watershed, being drained by branches of the Canisteo on the east, and of the Genesee River on the west. The highest summits in the County are about 2,500 feet above tide. The elevation of the upland region is nearly uniform, with a slight inclination towards the north. It is intersected by numerous deep valleys, which have evidently been excavated by more powerful currents of water than those which now flow through them. Geologists refer their formation to the drift period. The formation of the steep hillsides which border on these valleys, proves conclusively that a wide, rolling plateau once spread out over this whole region, now so irregular and broken. The principal of these valleys are those of the Conhocton and Canisteo Rivers, extending nearly

north-west and south-east through the County. From these main valleys numerous others diverge at nearly right angles and branch off into numberless deep, crooked ravines, intersecting the plateau in every direction. The hills bordering upon these valleys are usually steep, and from 300 to 500 feet high.

Conhocton River flows south-east through the County, near the center. In high water it was formerly navigable for arks, fourteen miles above Bath. It receives several tributaries from the south-west, the chief of which are Neil's, Bennett's, Campbell's, Stockton, Michigan and Stephens's Creeks; and from the north-east, Twelve Mile, Ten Mile, Five Mile, Mud and Mead's Creeks. Mud Creek is the outlet of Mud Lake, in Schuyler County. When the County was first settled, this stream was navigable, and arks floated from Mud Lake, down the creek and the Conhocton, to the Susquehanna, thence to Baltimore. Since the clearing of the forests, the stream has entirely failed for the purposes of navigation, and in summer it is almost dry. Canisteo River flows through a valley south-west of the Conhocton, and nearly parallel to it. In freshets the water rises from six to eight feet, and the stream is then navigable for boats and arks about forty miles. Its principal branches are the Canacadea, Crosby, Purdy, Bennett's, Col. Bill's and Tuscarora Creeks, all flowing into it from the south-west. Tioga River rises in Pennsylvania, flows north through a deep mountain valley, and unites with the Canisteo at Erwin, and with the Conhocton at Painted Post; from this place the combined stream takes the name of Chemung River. These streams were formerly much larger than now. The early settlers describe them as being "full from hill to hill" in time of high water. Canascraga Creek, flowing north, drains the north-west corner of the County; and several small streams, rising in the south-west corner, form branches of the Genesee River. Crooked Lake lies in a deep valley along the north-east border of the County, while the surrounding hills are from five hundred to eight hundred feet high. Little Lake lies in a shallow valley along the east border of the town of Wayne, and discharges its waters south into Mud Lake, and through Mud Creek into the Conhocton River. Loon Lake, in Wayland, lies in a valley that is the continuation of the valley of Hemlock Lake, in Livingston County. Mud Lake lies in the same valley, and its outlet, Mud Creek, flows into the Conhocton.

The rocks of this County are generally of a shaly nature, and not fit for use. The shales and sandstones of the Portage group crop out in all the deep ravines in the northern part of the County and on the west bank of Crooked Lake. At Hammondsport, in the ravine above Mallory's Mill, about three hundred feet of rock, belonging to the Portage group, lie exposed to view. It consists of shale and thin layers of sandstone, in the lower part, and at a

higher point, layers of sandstone from four to ten inches thick. The edges of all the layers exposed are covered with crystals of selenite or crystallized gypsum. An excavation for coal was once made about a mile from the mouth of the ravine, but it was finally abandoned. About a mile north of Bath is a stratum, three feet thick, of tough argillo-calcareous rock, forming an excellent building stone. In Woodhull, Canisteo and Jasper, the sandstone ledges furnish an excellent quality of grindstones. At Arkport, in Dansville, and Troupsburgh, are marl beds, from which lime is manufactured. The rocks of the Chemung group continue along the valley of the Conhocton to Painted Post, and through the Tioga valley to the State line. The valley of the Canisteo is embraced in the same group. Near the State line the highest hills are capped with a coarse silicious conglomerate, which forms the floor of the coal-measures. There is a salt spring at Lagrange, from which salt was manufactured by the Indians, and since by the early settlers; sulphur springs are also found in Campbell, Jasper and Urbana. The tooth of a Mastodon was dug from a bed of blue clay, some years ago, on the road between Bath and Wheeler; it was eight or ten inches in length. The soil is composed chiefly of detritus of the adjacent rocks, and is better adapted to grazing than to tillage. Upon the intervalles along the large streams, the soil is a rich alluvium, and there is no better land in the State than the extensive flats along the banks of the Chemung.

Agriculture constitutes the chief occupation of the people. Grain is largely produced on the alluvial lands, and stock is raised extensively on the uplands. The principal branches of agriculture pursued in this County are stock-raising, dairying and wool growing. Lumbering is carried on to some extent, but is gradually diminishing. The manufacturing is chiefly confined to lumber, articles of wood, and the heavier and coarser products necessary to an agricultural region.

The County is divided into the Northern and Southern Jury Districts, the County buildings being situated at Bath and Corning. When the County was organized, in 1796, the County buildings were located at Bath. A wood Court House, one and a half stories high, with two wings, was erected the same year. It was removed in 1828, and the present brick Court House erected. About the time of the erection of the first Court House, a jail was built of hewn logs, which was superseded by the erection of the present jail in 1845. By an act of the Legislature passed July 19th, 1853, the County was divided into two Jury Districts, and the County buildings for the Southern District were located at Corning. The first County officers were William Kersey, *First Judge*; Abraham Bradley and Eleazer Lindley, *Associate Judges*; George D. Cooper, *County Clerk*; William Dunn, *Sheriff*; and

Stephen Ross, *Surrogate*. The Court House at Bath is a commodious brick building, erected in 1828. The Jail is built of wood, and closely surrounded by other buildings; the cells are in the basement. The County Clerk's Office is permanently located at Bath. The Court House at Corning is a fine brick edifice, erected in 1853-54, at a cost of \$14,000. The Jail at Corning was erected at the same time. The Courts are held alternately at Bath and Corning.

The County Poor House is located upon a large farm, about two miles north-east of Bath village. From the report of the Superintendents of the Poor for 1867, we find that the total expense for the support of the poor for the year, was \$16,646.78. The paupers are well cared for, and everything is done to promote their health and comfort. There is a flourishing school in connection with the Poor House, in which a large number of pupils are taught, and are making commendable progress. The farm is in good condition, some valuable improvements in the way of fencing having been recently made. The number of paupers at the Poor House, from the several towns, is as follows: Avoca 1, Bath 4, Bradford 1, Cameron 5, Campbell 4, Caton 1, Cohocton 8, Canisteo 2, Corning 12, Greenwood 1, Howard 7, Hartsville 1, Hornellsville 1, Jasper 1, Lindley 1, Prattsburgh 3, Rathbone 3, Tuscarora 3, Thurston 3, Urbana 5, Woodhull 1, Wheeler 1, Wayne 1.

The New York and Erie Railroad enters the County from Chemung, and extends along the valleys of the Chemung and Canisteo Rivers to Hornellsville; thence west, along the valley of the Canacadea, to the County line. It passes through Corning, Erwin, Addison, Rathbone, Cameron, Canisteo and Hornellsville. The Buffalo, New York and Erie Railroad extends north-west from Corning, up the Conhocton valley, through Erwin, Campbell, Bath, Avoca, Cohocton and Wayland, to the north border of the County. This road intersects the Genesee Valley Railroad at Avon; the N. Y. Central at Batavia; the Buffalo and New York City at Attica; and the New York and Erie at Corning. The Hornellsville Division of the Buffalo, New York and Erie Railroad extends north-west, up the valley of the Canisteo, from Hornellsville, passing through that town and the south-west corner of Dansville. The Blossburg and Corning Railroad extends from Corning, through Erwin and Lindley, south, along the valley of the Tioga, to the Blossburg coal region. Crooked Lake is navigated by steam and canal boats, and forms a link in the chain of internal water communication in the State. It is united with the Erie Canal at Montezuma, by the Crooked Lake Canal, Seneca Lake, and the Cayuga and Seneca Canals. The Chemung Canal navigable feeder extends from Corning, east, to Horseheads, in Chemung County. Large

quantities of lumber are floated down the river to Philadelphia and Baltimore. These works of internal improvement afford ample facilities for the transportation of goods and passengers, and bring the farm products of the County into close proximity to eastern markets.

Nine newspapers are now published in the County. The first paper published in Steuben County, and the first in Western New York, was

The Bath Gazette and Genesee Advertiser. It was established by William Kersey and James Eddie, in 1796, and was continued several years.

The Steuben and Allegany Patriot was started at Bath in 1815, by Benjamin Smead, and was continued till 1822, when it was changed to

The Farmers' Advocate and Steuben Advertiser. In 1849 it passed into the hands of William C. Rhoades, and in 1857 into those of P. S. Donahe, by whom it was changed to

THE STEUBEN FARMERS' ADVOCATE. It is now published by A. L. Underhill and T. S. DeWolf.

The Farmers' Gazette was started at Bath, in 1816, by David Rumsey.

The Steuben Messenger was started at Bath, April 17th 1828, by David Rumsey, and was published by him, Samuel M. Eddie, William P. Agnel and Charles Adams, successively, until 1834, when it was changed to

The Constitutional, and its publication was continued, successively, by R. L. Underhill, Whitmore & VanValkenburgh, and Dowe & Richards, and by the last named as

The Steuben Democrat, until 1844. The paper was then suspended, but revived in 1848 by L. J. Beach, and in 1849 it was transferred to George H. Bidewell, by whom the publication was continued until 1852.

The Steuben Whig was published at Bath during the political campaign of 1828, by William M. Swain.

THE STEUBEN COURIER was established at Bath in 1843, by Hull & Whittemore. It is now published by H. H. Hull.

The Temperance Gem was published at Bath in 1854, by Jenny and Caroline Rumsey.

The Addison Record was published in Addison by Isaac D. Booth, from 1840 to 1842, and in 1849 by Dryden & Peck.

The Addison Advocate was published by H. D. Dyer, in 1848-49.

The Voice of the Nation was commenced at Addison in 1852, by R. Denton. In 1855 it passed into the hands of A. L. Underhill, by whom it was published until 1856, when it was removed to Bath, and its name changed to

The Steuben American, and its publication continued until May 1857.

The Canisteo Express was published at Addison in 1850, by T. Messenger.

The Addison Journal was started in 1851, by R. Denton, and was removed to Allegany County in 1852.

The Addison Democrat was started by Charles L. Phelps, in 1853, and was united with the *Voice of the Nation* in 1854.

THE ADDISON ADVERTISER was established in 1858, by E. M. Johnson and Henry Baldwin. It is now published by Johnson & Roberts.

The Corning and Blossburg Advocate was commenced at Corning in 1840, by Charles Adams. In 1841 it passed into the hands of Henry H. Hull, by whom it was merged in the *Steuben Courier*, at Bath, in 1843.

THE CORNING JOURNAL was started by Thomas Messenger, in May 1847. In 1851 it passed into the hands of A. W. McDowell and G. W. Pratt, and in 1852, into the hands of Geo. W. Pratt, its present proprietor.

The Corning Sun was started in 1853, by M. M. Pomeroy, better known as "Brick" Pomeroy, and P. C. VanGelder. In 1854 Rev. Ira Brown became the publisher, and changed its name to

The Elmira Southern Tier Farmer and Corning Sun, and continued it until 1856.

The United States Farmer was published at Corning in the spring of 1856.

THE CORNING DEMOCRAT was established in 1857, by Charles T. Huston and Frank B. Brown. Mr. Brown bought Mr. Huston's interest soon after, and has continued its publication to the present time.

The Painted Post Gazette was started by Mr. Fairchild in 1846, and continued one year.

The Painted Post Herald was published by Hawley & Bennett, from 1848 to 1850.

THE HORNELLSVILLE TRIBUNE was started in November 1851, by Edwin Hough. It was subsequently published by Hough & Son, and is now published by Hough & Beecher.

The National American was started at Hornellsville in 1856, by C. M. Harmon. In November 1858 it was sold to Charles A. Kinney, and its name changed to the

CANISTEO VALLEY TIMES. Its present publishers are Thatcher & Tuttle.

The Saturday News was started at Bath in April 1868, by E. W. Barnes, and continued until July 4th of the same year.

THE PRATTSBURGH ADVERTISER was started in the fall of 1867. It is published by C. B. Hoke.

BATH TRI-WEEKLY CONSERVATIVE was started in August 1868, by Charles E. Clute, its present publisher.

A paper was published for a time at Hammondsport, on Crooked Lake.

Steuben County was all included in the "Phelps and Gorham Purchase." The original grant to the colony of Massachusetts embraced an indefinite extent of territory, from the Atlantic to the Pacific, or "South Sea," as it was called in the "Royal Charter." Subsequent grants to other colonies, quite as indefinite, if not as extensive, caused a conflict of claims between different colonies, which in some instances resulted in great inconvenience to the settlers. The rival claims of New York and Massachusetts to certain lands in the western part of the former State, were amicably adjusted by a compact entered into on the 16th of December 1786. It was agreed that Massachusetts should surrender to New York all claims of sovereignty to lands lying within the boundaries of the latter State; and the State of New York should confirm to the State of Massachusetts the right of pre-emption of the soil from the Indians, of all that part of New York lying west of the meridian passing through the 82 mile-stone on the Pennsylvania line.

On the 21st of November 1788, the State of Massachusetts, for the consideration of three hundred thousand pounds in the consolidated securities of that State, (equal to \$100,000,) conveyed to Oliver Phelps and Nathaniel Gorham all its right, title and interest to about 2,600,000 acres of land lying west of the meridian just mentioned. The Indian title to this tract had been purchased by Phelps and Gorham in July 1788, and it was immediately surveyed and divided into seven ranges, numbered from east to west, by lines running north and south. The ranges were six miles in width, and divided into townships six miles square, and these were sub-divided into lots. That part of the tract which now constitutes the County of Steuben, was surveyed by Frederick Saxton and Augustus Porter, in the summer of 1789. Judge Porter, in his narrative of this survey, says: "While engaged in it, we made our headquarters at 'Painted Post,' on the Conhocton River, at the house of old Mr. Harris and his son William. These two men, Mr. Goodhue, who lived near by, and Mr. Mead, who lived at the mouth of Mead's Creek, were the only persons then on the territory we were surveying."

November 18th, 1790, Phelps and Gorham sold to Robert Morris, of Philadelphia, about one million and a quarter acres; and April 11th, 1792, Robert Morris conveyed to Charles Williamson about one million two hundred thousand acres of the same tract, which has since been known as the "Pulteney Estate." Mr. W. held this estate in secret trust for Sir William Pulteney, an English baronet, and others, till March 1801, when he conveyed it

formally to Sir William. The policy of the proprietors and trustees was to sell the lands as rapidly as possible to actual settlers, and in a few years a large part of the most valuable lands were disposed of.

The first settlements in this County were made in 1787-90, by immigrants from Pennsylvania. Settlements were made in the south-eastern part, on the Chemung, and also on the upper Canisteo, about the same time. William Harris, an Indian trader, is supposed to be the first white man who settled in the County. His cabin was at Painted Post in 1787, but at what time it was built is not known with certainty. At that time a pack-horse or a canoe was sufficient to transport the merchandise for the citizens of the County for a whole year. Frederick Calkins, from Vermont, was the first farmer in the County. He settled near the head of the "Chimney Narrows," in 1788. Township number two of the second range was purchased of Phelps and Gorham, in 1790, for eight cents an acre.

In 1793, Captain Charles Williamson, with a large number of Scotch and German immigrants, commenced a settlement at Bath, on the Conhocton. From an exploration of the country it was supposed that the products of Western New York would find their way to the sea through the Susquehanna and its tributaries. Here Captain Williamson decided to build a city which should rival the cities of the old world and have no equal in the new. Every inducement was offered to settlers in this region to occupy lands under his patronage. Money was freely expended in improvements, and lands offered for sale at a low rate and on long credit.

For a time settlements rapidly increased in number and size. Forests were cleared, roads were made, bridges and mills were built, rivers were cleared of their obstructions to navigation, and houses were erected as if by the hand of the magician. Arks and rafts laden with lumber and other products of the country, glided down the Conhocton and the Canisteo to the Susquehanna, thence to Baltimore and the sea. Land speculation was carried to excess, as is often the case in new countries. It is said that any respectable looking gentleman could purchase on a credit of six years, any amount of land, from a mile square to a township. The title that Captain Williamson gave was a bond for a deed at the end of the term, provided payment was made in full; otherwise the contract became null and void. These bonds were transferable, and the speculators sold to each other, and gave their bonds for large amounts, which ruined multitudes who engaged in such enterprises. Many honest, industrious and enterprising men were ruined in the same way.

For the purpose of improving the navigation of the streams, Captain Williamson ordered the Conhocton and Mud Creek to be

explored by a competent committee, and a report to be made, estimating the probable expense of making them navigable for arks and rafts. The committee rendered a favorable report, and a number of men were appointed to remove obstructions and open a passage to Painted Post. This was done, though the passage was still considered dangerous. After removing obstructions, the next thing was to test the enterprise by a practical navigation of the stream. To do this, Mr. George McClure, afterwards a prominent citizen of the County, built an ark seventy-five feet long and sixteen feet wide, loaded it with staves and started for Baltimore. After many difficulties and delays, the ark reached Painted Post, having been six days in making the passage. At this time the water of the Chemung was too low to be navigable, and craft and crew were compelled to wait several days for a rise in the water. At length a new start was made, and the ark ran two hundred miles in four days. At Mohontongo, twenty miles from Harrisburgh, it ran upon a bar of rocks in the middle of the river, which at this point was one mile wide. After lying here for twenty-four hours, with no means of getting on shore, two gentlemen came on board and informed the navigators that it would be impossible to get the ark off the rocks without a rise in the water. As there was no telling when such an event would transpire, Captain McClure decided to sell craft and cargo as they were for six hundred dollars and a horse worth two hundred. He lost nothing by this expedition, but would have made five hundred dollars had he gone to Baltimore with his ark and cargo. This was sufficient to establish the fact that Conhocton River was navigable, and that the produce of the County could be transported to Baltimore at a trifling expense. Emigrants from all parts came flocking to this promised land. Some came up the rivers in canoes and barges, driving their cattle along the bank, while others made long and tedious journeys through the forests with ox teams. Many Virginians left their worn-out plantations beyond the Potomac, and came up the Susquehanna, and through the forests, the old people in chaises, kept in their upright position by their faithful negroes, while the young came on horseback.

Captain Williamson lived in good style for a backwoods settlement, entertaining his visitors from different parts of the country with the suavity and hospitality for which he was noted, and using every means to increase his rapidly growing settlement. To supply the wants of the settlers, and the adventurers who came hither, flour was brought from Northumberland and pork from Philadelphia. Sometimes it was brought on pack-horses from Tioga Point, and subsequently from the Friends' Settlement at the outlet of Crooked Lake.

In 1794, the threatened invasion by the Governor of Canada created some excitement, and several block-houses were built for defense, and a requisition was made upon the Governor of the State for one thousand stands of arms and several cannon, but the alarm subsided and no blood was shed.

In order to make the wilderness attractive, Captain Williamson had caused one hundred acres to be cleared, and a race-course to be laid out. This novel entertainment was duly heralded by handbills sent far and near, announcing to all "North America and the adjacent islands" that grand races would take place at Bath. The resources of the whole region were laid under contribution to provide entertainment for all who might attend. On the day appointed, there were assembled from New York, Philadelphia, Baltimore, and the adjacent country, sporting men of all classes, as they now gather at Saratoga to witness the annual races. The contest was between "Virginia Nell," entered by Captain Williamson, and "Silk Stocking," entered by High Sheriff Dunn. Money was plenty and betting was lively; even the ladies of the owners of the rival horses partook of the general excitement, staking liberally and depositing the stakes with a third lady. "Silk Stocking" was the winner, but the time made is not known. The great race-course was seldom used after the first great festival, except as a drive for those citizens who were so fortunate as to own chaises. A theater was also erected, and a troupe of actors from Philadelphia, kept at the expense of Williamson, gave dramatic exhibitions. An advertisement in the *Bath Gazette*, of 1799, indicates that the theater was in full blast. The plays announced are the "Mock Doctor, or Dumb Lady Cured;" and "A peep into the Seraglio." Admission, "Pit, six shillings; Gallery, three shillings."

The Duke of Liancourt visited Bath in 1795, and gives the following account: "The habitation of the Captain consists of several small houses, formed of the trunks of trees and joiner's work, which at present forms a very irregular whole, but which he intends soon to improve. His way of living is simple, neat and good. Every day we had a joint of fresh meat, vegetables and wine. We met with no circumstances of pomp or luxury, but found good ease, humor and plenty."

The expenditures during Col. Williamson's management were enormous, and the returns very small. The expectations of the English baronet and his associates were not realized. In 1801 Col. Williamson conveyed to Sir William Pulteney the property he had held in trust, and resigned his stewardship. Robert Troup, Esq., of New York, was appointed his successor. When Williamson departed, the County contained about two thousand inhabitants. The work of subduing the forests had been begun with

vigor and hope. A lumber trade had been opened with the ports of the lower Susquehanna and the Chesapeake, and Bath was becoming a market for the grain of the surrounding country. The change in the administration of affairs was sensibly felt, and the stir and bustle of Bath, as well as of the County generally, was greatly diminished. Williamson had been the life of the land; "times were dead enough when he left." "No more the Hudson, the Potomac and the Delaware were startled by proclamations of races in the wilderness; no more did rumors of bull fights and the uproar of horns disturb the goodly; no more did gallant retinues of riders gallop through the forest, while servants followed with luncheons and baskets of wine. Newspaper paragraphs no longer told the citizens of the East of the great things done in Steuben, and pamphlets no longer enlightened London and Edinburgh concerning the capabilities of the Conhocton River."

The County from this time began to work its own way, and hew its own road to prosperity and independence. The settlers generally were poor men, and struggled against difficulties and discouragements, at which weaker hearts would have fainted. Railroads now intersect the County, and canal and lake navigation open avenues to the markets of the world. The population of the County has increased during every decade, until it ranks among the first in the State. The population in 1790, was 168; in 1800, 1,788; in 1865, it was 66,192.

Steuben County constituted a part of the domain of the Seneca Indians; but this part of their dominion was only used as a hunting ground. Hundreds of them came in the winter from the Genesee and the Niagara, built their lodges and killed deer for their summer stock of dried venison, and other animals for their peltry. Sometimes a solitary old savage made his wigwam and hunted and fished alone. Sometimes two would unite in the same sport, and again a score or more of men, women and children, would unite around the same camp fire, eat, drink and smoke, in the most free and easy manner. On great occasions, the Indians arrayed themselves in flaming blankets, adorned with plumes and medals, and girt with curious belts from which hung the tomahawk and glittering scalping knife. The traffic in ardent spirits here, as elsewhere, proved destructive to the unfortunate red men. A large portion of their game was bartered for "firewater." A favorite place for their carousals at Bath was in the bushes at the edge of the village. Here they would lie, howling, screaming and singing all night, to the great annoyance of the quiet villagers. The river abounded in fish, and half a dozen Indians wading up the stream and pushing their canoe before them, would spear their boat half full of fish in a very short time, and sell them for a mere trifle.

Game was very abundant at the time of the settlement. It is said two young men from the vicinity of Northumberland, came up the river in a canoe, in 1790 or 1791, and built a lodge at the mouth of Smith's Creek, on the Conhocton, and hunted in the neighborhood for two months. The product of their labor was more than two hundred deer, several elk, three panthers, besides wolves, foxes, martins, and a few beaver. Two canoes were loaded and taken to Northumberland, and their cargoes disposed of for more than three hundred dollars.

Rattlesnakes abounded in the County, and the vicinity of Bath was especially productive in these reptiles. From all accounts, the Pine Plains may challenge competition with any field of dragons the country has ever produced. When Patterson, the hunter, first visited this region, he was startled by their number and size. Every size from the little "fiery serpent with ne'er a rattle in his tail," to the veteran with sharp, shrill sounding rattles, numbering more than half a score, were gliding across his path or dragging their slimy folds over the logs, and from bush to bush, in a manner frightful to behold. Unaccustomed to these reptiles, he took to the river and waded several miles, until he passed beyond this habitation of dragons.

The military statistics are not sufficiently full and accurate to enable us to determine with certainty the full amount of service rendered by the citizens of Steuben, in crushing out the Rebellion that for four years was carried on against our Government with an energy worthy of a better cause. The State Census reports the number of enlistments in the County to be 3,357, and the number of deaths in the military service, or from injuries received while in the service, 752. Only three counties in the State report a greater number of deaths; showing that while the strong and brave volunteered cheerfully, they did not shun the post of danger while in the service; but where the battle waxed hottest, there were the soldiers from Steuben County found, battling for freedom and their country. Long may the survivors of the war live to enjoy the blessings which they fought to perpetuate, and may the memory of those who gave their lives for their country be embalmed in the hearts of all future generations.

GAZETTEER OF TOWNS.

ADDISON was formed as "Middletown," in March, 1796. Its name was changed April 6, 1808. A part of Troupsburgh was taken off in 1808; Cameron in 1822; a part of Woodhull in 1828; a part of Rathbone in 1856, and Tuscarora in 1859. It is an interior town, situated south-east of the center of the County. The surface is a hilly upland, broken by the valley of the Canisteo and its branches. The principal valley is about one and a half miles wide and is bordered by steep hillsides from 300 to 400 feet high. The principal streams are Canisteo River, Tuscarora, Elks Lick, and Goodhue Creeks. Goodhue Lake lies in the north-western corner of the town and covers an area of 500 acres. The soil is chiefly a clay loam, with strips of gravel and alluvium upon the streams.

Addison, (p. v.) situated on the Canisteo River, in the south-east part of the town, contains three churches, a bank, and several manufacturing establishments. Among the last may be mentioned the sash and blind factories of A. G. Crane and of C. W. Gillett, a hoop skirt factory, a tannery, a manufactory of steam engines, boilers, planing mills and circular saw mills.

The first settlement was made by Samuel Rice, in 1791. Reuben and Lemuel Searles, John, Isaac, and James Martin, Jonathan Tracy, William Benham, Martin Young and Isaac Morey, were also among the first settlers.

The first tavern was kept by Reuben Searles, on the "Lockerby Stand." George Goodhue built the first sawmill, in 1793, and William Wombaugh built another in 1805, and a gristmill in 1806. The first store was kept by Samuel Smith. The first birth was that of Stephen Rice, and the first marriage that of Brown Gillespie and Miss Gilbert. The first death was that of James Martin. William Wombaugh, William B. Jones, John and Stephen Towsley, and Rev. Tarathmel Powers, were early settlers.

The population of the town in 1865 was 1,819, and its area is 17,000 acres.

There are five school districts, employing nine teachers. The whole number of pupils during the last year was 633; the average attendance was 112, and the amount expended for school purposes, \$1,365.37.

AVOCA was formed from Bath, Cohocton, Howard and Wheeler, April 12, 1843. It was probably named from Tom Moore's "Sweet Vale of Avoca." By early settlers it was called *Buchanan*, or the *Eight Mile Tree*. It is an interior town, lying north-west of the center of the County. The surface is chiefly a broken upland, divided into two ridges by the valley of the Conhocton. The declivities of the hills are steep, and their summits are about 400 feet above the river. The town is well watered by the Conhocton River, flowing through it in a south-easterly direction, near the center, and its tributaries, Twelve Mile and Ten Mile Creeks, from the north, and Bennett's and Neil's Creeks, from the south-west. The valley of the river is about one and one fourth miles wide. The soil is a clayey and gravelly loam.

Avoca, (p. v.) situated in the valley of the Conhocton, is a station on the Buffalo, New York and Erie R. R. It contains two churches, an iron foundry, a flouring mill, several mechanic shops, and about 600 inhabitants.

Wallace (p. o.) is a station on the Buffalo, New York and Erie R. R.

Neil's Creek is a post office in the north-west part of the town.

The first settlement was made in 1790, by Michael Buchanan. He was established at this point by the agent of the Pulteney Estate, and kept "accommodations for travelers." Among the other early settlers we find the names of James Moore, Joel Collier, Asa Philips, James McWhorter, Finley McClure, Daniel McKenzie, Abram Tower, Jonathan Tilton, James Babcock, John Donahue, Richard and John Van Buskirk, Eleazur Tucker, Henry and Allen Smith, James Davis, Samuel W. Burnham and a Mr. Moody.

Michael Buchanan, 2d, was born in 1809, and Michael Buchanan died in 1811. James McWhorter and Widow Buchanan were married in 1812. Eleazur Tucker built the first sawmill, and Jonathan Tilton the first gristmill, in 1825. Joel Collier kept the first inn, in 1808, and Alonzo Simmons the first store in 1830. The first church (M. E.) was organized in 1827, at East Hill.

A hunter living in this town was annoyed by the proximity of the Indians to certain hunting grounds, and wished to dislodge them. Taking advantage of their great repugnance to labor, he cut a great many branches from the trees in the vicinity of their camp, bored holes in them, and after inserting a quantity of powder,

left them for the indolent redskins to gather and burn at their lodges. They were delighted at their good fortune in finding such a quantity of fire-wood prepared for them by some good spirit, they knew not whom. When gathered around the camp fire, an explosion started them, then another and another, hurling coals and brands in the faces of the unsuspecting savages, lifting the pot from the fire and hurling its contents into the basket of a sleeping papoose. Alarmed at this unaccountable phenomenon, and thinking the wood bewitched, they immediately abandoned the neighborhood, leaving the wily hunter in the full enjoyment of his forest rights.

The population of the town in 1865 was 1,853, and its area 22,000 acres.

There are in the town eleven school districts, employing twenty-four teachers. The whole number of pupils is 538, and the average attendance 232. The whole amount expended for school purposes in 1867 was \$3,718.14.

BATH was formed March 18, 1796, and named in honor of Lady Bath, the only child and heiress of Sir William Pulteney, of London. Pulteney was taken off in 1808; a part of Howard and Cohocton in 1812; a part of Wheeler in 1820; Urbana in 1822; a part of Avoca in 1843, and a part of Cohocton in 1852. A part of Urbana was annexed April 26, 1839. Savona was set off in 1859, and re-annexed in 1862. It lies a little north-east of the center of the County. Its surface is broken and hilly. The Conhocton valley extends south-east through the center, dividing the town into two nearly equal parts. The south half is a hilly upland, and the north half consists of a series of wide valleys, broken by several steep and isolated hills. The streams are Conhocton River and its tributaries, Five Mile and Mud Creeks from the north; and Campbell's and Stockton's Creeks from the south. The Crooked Lake valley extends north-west, and opens into the Conhocton valley at the village of Bath, 340 feet above the lake. The soil is chiefly a gravelly and clayey loam, with a deep alluvium in the valleys.

Bath, (p. v.) incorporated April 12, 1816, is situated upon the north bank of the Conhocton. It is a half-shire of the County. It commands the trade of a rich agricultural district, and has a manufacturing business of some importance. Besides the county buildings, it contains six churches, two banks, two newspaper offices, two carriage factories, and a union school. The Davenport Orphan Asylum, a fine structure, erected through the liberality of the late Col. Ira Davenport, is an object of admiration, and a monument to the benevolence and generosity of its founder. About forty female orphan children are enjoying in the Institution all the

comforts of a Christian home. The population of the village in 1865 was 2,383.

Kanona, (p. v.) situated north-west of Bath, is a station on the Buffalo, New York and Erie R. R., and contains two churches and about forty or fifty houses.

Savona, (p. v.) south-east of Bath, on the same railroad, contains two churches, a flouring mill and planing mill, and about 400 inhabitants.

Sonora (p. v.) contains one church and twenty or thirty houses.

The first settlement was made at Bath village in 1793, by Charles Williamson, land agent for the Pulteney Estate, with fifteen families, mostly Scotch and Germans. Among the first settlers were Dugald and Charles Cameron, two excellent specimens of Scotch character, both being distinguished for their intelligence, integrity, and other amiable qualities. Charles Cameron was the first to open a store in Bath, and was also the first postmaster, by appointment of Captain Williamson, who paid all expenses of transporting the mail once a week from Northumberland. Dugald Cameron was a clerk in the land office for some time, and was afterwards elected to the Legislature of the State. Andrew Smith, another Scotchman, had charge of the farming operations of Captain Williamson, having from thirty to fifty men in his employ. George McClure, a native of Ireland, but of Scottish descent, had charge of the building department. Mr. McClure and "Muckle Andrew," as Smith was called, were great cronies, both being bachelors. They were accustomed to meet at each other's apartments on Saturday evenings, to converse about the business of the week, drink, sing, and tell stories. Hector McKenzie was another Scotchman. Robert Campbell and Daniel McKenzie arrived about the same time. Henry and William McElwee, Frank Scott, Charles McClure, Gustavus and Brown Gillespie, and John Metler, with large families of children, were also among the first settlers. William Dunn kept a tavern, and was appointed High Sheriff after the organization of the County.

Mr. Henry McElwee, a young man from the north of Ireland, came here on New Year's Day, 1794, and gives the following account: "I found a few shanties standing in the woods. Williamson had his house where Will Woods has since lived, and the Metcalfs kept a log tavern above the Presbyterian church. I went to the tavern and asked for supper and lodging. They said they could give me neither, for their house was full. I could get nothing to eat. An old Dutchman was sitting there, and he said to me: 'Young man, if you will go with me, you shall have some mush and milk for your supper, and a deerskin to lie on, with your feet to the fire, and another to cover yourself with.'" This offer was thankfully accepted. He accompanied the Dutchman to a little

log house which had no floor, made a supper of mush and milk, and slept soundly with his feet to the fire. The trees had been cut away sufficiently to admit of the erection of cabins and to open a road. The first clearing was made in the spring of 1794, being "Pulteney Square," and four acres behind the agent's house for a garden, for the cultivation of which he afterwards imported a gardener from England. The trees were cut close to the ground. A single pine was left standing in front of the agency house, trimmed up closely, only leaving a tuft upon the top. It stood for several years, but was finally blown down in a storm.

The first saw and grist mills were erected by Capt. Williamson in 1793. Charles Williamson Dunn, born in 1795, was the first male child born in the town. The first tavern was kept by John Metcalf. It was built of pine logs, in two apartments, and one story high.

Mr. McClure first came here on horseback, through the forests, swimming creeks, and camping out or lodging in the cabin of some semi-barbarian. He returned to Northumberland, shipped his tools to Tioga Point, hired a few carpenters, and proceeded on foot to Bath, where they arrived in five days. To give Mr. McClure's own language: "One more trip was necessary before we could commence business, as our baggage would be landed at Tioga Point. There were no roads at that time through the narrows, on the Chemung, for wagons to pass with safety; therefore, eight of us started on foot for the Point. When we came within four miles of Newtown, we discovered a number of canoes owned by some Dutch settlers. I purchased four of them. One of them was a very large one which I purchased of a funny old Dutchman, who said his canoe 'wash de granny from de whole river up.'" They laid in provisions for the voyage, and a "full supply of the joyful." Their trip of twenty-four miles was made in four hours. Having shipped their goods, they commenced the return voyage against a strong current. Many times they were obliged to land and tow their canoes up the rapids by means of a long rope. In the Conhocton they were obliged to cut through piles of driftwood, making their progress extremely slow, and their labor excessively hard. The trip from the Point to Bath, fifty-six miles, was made in nine days. Previous to this time Captain Williamson had erected two sawmills on the Conhocton, near Bath, both of which were in full operation. Mr. McClure took charge of the building operations, and was erecting houses as fast as thirty or forty men with him could do it. Captain Williamson received visitors and business men from abroad, and entertained them sumptuously. At one time, expecting more company than his limited apartments would accommodate, he ordered a building, forty feet by sixteen, to be erected with all possible dispatch. It was completed in forty-

eight hours, and Mr. McClure received four hundred dollars for the job.

In 1796, when the County of Steuben was organized, Bath was made the County seat. The population increased more rapidly than the resources to supply their wants, and, consequently, the inhabitants were often in great straits. Pleasant Valley and Canisteo, as well as the more distant settlements, contributed to their support. Wheat was worth five dollars a bushel, and beef a shilling a pound. An old farmer paid two dollars and a quarter for a hog's head, "and it was half hair at that." During Court week the larders of Bath were speedily exhausted, and the more prudent of the jurymen provided for such an emergency, by taking with them a hunk of pork and a loaf of bread. The horse-racing, the theatre, and other amusements of this town, gave it an unenviable notoriety among the more sober and discreet inhabitants.

Mr. George McClure, whose name has already been mentioned, became a very active business man, and engaged in several important enterprises in connection with this and adjoining towns. In 1800 he opened a store in Dansville, and, during the winter, took in 4,000 bushels of wheat, and 200 barrels of pork, which he shipped to Baltimore on arks, the first that descended the Canisteo.* This enterprise proving a success, he purchased the "Cold Spring Mill" site, and erected a flouring mill, sawmill, fulling mill, and carding machine. The flouring mill, with two runs of stones, was completed in three months. He then sent out hand-bills through the surrounding country, offering a liberal price for wheat, delivered at Penn Yan, Danville, Bath, Pittstown, or at the mill, and during the winter took in 20,000 bushels, two-thirds of which he floured and packed at his mills. In the spring he shipped the flour to Baltimore, and the wheat to Columbia, on arks built during the winter, eight having been built at Bath, and four on the Canisteo. The enterprise was a success, and the net profits were sufficient to pay for all his improvements and expenditures on the Cold Spring property, though the site included one thousand acres of land. The next enterprise was the navigation of Crooked Lake. For this purpose he built a schooner of about thirty tons, to carry wheat from Penn Yan to the head of the lake. The schooner "Sally" was advertised as a regular trader, "The embargo to the contrary notwithstanding." For this mark of disrespect to the Administration, he was charged with a want of patriotism, and one portly gentleman, "whose corporation was much larger than his intellect," wrote him a very abusive letter. To this he replied, and concluded by saying that if Jefferson would not immediately raise the embargo,

* These *arks* were large flat boats, built of plank, and capable of transporting a large cargo down the stream. They were then sold and broken up for their lumber, being injured but very little. As they were not designed to be brought up the stream, a few men could navigate them, and transportation was very cheap.

he would dig a canal from Crooked Lake to the Conhocton River, and the next heard from the Sally would be that she had put into Passamaquoddy Bay, or in some other northern harbor, in distress. He continued his milling and also engaged in the Indian trade, in which for several years he was quite successful. In 1814 he sold out the Cold Spring Mills to Henry A. Townsend, and erected others at Bath. In 1816 he went to Baltimore with 1,000,000 feet of pine lumber and 100,000 feet of curled maple and cherry. He shipped his maple and cherry, and 500 barrels of flour, to Boston, and purchased a machine for spinning wool by water power. With this he returned and engaged in woolen manufacture, and did well until the tariff was reduced, when he was obliged to close up.

Early in January 1776, Col. Williamson procured a second-hand newspaper office, and William Kersey and James Eddie, soon after issued "The Bath Gazette and Genesee Advertiser." This was the first paper published in Western New York. Afterwards Mr. Kersey, who, as appears by his letter, was a Quaker, wrote to Col. Williamson, at Albany, for some new type, saying that the type brought from Pennsylvania, was "old and worn." "We, on considering the case, conclude it is best to have a sufficient quantity of new type to complete the office, so that we may do business in good fashion; therefore request that, in addition to the order by Capt. Coudry, thou may be pleased to send us as soon as may be, 200 weight of small pica or bourgeois. We have some encouragement to pursue the business, but many of our patrons complain of the badness of the print, and that not without sufficient cause." Authorities are somewhat conflicting as to the success of the enterprise in Bath. The State Gazetteer says that the paper, "in six months from its first issue, had reached a circulation of 1000 copies." It was published for several years, but the time of its departure is not known. In 1798, Col. Williamson said respecting the papers; "The printer of the Ontario Gazette disperses weekly not less than one thousand papers, and the printer of the Bath Gazette from four to five hundred."

Hon. Wm. H. Seward, in a speech to the members of the Legislature of the State of New York, made at the Astor House, March 22, 1851, refers to the great expectations of Bath, in the following language:

"Gentlemen: It seems to me that we can improve this festival occasion by considering how intimate is the relation between the City and State, how essential each is to the other. There is a town in the interior of the State, far away, in what was lately known as the secluded, sequestered part of it, Bath by name. Many of the representatives of the rural districts know it well, the members from Steuben can speak for it. Of this town I wish to speak. It is a beautiful, but quiet one, situated in the delightful valley, and

on the banks of the Conhocton, a tributary of the Susquehanna.— But those who know it well have remarked that it has a broad and magnificent plan, imperfectly filled out. There are houses on corners designating streets and avenues without inhabitants. In short it was laid out for a great city, but has long since renounced all ambitious pretensions. You do not know how this has happened. Well, if on your return to Albany, you will call on my excellent friend (Mr. Street,) the State Librarian, he will give you a small duodecimo volume, published in the year 1800, containing an account of a journey performed by an English gentleman, in the short space of six weeks, from the city of New York, all the way to Niagara Falls. That traveler visited Bath, then in the day-spring of its growth, and he recorded of it that it was destined to become the greatest commercial metropolis of the State of New York. The Hudson was only a short arm of the sea. It did not penetrate the interior far enough to take a hold of the trade of the country. Bath was to receive all of it that could be diverted from the channel of the St. Lawrence, and the market of Quebec, and send it down through the Conhocton and the Susquehanna, to Chesapeake Bay. Had that calculation been realized, Bath might have been a city like Albany, and New York would have been a city over which the President could have had but little ambition to preside.”

The population of Bath in 1865 was 6,247; its area, according to the last Supervisors' Report, is 53,000 acres.

The number of school districts is twenty-six, employing fifty-eight teachers. The whole number of pupils 1,573, and the average attendance 731. The amount expended for school purposes in 1867, was \$16,869.23.

BRADFORD, named from General Bradford, was formed from "Jersey," (now Orange, Schuyler Co.,) April 20, 1836. A part was annexed to Orange, April 17, 1854. It lies near the center of the east border of the County. Its surface is a hilly upland, broken by the valley of Mud Creek. Mud Lake is situated near the east border, in Schuyler County; its surface is 1,100 feet above tide, and the summits of the adjacent hills are 600 feet above the lake. The soil generally is a gravelly and clayey loam, better adapted to pasturage than to tillage.

Bradford, (p. v.) on the outlet of Mud Lake, in the north-east part of the town, contains a church, a grist mill, and about 300 inhabitants.

South Bradford, (p. v.) contains two churches and about 100 inhabitants.

The first settlement was made in 1793 by Frederick Bartles and John Harvey, from New Jersey, who located on the outlet of Mud Lake, at a place known in early days as "Bartles' Hollow."

Under the patronage of Captain Williamson, he erected a flouring and saw mill in 1795. While the hands were employed in erecting this mill, Benjamin Patterson was hired to supply them with wild meat, and was paid two dollars a day and the skins of the slain animals. In three months he killed nearly one hundred deer and several bears, and his companion named Brocher, about as many more. Bartles was an intelligent, generous, and hospitable man. His mill-pond covered about a thousand acres, and was filled with fish of various kinds, affording rare sport for the Bath gentlemen during the fishing season. Parties of pleasure were entertained by Mr. Bartles in the best style and free of charge. He possessed an inexhaustible fund of pleasant anecdotes, and his dialect being a mixture of Dutch and English, was very amusing. Mud Creek at this time was a navigable stream, and it was thought that the commerce of Mud Lake would require considerable of a town at this point, but the early expectations were not realized. In 1798 Mr. Bartles rafted 100,000 feet of boards from his mills to Baltimore. In 1800 he ran two arks from the same place, of which the following record was made by the County Clerk:

“Steuben County:—This fourth day of April, one thousand eight hundred, started from the mills of Frederick Bartles, on the outlet of Mud Lake, two arks of the following dimensions: One built by Col. Charles Williamson, of Bath, 72 feet long and 15 wide; the other built by Nathan Harvey, 71 feet long and 15 wide, were conducted down the Conhocton, (after coming through Mud Creek without accident,) to Painted Post, for Baltimore. Those arks are the first built in this County, except one built on the Conhocton, at White’s saw mill, five miles below Bath, by a Mr. Patterson, Sweeny and others, from Pennsylvania, 70 feet long and 16 feet wide, which was finished and started about the 20th of March the same year.”

“This minute is entered to show at a future day the first commencement of embarkation in this (as is hoped) useful invention,

By HENRY A. TOWNSEND,

Clerk of Steuben County.”

Mud Creek has ceased to be navigable since the clearing of the forests, and the produce of this region seeks the eastern markets by canals and railroads. Among the early settlers were Henry Switzer, Samuel S. Camp, Abram Rosenburg, Thomas Rolls, Michael Scott, Daniel Bartholomew and Capt. John N. Hight. John Hemiup, John Schrinner, Henry Axtelle, Ezekiel Sackett and one of the *Smith* family, also settled here at an early day.

The first birth was that of a daughter of John Harvey, in 1799, and the first death that of Mrs. Thomas Rolls, in August 1803. Frederick and Charles Bartles opened the first store in 1800, and

the first inn in 1806. The first school was taught by Mr. Smith, in 1810. Rev. E. Sanford was the first preacher in town, and Rev. Mr. Lazelle, (Bap.) who settled in town in 1816, was the first settled minister.

The population of the town in 1865 was 1,163, and its present area is 17,000 acres.

The number of school districts is six, employing fifteen teachers. The whole number of pupils in 1867 was 333, and the average attendance 139. The amount expended for school purposes was \$1,303.84.

CAMERON, named from Dugald Cameron, one of the first settlers of Bath, and afterwards an agent of the Pulteney Estate, was formed from Addison, April 16th, 1822. Thurston was taken off in 1844, and a part of Rathbone in 1856. It lies a little south of the center of the County. Its surface is a high, rolling upland, broken by the deep valley of Canisteo River, which flows south-east through near the center of the town. The soil is a clayey and gravelly loam.

Cameron, (p. v.) on the Canisteo, is a station on the Erie railroad, and contains two churches and about forty houses.

West Cameron (p. v.) contains a church and about twenty houses.

North Cameron is a post office.

The first settlement was made in 1800, by Richard Hadley, Phones Green, Samuel Baker and Ira Pratt. Joseph Butler, John Sauter and John Hollet were early settlers.

The first grist mill was built by Samuel Baker. John Hollet kept the first inn and Andrew G. Erwin the first store.

The population in 1865 was 1,439, and its area 27,000 acres.

There are ten school districts, employing eighteen teachers. The number of pupils is 492, and the average attendance 184. The amount expended for school purposes in 1867 was \$1,947.14.

CAMPBELL, named from the Campbell family, who were early and prominent settlers, was formed from Hornby, April 15th, 1831. It is an interior town, lying south-east of the center of the County. Its surface consists of high, broken ridges, separated by the valleys of the streams. The declivities of the hills are generally steep and their summits from 300 to 500 feet above the valleys. The streams are Conhocton River, which flows south-east through the west part of the town, and its tributaries, Wolf Run, McNutt Run, Mead's Creek, Dry Run and Stephens' and Michigan Creeks. The valley of the river is about one and a half miles wide. The soil is a clayey and gravelly loam upon the high lands and a rich alluvium in the valleys.

Campbelltown, (p. v.) situated on the Conhocton, in the western part of the town, is a station on the Buffalo, New York and Erie Railroad, and contains two churches, a flouring mill, two large tanneries, several saw and shingle mills and about twenty-five houses.

Curtis is a station on the railroad.

The first settlement was commenced in 1806, by Samuel Calkins, Elias Williams, Joseph Wolcott, Rev. Robert Campbell and his son Archibald.

The first birth was that of Bradford Campbell, and the first marriage that of Asa Milliken and Rachel Campbell. The first death was that of Frederick Stewart, in 1806. Campbell and Stephens built the first saw-mill, and Campbell and Knox the first gristmill. Robert Campbell kept the first inn and Frederick Stewart the first store. The first church (Presb.) was organized in 1831. Rev. B. B. Smith was the first settled pastor.

The population of the town in 1865 was 1,794, and its area 22,000 acres.

There are eight school districts, employing sixteen teachers. The whole number of pupils is 614 and the average attendance 194. The amount expended for school purposes in 1867 was \$2,348.01.

CANISTEO was formed in March 1796. A part of Troupsburgh was taken off in 1808, Hornellsville in 1820, and parts of Jasper and Greenwood in 1827. A part was annexed to Troupsburgh in 1818. It is an interior town and lies a little south-west of the center of the County. Its surface is chiefly a hilly upland, broken by the deep valleys of the streams. Canisteo River flows eastward through the north part of the town. Its valley is about one half mile wide, and is bordered by steep hillsides, 400 feet high. From the south the river receives Bennett's and Col. Bill's Creeks, both of which flow through deep valleys, bordered by steep hillsides. The soil is a clayey and gravelly loam.

Canisteo, (p. v.) situated on Bennett's Creek, in the north-west part of the town, is a station on the New York and Erie Railroad, and contains two churches, viz: Presbyterian and Methodist, an academy, two hotels, a large boot and shoe factory, employing about fifty hands, a gristmill, two sawmills, two planing mills, two stone mills, a spoke factory, a tannery, and about 500 inhabitants.

Adrian, (p. v.) on the New York and Erie Railroad, contains a church, a hotel, a sawmill and 25 houses.

Center Canisteo (p. o.) is a hamlet.

Bennett's Creek, *Allen's Station* and *Swale* are post offices.

The first settlement was made in the fall of 1789, by Uriah Stephens, Sen., and Richard Crosby, with portions of their families.

In 1788, Solomon Bennett, Capt. John Jameson, Uriah Stephens and Richard Crosby, from the Wyoming region in Pennsylvania, started on an exploring expedition to Steuben County. They

passed up the Chemung and the Conhocton, but finding no land to suit them, crossed over the hills and discovered the beautiful valley of the Canisteo. This valley, about half a mile wide, was bordered by steep hillsides from 400 to 500 feet high, inclosing a forest of heavy timber for a considerable distance, but terminating in an open flat of several hundred acres, covered with grass "so high that a horse and his rider could pass through almost unperceived." The explorers decided to purchase two townships on the river, which included the open flats. In the summer of 1789, a company was sent to the flats to cut and stack hay for the cattle which were to be driven on in the fall. The first settlers conveyed their provisions, baggage and families, from Newtown, on a "Seven-ton boat," while four sons of Mr. Stephens drove the cattle along the shore. The ascent of the river was no easy task, as frequently they were obliged to cut away the trunks of trees and dams of driftwood to clear a passage for their boat. Sometimes they encountered rapids, where all hands were obliged to go on shore and tow their craft by means of a long rope. Having gained the upper flats, their cattle were turned loose to feast upon the luxuriant grass, while the pioneers proceeded to build a house of logs, twenty-six feet long and twenty-four feet wide. There was only one room below. Four fire-places were excavated in the four corners of the room, and, with plenty of wood, the settlers passed the winter quite comfortably. Two families spent the winter in this log palace, and in the spring two others were admitted, each occupying a corner and arranging their domestic affairs in their own way, with as much good humor as if their apartments had been separated by brick and mortar. In the spring of 1790, Solomon Bennett, Uriah Stephens, Jr., and Col. John Stephens, with their families, joined the new settlement. They immediately commenced breaking a portion of the open flats. Four yoke of oxen were necessary to force the old fashion plow through the thickly matted roots of this miniature prairie. After sowing their wheat and planting their corn, they constructed an enormous log fence inclosing about four hundred acres of land. From the present site of Bennettsville, down to the next township, about six miles, they laid out twelve lots across the valley and assigned them by lot to the several proprietors. The first house was built on what has since been known as the "Bennett" or "Pumpelly farm." Jedediah Stephens, John Redford and Andrew Bennett also settled here in the spring of 1790. Solomon Bennett was one of the leading spirits of the new settlement, and built the first gristmill on the Canisteo in 1793. It stood on Bennett's Creek, about half a mile from its mouth. It was burned in a year or two. Before this mill was built the settlers carried their grain to Shepard's Mill, on the Susquehanna, nearly one hundred miles. After the burning

of the mill, Mr. Bennett went to New York to procure machinery for another, but became engaged in other business, and failed to supply the wants of his neighbors. George Hornell, (afterwards known as Judge Hornell,) settled in Canisteo in 1793, and was induced to build a mill on the site since known as Hornell's Mills. The settlers were so impatient for its erection that they turned out and prepared the timber voluntarily. Solomon Bennett kept the first store, and Jedediah Stephens the first inn. James McBurney, of Ireland, first came to Canisteo as a peddler; he bought "Great Lot" No. 12, in the lower township of Bennett, and other lands, went to Ireland, and upon his return settled some of his countrymen on his lands.

The first birth in the town was that of Oliver Stephens; the first marriage that of Richard Crosby and Hannah Baker, and the first death that of Henry Stephens.

The early settlers of Canisteo frequently recognized among the Indians who came to hunt in that vicinity, some of their old antagonists of the Wyoming; but old enmities were generally forgotten, and the savages and settlers lived together on the most amicable terms.

Under the old organization of Ontario County, the settlement of Canisteo was in the town of Williamson, which at that time embraced an indefinite amount of territory in Steuben and adjacent counties. Jedediah Stephens was the first Supervisor of that town, and attended the meeting of the Board at Canandaigua. The town meeting was held at the house of Uriah Stephens, and seven votes were cast. Solomon Bennett is said to have been the captain of the first military company organized in Steuben County. The following graphic description of the early settlers of Canisteo is taken from McMaster's History of Steuben County:

"A large proportion of the first settlers of Canisteo were from Pennsylvania, and had within them a goodly infusion of that boisterous spirit and love of rough play for which the free and manly sons of the back-woods are everywhere famous. On the Susquehanna frontier, before the Revolution, had arisen an athletic race, lovers of hard blows, sharp-shooters and runners, who delighted in nothing more than in those ancient sports by which the backs and limbs of all stout-hearted youths have been tested since the days of Hercules. The eating of bears, the drinking of grog, the devouring of hominy, venison, and all the invigorating diet of the frontiers; the hewing down of forests, the paddling of canoes, the fighting of savages, all combined to form a generation of yeomen and foresters, daring, rude and free. Canisteo was a sprout from this stout stock, and on the generous river flats flourished with amazing vigor. Everything that could eat, drink and wrestle, was welcome; Turk or Tuscarora, Anak or Anthropophagus, Blue

Beard or Blunderbore. A 'back-hold' with a Ghoul would not have been declined, nor a drinking-match with a Berserker. Since the Centaurs, never has there been a better specimen of a 'half-horse' tribe. To many of the settlers in other parts of the County who emigrated from the decorous civilization of the east and south, these boisterous foresters were objects of astonishment. When a 'Canisteer' went abroad, the public soon found it out. On the Conhocton they were known to some as the *Six Nations*, and to the amusement and wonder of young Europeans, would sometimes visit at Bath, being of a social disposition, and sit all day, 'singing, telling stories and drinking grog, and never get drunk *nayther*.'

The Indians were accustomed to come down from "Squakie Hill" several times a year to engage in horse and foot-racing, and other rude sports. At such times the uproar of their festivals made the valley appear like a den of maniacs. The Indians, though "quick as cats" and "limber as snakes," were not a match for their better trained and more experienced antagonists. On these festive occasions the Indians came down with all their households, women, children, dogs and horses, but conducted themselves with great civility, giving their hosts no cause for complaint. Elias Stephens was the great champion of the whites in the wrestling matches: No Indian in the Six Nations could lay him on his back. On one occasion a powerful young chief was brought by his tribe to test the strength of the Canisteo champion. He had been carefully trained and exercised, and after "sleeping in oiled blankets" for several nights, was brought into the ring. Stephens clinched the young savage, and at the first round hurled him to the ground with a broken thigh. The chief's backers were very angry, and threatened to kill the victor, but the affair was finally made up, and the unfortunate chief was borne off on a deer skin, stretched between two poles. "Young America" was not slow in following the example of the fathers, either in contests with the red men, or in fishing and hunting, where the streams abounded in fish and the forests in game. The Indians sometimes made a military display, marching forth upon the flats to the number of three hundred warriors, in full costume, to exhibit the grand war-dance. They made a fire about eight rods long, and paraded around it with hideous chants and a great clattering of little deerskin drums. Elias Stephens, by his display of strength and resolution, became an object of respect to the Indians, who well knew that he dared to do all he promised. Fourteen men were once at work in Bennett's mill-yard, when sixteen of the savages came on whooping and brandishing their knives, and drove the men from the yard. Stephens was immediately informed of this raid, and said: "What! you fourteen let sixteen of the critters drive you out of the yard? Lord! I can whip a hundred Indians." Seizing a club, he hastened to the mill,

where the Indians were capering about and brandishing their knives in great glee. "Put up your knives, damn you, and be off, or I will beat all your brains out," exclaimed Stephens. The hilarious red skins put their knives in their belts, and walked away.

The population of Canisteo in 1865 was 2,132, and its area 34,000 acres.

The town contains sixteen school districts, employing seventeen teachers. The number of pupils in 1867 was 810, and the average attendance 288. The amount expended for school purposes the same year was \$3,313.25.

CATON was formed from *Painted Post*, (now Corning,) as "Wormly," March 28th, 1839, and its name was changed April 3d, 1840. It is the south-east corner town of the County. Its surface is a rolling upland, though not as uneven as most towns in the County. The forests have not been cleared to such an extent as in many of the towns. The streams are small brooks flowing northward. The soil is a clayey and shaly loam. Lumber is extensively manufactured.

Caton (p. v.) is situated near the center of the town, and contains three churches, two grist mills, several saw mills and about forty houses.

A temporary settlement was formed here in 1814, by Joseph and Charles Wolcott, but the first permanent settlement was made in 1819, by Isaac Rowley, from Bradford County, Pennsylvania. Stephen and Simeon Hurd settled in the town in 1821, Solomon Tarbox in 1822, and E. P. Babcock, Edward Robins and Henry Miner in 1823.

The first church (Presb.) was organized in 1832, and Rev. Benjamin Harron was the first settled pastor. The first birth was that of Shepard Hurd; the first marriage that of Oliver Woodworth and Elizabeth Hurd; and the first death that of a child of John Rowe. Bennett Bruce built the first grist mill; Samuel Wormly kept the first inn, and W. D. Gilbert kept the first store. Edward Robins taught the first school.

The population in 1865 was 1,543, and its area 23,000 acres.

There are twelve school districts, employing twenty-two teachers. The whole number of pupils is 480, and the average attendance 160. The amount expended for school purposes in 1867 was \$1,968.80.

COHOCTON was formed from Bath and Dansville, June 18th, 1812. A part of Avoca was taken off in 1843, and a part of Wayland in 1848. It is situated on the north border of the County, west of the center. The surface is mostly a hilly upland, separated into ridges by deep and narrow valleys. The principal streams are Conhocton River, flowing southerly through the cen-

ter, and its tributaries. The soil is chiefly a slaty and gravelly loam.

Liberty, (Cohocton p. o.) on the Conhocton River, is a station on the Buffalo, New York and Erie Railroad, and contains two churches, a carriage factory, a saw mill, a manufactory of shingles, lath &c., and a population of 200 to 300.

North Cohocton (p. v.) contains a church and about 35 houses.

Bloods is a hamlet and a station on the railroad, one mile from North Cohocton.

The first settlement was made soon after the settlement of Bath, by Joseph Biven, who was sent there by Captain Williamson to keep a tavern. He settled at the point known as the "Twenty-two Mile Tree," and subsequently as "Biven's Corners," now Blood's Corners. Richard Hooker, James and Aruna Woodward, were the next settlers. In 1805 or 1806, Joseph Chamberlain, of Herkimer County, settled on the "Davis farm," near Liberty Corners. His household consisted of a cow and a dog, and all his property, except his ax, was contained in a small pack. His style of living, in its simplicity, would rival that of the old philosopher who lived in a tub. For a milk pail he cut a notch in a log, and driving the cow astride, milked into the notch, then crumbed his bread into the same and ate with a wooden spoon. In the following year, Levi Chamberlain, Capt. Jonas Cleland, Joseph Shattuck and Deacon Horace Fowler settled in this town. Timothy Sherman, James Barnard, Samuel Rhoades, Jesse Atwood, Isaac Morehouse and Charles Burlingham were also early settlers. The Brownsons settled at Loon Lake at an early day. Abraham Lint settled at Lint Hill in 1789, and about the same time the Hatches, the Ketches and others.

The first marriage was that of Joseph Biven and Sarah Hooker, in 1798, and the first birth that of Bethiah Hooker, their child, in 1800. The first death was that of Richard Hooker, February 10th, 1801. Jonas Cleland built the first saw and grist mills, in 1808; and Joseph Shattuck kept the first inn, in 1809. Sophia Trumbull taught the first school, in 1810. The first settled minister was Rev. Elisha Brownson, (Bap.) in 1811.

The population in 1865 was 2,614, and its area 25,000 acres.

The town contains twelve school districts, employing 29 teachers. The whole number of pupils in 1867 was 728, and the average attendance 275. The amount expended for school purposes was \$3,621.13.

CORNING, named from the Hon. Erastus Corning, of Albany, was formed as "Painted Post," March 18th, 1796. Its name was changed March 31st, 1852. Erwin and Hornby were taken off in 1826, and "Wormly" (now Caton,) in 1839. A part was annexed to Erwin in 1856. It lies on the east border of the

County, south of the center. The wide valley of the Chemung, extending north-west and south-east, through near the center of the town, and the lateral valleys, divide the uplands into rounded hills and narrow ridges. The principal streams are Chemung River and its tributaries, Borden, Post, Narrows, Clump Foot and Winfield Creeks. The soil upon the hills is a heavy, slaty loam, and in the valleys a fine quality of sandy and gravelly loam, occasionally intermixed with clay.

Corning, (p. v.) incorporated September 6th, 1848, is situated on the south bank of Chemung River, in the west part of the town. It is a half-shire of the County. The Chemung Canal, the Blossburg and Corning Railroad and the Buffalo and New York and Erie Railroad, terminate here, and the village is an important station on the New York and Erie Railroad. It contains seven churches, a union school with academic department, three banks, six hotels, two newspaper offices, several manufacturing establishments and about 5,000 inhabitants. Immense quantities of coal and lumber are shipped from this place to different parts of the country. In May 1850, a most destructive fire occurred, destroying entirely the business part of the village. About one hundred buildings and large quantities of lumber were consumed in a few hours. The work of re-building immediately commenced, and was prosecuted with vigor, so that in a short time good, substantial and elegant buildings occupied the places of those so recently destroyed.

Knoxville, named from Judge John Knox, and situated on the opposite side of the river from Corning, contains one church and about 500 inhabitants.

Gibson is situated on the north side of Chemung River, one and a half miles east of Corning, at the head of the Chemung Canal Feeder.

Centerville is a small village about one mile west of Knoxville, and contains about 200 inhabitants.

The first settlement of this town was made near the village of Corning, in 1788, by Frederick Calkins and Benjamin Eaton. Calkins was from Vermont, and was the first farmer of Steuben County. After living there alone for a time, he went East for his family, and was absent when Phelps and Gorham's surveyors made their advent, which accounts for the omission of his name in Judge Porter's narrative. Township number two of the second range was purchased of Phelps and Gorham, in 1790, by six men, Frederick Calkins, Justus Wolcott, of Eastern New York; Ephraim Patterson, of Connecticut; Silas Wood, Caleb Gardner and Peleg Gorton. They paid eight cents an acre for the township. The old town of Painted Post comprised the present towns of Hornby, Campbell, Erwin, Corning, Caton and Lindley. The

earliest settlers were the proprietors, (except Silas Wood,) and Eli and Eldad Mead, David and Jonathan Cook, of New Jersey; Judge Knox, of Eastern New York; Benjamin Eaton, Elias Williams, Henry McCormick, Hezekiah Thurber, Bradford Eggleston, Samuel Colgrove, John Berry and others, who settled in the town from 1790 to 1793. Jonathan and Warren Rowley settled in 1794; James Turner and Caleb Wolcott in 1795; George McCullick and Benjamin Patterson in 1796, and Nehemiah Hubbell in 1798.

The first birth was that of James Calkins, November 24th, 1790; the first marriage that of Benjamin Gorton and Rachel Wolcott, in 1794; and the first death that of Ichabod Patterson, in August 1794. Ichabod Patterson built the first saw mill, and James Henderson the first grist mill, in 1793. Benjamin Eaton kept the first store, in 1791. He went for his stock to Wattle's Ferry, (now Unadilla Village,) in a canoe, with a man and boy. At that place he purchased another canoe, and returned with his fleet laden with goods to Painted Post. Samuel Colgrove taught the first school, in 1793, and John Warren conducted the first religious services the same year.

The population of Corning in 1865 was 6,724, and its area 24,300 acres.

There are fifteen school districts, employing fifty-three teachers. The whole number of pupils in 1867 was 2,315, and the average attendance 814. The amount expended for school purposes the same year was \$10,645.96.

DANSVILLE, named from Daniel P. Falkner, an early and enterprising citizen, known as "Captain Dan," was formed in March, 1796. Parts of Cohocton and Howard were taken off in 1812, a part of Wayland in 1848, and Fremont in 1854. A part was annexed to Sparta in 1822, and a part of Cohocton was re-annexed April 26th, 1834. It is the north town on the west border of the County. The surface is mostly an upland, divided into ridges by the narrow valleys of the small streams. The declivities of the hills are steep and their summits are from 300 to 400 feet above the valleys. The streams are the head branches of Canascraga Creek, flowing north, and of Canisteo River, flowing south. The soil is a sandy and gravelly loam in the east and north, and gravel underlaid by hardpan in the south-west.

Rogersville (South Dansville p. o.) is situated in the central part of the town, and contains two churches, the Rogersville Academy, the Rogersville Union Seminary and a population of two or three hundred.

Burns is a station on the Buffalo and New York City Railroad.

Doty's Corners is a post office.

The first settlement was made in 1804, by Isaac Sterling and Samuel Gibson. James, John and Major Jones, Frederick Fry, William Ganong, Thomas and Nathaniel Brayton, Tisdale Haskin, Thomas and John Root, Joshua Healey, Charles Oliver, Joseph Phelps, Elisha Robinson, William C. Rogers and Jesse Bridges, were some of the early settlers.

Robert Fuller built the first saw-mill, in 1820, and Handy and Miller the first grist-mill, in 1825. Isaac Sterling kept the first inn, in 1806. The first school was taught by James Jones, in 1811.

The population in 1865 was 1,980, and the area 30,000 acres.

The number of school districts is seventeen, employing seventeen teachers. The number of pupils attending school during the year was 766, and the average attendance 236. The amount expended for school purposes was \$2,319.34.

ERWIN was named from Col. Arthur Erwin, of Bucks County, Pennsylvania, an officer in the Revolutionary war, who purchased the township of Phelps and Gorham. It was formed from "Painted Post," January 27th, 1826. Lindley was taken off in 1837, and a part of Corning was annexed in 1856. It lies west of Corning, in the south-east part of the County. Its surface is about equally divided between high, rolling upland, and the low valleys of the streams. The summits of the hills are 400 to 600 feet above the valleys. Tioga and Canisteo Rivers unite in the south-east part of the town, and Tioga and Conhocton in the north-east part, forming the Chemung River. The valleys of these streams are from one to two miles wide. The soil upon the hills is a shaly and clayey loam, and in the valleys it is a fine fertile alluvium. A large part of the town is still covered with forests. The lumber trade is extensively pursued.

Painted Post, (p. v.) situated at the junction of Conhocton and Tioga Rivers, is a station on the New York and Erie Railroad, and the Buffalo, New York and Erie Railroad. It contains three churches, a bank, a hotel, a sash, blind and door manufactory, a foundry and machine shop, a grist, saw, and plaster mill, a manufactory of hemlock bark extract, and about 800 inhabitants.

Coopers Plains (p. v.) is a station on the Binghamton, New York and Erie Railroad, and contains two churches, a hotel, and about 300 inhabitants.

About one mile south-west of Painted Post, the gang-mills of Fox, Weston & Brownson are located. They manufacture about 10,000,000 feet of lumber, 3,000,000 shingles and 4,000,000 lath annually. Their lumber yard covers about sixty acres.

William Harris, an Indian trader, settled at Painted Post in 1787, or previous to that. The Indians manifested much zeal in promoting the establishment of a trading post at the head of the

Chemung. They assisted him in erecting his cabin, carrying logs to the proposed site, and after the store was opened, patronized him to the extent of their ability. Previous to the arrival of Harris the people were obliged to go to Tioga Point, nearly fifty miles below, for their supply of the necessaries of life. After remaining here for a few years, Harris returned to Pennsylvania. David Fuller, Eli Mead and a Mr. VanNye settled in 1791-92, and Samuel, Frank and Arthur Erwin, Captain Howell Bull and John E. Evans, a few years later.

David Fuller kept the first inn. It is described by one of the early settlers as composed of round logs, one story high, and divided into two apartments. "Fuller, the landlord, was a good natured, slow and easy sort of a man, but his better half, Nelly, was a thorough going, smart, good looking woman, and much admired by gentlemen generally." The first school was taught by John E. Evans, in 1812.

The population in 1865 was 1,982, and the area 23,400 acres.

The town contains six school districts, employing seventeen teachers. The whole number of pupils attending school the last year was 712, and the average attendance 216. The amount expended for schools in 1867 was \$3,443.45.

In the summer of 1779, a party of tories and Indians, under the command of a Loyalist named McDonald, and a renowned Seneca war-chief named *Hiakattoo*, returned from an incursion into the Susquehanna settlements, bringing with them a large number of men, women and children, as prisoners, and a large number of their own warriors, wounded. At the confluence of Tioga and Conhocton Rivers, Captain Montour, a fine young chief, and son of the famous Queen Catharine, died of his wounds. His comrades buried him upon the bank of the river, and erected above his grave a post upon which were painted various symbols and rude devices. This monument was known throughout the Genesee forests as the *Painted Post*. It was a landmark well known to all the Six Nations, and was often visited by their braves and chieftains. This account of the origin of the Painted Post was given to Benjamin Patterson, the hunter, by a man named Taggart, who was carried to Fort Niagara a prisoner, by McDonald's party, and was a witness to the burial of Captain Montour, or at least was in the encampment at the mouth of the Tioga at the time of his death. Col. Harper, of Harpersfield, the well known officer of the frontier militia of New York in the Revolution, informed Judge Knox, of Knoxville, in this County, that the Painted Post was erected over the grave of a chief who was wounded at the battle of the Hogback and brought in a canoe to the head of the Chemung, where he died. The post was standing many years after the settlement of the County, and the story goes that it rotted down at the butt, and

was preserved in the bar-room of a tavern till about the year 1810, when it disappeared unaccountably. It is also said to have been swept away in a freshet.

FREMONT, named in honor of John C. Fremont, was formed from Hornellsville, Dansville, Wayland[¶] and Howard, Nov. 17th, 1854. It is an interior town, lying north-west of the center of the County. Its surface is a hilly upland, forming a part of the dividing ridge between the Conhocton and Canisteo Rivers. Its streams are small brooks. The soil is chiefly a shaly loam derived from the disintegration of the surface rocks.

Fremont Centre (Stephens' Mills p. o.) and *Haskinville* (p. o.) are hamlets.

There are in the town two churches, two hotels, one grist-mill and four saw-mills.

The first settlement was made by John B. Rathbun, Amos Baldwin and Sylvester Buck, in 1812. John A. Buck, Joel Everett and Daniel Atherton settled in the town in 1813-14; Francis Drake and a Mr. Taylor in 1815; and Solomon and Levi Gates, Robert Kilburg, Daniel Upson, Samuel Sharp, Nehemiah Luther, Lemuel Harding, Stephen Holden and Edward Markham in 1816.

The first marriage was that of John A. Buck and Rebecca Baldwin, August 24th, 1815; the first birth that of Charles E. Buck, Nov. 12th, 1816; and the first death that of Mrs. Amos Baldwin, Dec. 21st, 1815. Daniel Upson built the first saw-mill, in 1816, and the first grist-mill, in 1819. The first school was taught by Lydia Everett, in 1819. The first religious services were conducted by Rev. Mr. Ford, in 1814.

The population of the town in 1865 was 1,011, and its area 19,000 acres.

There are eleven school districts, employing eleven teachers. The whole number of pupils was 431, and the average attendance 181, during the last year. The amount expended for school purposes in 1867 was \$1,887.47.

GREENWOOD was formed from Troupsburgh and Canisteo, January 24th, 1827. West Union was taken off in 1845, and a part of Jasper was annexed in 1848. It lies upon the west border of the County, south of the center. The surface is chiefly a rolling upland. The principal stream is Bennett's Creek, which flows northerly through the east part of the town, in a valley from 400 to 600 feet below the summits of the adjacent hills. The soil is a gravelly and clayey loam.

Greenwood (p. v.) is situated in the eastern part of the town, on Bennett's Creek, and contains a church and about forty houses.

Rough and Ready, (p. v.) near the south border, contains about a dozen houses.

West Greenwood is a post office.

The first settlement was made by Christian Cobey, John H., Ezra and Phineas Stephens, in 1820. Eleazer Woodward, John H. Hoyt, H. Carr and Lewis Ordway settled in the town in 1822.

The first birth was that of Charles C. Stephens; the first marriage that of Hiram Putnam and Lucinda Stephens; and the first death that of Ezra Cobey. The first grist-mill was built by Col. John Stephens, and the first inn and store were kept by Levi Davis. The first school was taught by Sarah Carr.

The population in 1865 was 1,163, and the area 26,000 acres.

There are twelve school districts, employing thirteen teachers. The whole number of pupils in attendance in 1867 was 579, and the average attendance 212. The amount expended for school purposes was \$2,354.48.

HARTSVILLE was formed from Hornellsville, February 7th, 1844. It lies upon the west border of the County, south of the center. The surface is a hilly upland, broken by the deep valleys of its streams. The valley of Bennett's Creek extends along the east border, and Purdy Creek flows east through the north part. The steep hillsides bordering these streams are from 400 to 600 feet high. The soil is a shaly and clayey loam.

Hartsville Center, (Purdy Creek p. o.) situated on Purdy Creek, near the center of the town, contains about twenty houses.

The first settlement was made in 1809, by Benjamin Brookins. Joseph Purdy settled in the town in 1810, and a Mr. Blake in 1815. Thomas Williams, Joshua Davis, and men by the name of Satterlee and Neff, settled in 1818; William D. Burdick and Perry Potter in 1819; Daniel P. Carpenter, Frost Powell, Joseph Thompson, John and Robert G. Martin and a Mr. Hudson, in 1822; Casper VanBuskirk and William Ellison in 1823.

The first birth was that of Sarah A. Carpenter; the first marriage that of Robert G. Martin and Mary A. Gleason, and the first death that of an infant child of Ebenezer Mather; these all took place in 1823. Daniel P. Carpenter opened the first store, in 1825, and built the first saw-mill, in 1828. Henry Frisbie kept the first tavern, in 1849, and Miss Z. A. Purdy taught the first school, in 1826.

The census of 1865 gives the town a population of 995, and an area of 23,000 acres.

The number of school districts is ten, employing ten teachers. The whole number of pupils in 1867 was 390, and the average attendance 148. The amount expended for school purposes in 1867 was \$1,573.01.

HORNBY, named from John Hornby, an English landholder, was formed from "Painted Post," (now Corning,) January 27th, 1826. Campbell was taken off in 1831, and a part was an-

nexed to Orange, (Schuyler County,) April 11th, 1842. It lies near the center of the east border of the County, and has a high, rolling surface, intersected by deep, narrow valleys. Dry Run flows through the north-west part, and Post and Borden Creeks in the south, all tributaries of the Conhocton and Chemung. The soil is a shaly and clayey loam, of excellent quality.

Hornby Forks (Hornby p. o.) contains two churches, several manufactories and about thirty houses.

The first settlement was made in 1814, by Asa and Uriah Nash, from Otsego County. Jesse Platt, John Robbins and Edward Stubbs settled in the town in 1815; John St. John, Amasa Stanton, James S. and Hiram Gardner, Chester Knowlton and Aden Palmer in 1815-16; Benjamin Gardner, Isaac Goodell, Aaron Harwood and John Sayer, in 1818.

The first birth was that of George Stanton; the first marriage that of John Bidler and Miss Platt, in 1816; and the first death that of John Stanton. Ezra Shaw kept the first inn, and Hon. A. B. Dickinson the first store. Mr. LaFevre built the first mill, and James C. Leach taught the first school.

The census of 1865 gives the town a population of 1,193, and an area of 22,300 acres.

There are twelve school districts in the town, employing twenty-four teachers. The whole number of pupils attending school during the year 1867 was 492, and the average attendance 177. The amount expended for school purposes was \$1,799.48.

HORNELLSVILLE, named from Hon. George Hornell, one of the early settlers, was formed from Canisteo, April 1st, 1820. Hartsville was taken off in 1844, and a part of Fremont in 1854. It lies near the center of the west border of the County. The surface is chiefly a rolling upland, divided into two nearly equal parts by the Canisteo valley. This valley is from one to two miles wide, and is bordered by steep hills from 400 to 500 feet high. Canacadea and Crosby Creeks, tributaries of the Canisteo, flow through deep valleys from the west. The soil generally is a clayey and gravelly loam.

Hornellsville, (p. v.) situated at the junction of Canisteo River and Canacadea Creek, is an important station on the New York and Erie Railroad, and is the southern terminus of the Buffalo and New York Central Railroad. It contains five churches, viz: Methodist, Baptist, Presbyterian, Episcopal and Roman Catholic; nine hotels, two banks, two newspaper offices and several mills and manufactories. The Canisteo Agricultural Society has a fair ground of seventeen acres in extent at Hornellsville. The population in 1865 was 3,536.

Arkport, (p. v.) on the Buffalo and New York Central Railroad, contains a church and about 300 inhabitants.

The first settlement was made by Benjamin Crosby, in 1792. Elias Stephens and George Hornell settled in the town in 1793; Elijah Stephens in 1794; Christopher Hurlbut and Nathan Cory in 1795; John and Hugh Carney in 1796; Reuben Crosby in 1797, and James Jones in 1790.

The first birth was that of William Stephens, in December, 1792; the first marriage that of Reuben Crosby and Jenny McQueen, in 1799; and the first death that of a child of Judge Hornell. Judge Hornell built the first saw and grist mills, and kept the first store and inn. The first school was taught by Abigail Hurlbut, in 1796. About the year 1800, Christopher Hurlbut ran the first ark, laden with wheat, that descended the Canisteo, and about the same time, John Morrison ran the first raft. The honor of piloting the first ark out of the Canisteo is also claimed for Benjamin Patterson.

The population of the town in 1865 was 5,338, and its area 32,000 acres.

The number of school districts in the town is thirteen, employing eighteen teachers. The number of pupils is 1,732, and the average attendance 422. The amount expended for school purposes \$4,956.11.

HOWARD was formed from Bath and Dansville, June 18th, 1812. A part of Avoca was taken off in 1843, and a part of Fremont in 1854. It is an interior town, and lies a little north-west of the center of the County. Its surface is mostly a rolling upland, forming a part of the dividing ridge between Conhocton and Canisteo Rivers. The streams are all small, flowing into the Conhocton or the Canisteo River. In the north-east part are two small ponds. The soil is chiefly a heavy clay loam.

Howard (p. v.) contains two churches, two hotels, three stores, two wagon shops, a tannery and several mechanic shops, and about forty-five houses.

Towlesville (p. v.) contains two churches, several mechanic shops, and about twenty houses.

Beuna Vista (p. o.) contains a church and about a dozen houses.

Goff's Mills (p. o.) is a hamlet, and

South Howard is a post office.

The first settlement was made in 1806, by Abraham Johnson. Reuben and Abraham Smith, Abel Bullard, Jacob and Thomas Bennett, Charles McConnell, Simeon McMurty and Mr. Colgrove, settled in the town in 1808; Samuel Baker, Joel Bullard, Benjamin Bennett, Ephraim Rumsey, William Allen, Daniel N. Bennett, Jonas and Seth Rice and Nathan Corey, in 1810-11; and Simeon Bacon, William Goff, Israel Baldwin and Rufus Halsey, in 1812.

Arethusa Bullard was born in 1809, which was the first birth; and the first death was that of Mrs. Rowley, who died the same

year. Henry Kennedy built the first saw-mill, in 1809, and James Vaughn the first grist-mill, in 1810. The first inn was kept by Benjamin Bennett, in 1816.

The population of this town in 1865 was 2,373, and its area 36,000 acres.

The number of school districts is sixteen, and the number of teachers employed seventeen. The whole number of pupils is 861, the average attendance 328, and the amount expended for school purposes in 1867, \$3,569.48.

JASPER, named from Sergeant Jasper, who was noted for his courage at the battle of Fort Moultrie, South Carolina, June 28th, 1776, was formed from Troupsburgh and Canisteo, January 24th, 1827, and a part was annexed to Greenwood in 1848. It is situated near the south-west corner of the County. Its surface is a hilly and broken upland, the highest summits being nearly 2,000 feet above tide. The streams are small brooks, and the soil is a slaty, gravelly and clayey loam.

Jasper Four Corners (Jasper p. o.) contains two churches and about 250 inhabitants.

West Jasper is a post office, and

Jasper Five Corners is a hamlet.

The first settlement was made in 1807, by Nicholas Botzman, Ebenezer Spencer and William Wooley. Adam Botzman and Andrew Craig were also early settlers.

The first birth was that of Sally Botzman, and the first marriage that of Samuel Gray and Polly Simpson. Nicholas Botzman kept the first inn, and Amanda Smith taught the first school.

The population of this town in 1865 was 1,678, and its area 31,000 acres.

It contains fifteen school districts, employing fifteen teachers. The whole number of pupils during the last year was 582, and the average attendance 213. The amount expended for school purposes in 1867 was \$2,386.88.

LINDLEY, named in honor of Col. Eleazar Lindley, was formed from Erwin, May 12, 1837. It lies upon the south border of the County; east of the center. Its surface is a hilly upland, broken by the deep valley of Tioga River, which extends through the town from north to south, near the center. The summits of the hills are from 400 to 600 feet above the valley, and covered to a great extent by forests. The valley is about one mile wide and is bordered by steep hillsides. The soil upon the hills is a heavy, shaly loam; and in the valleys a rich alluvium. A large part of the surface is still covered with forests. Lumbering is extensively pursued.

Lindleytown, (p. v.) on Tioga River, is a station on the Blossburg and Corning R. R., and contains a church, a tannery, a grist-mill, several sawmills, and about twenty houses.

Erwin Center, (p. o.) situated on the R. R., near the north border of the town, and also on the river, is a hamlet.

The first settlement was made in 1790, by Col. Eleazur Lindley, from New Jersey, the original proprietor of the town, upon the Tioga Flats. He was an active officer of the "Jersey Blues" during the Revolutionary war, and had, previous to 1790, rode through the "Genesee Country" to find a tract of land where he might establish himself, and gather his children around him. The unhealthiness of the regions around Seneca and Canandaigua Lakes, prevented his settling in that region, and he chose a tract less promising for agricultural purposes, but one that promised freedom from the diseases to which the more fertile northern plains were subject. His colony consisted of about forty persons, who, with their goods, were transported to the Susquehanna. At Wilkesbarre these were transferred to boats and poled up the river, while the horses and cattle were driven along the trails or rude roads upon the bank. They arrived at their place of destination June 7, 1790. Plows were made and the river flats were immediately broken; the season was too far advanced for corn, but a great harvest of buckwheat was secured. Buckwheat, milk, and game constituted their food the first winter. "Old Pomp," a negro, made himself useful by pounding buckwheat in a mortar, from the time the ice closed the river in autumn till spring removed the embargo and allowed the transportation of grain in canoes to Shepard's Mill. Old Pomp seems to have been a skillful hunter as well as miller, if we credit the report handed down to us, that he *killed four bucks at one shot*, as they stood in the water.

Colonel and Mrs. Lindley were members of the Presbyterian Church, at Morristown, in New Jersey, and in this new settlement the Sabbath was strictly observed. Traveling missionaries were cordially welcomed, and when none of these was present to conduct the religious services, Col. Lindley himself would read a sermon. In 1793 he was elected a member of the Legislature, and while attending the session of that body, died in New York. Col. Lindley was accompanied to his new home in the Tioga Valley by his two sons, Samuel and Eleazur, and by his sons-in-law, Dr. Ezekiel Mulford, Ebenezer Backus and Capt. John Seely.

The first birth was that of Eliza Mulford, August 10, 1792; the first marriage, that of David Cook, Jr. and Elizabeth Cady; and the first death, that of Col. Eleazur Lindley, in June 1794. Joseph Miller taught the first school, near the Pennsylvania line, in 1793; the widow of Col. Lindley kept the first inn; and John P. Ryers, the first store. The first sawmill was erected by Col. Lindley.

The population in 1865 was 940, and its area 23,000 acres.

There are four school districts, employing nine teachers. The number of pupils in 1867 was 364, and the average attendance 92. The amount expended for schools in 1867, was \$1,184.21.

PRATTSBURGH, named from Captain Joel Pratt, one of the first settlers, was formed from Pulteney, April 12, 1813, and a part of Wheeler was taken off in 1820. It is centrally situated upon the north border of the County. Its surface is a hilly upland, broken by the valleys of several small streams, flowing in a south-westerly direction. The principal streams are Five Mile, Ten Mile and Twelve Mile Creeks. The valley at Prattsburgh village is 1,400 feet above tide, and the hills are from 300 to 400 feet higher. The soil is a gravelly and clay loam.

Prattsburgh, (p. v.) situated in the eastern part of the town, was incorporated December 7, 1848. It contains two churches, the Franklin Academy, and several manufacturing establishments.

Riker's Hollow (p. o.) is a hamlet.

The first permanent settler in this township was Jared Pratt, a nephew of Captain Joel Pratt, from whom the town was named. He and his wife came here in the spring of 1801, and for about two years and a half constituted the only family in the town. It was several miles to the nearest neighbor; there was no road except a mere trail, and for miles a dense forest surrounded them. To obtain flour for their bread, Mr. Pratt would fill a bag with grain, lay it across the yoke of his oxen and drive eleven miles to Naples, the nearest mill. Mr. Pratt continued to reside here till his death, in 1840. In 1799, Captain Joel Pratt, from Columbia County, came to Steuben and purchased several thousand acres of land in township No. 5, range 3, in the present town of Wheeler. He cleared one hundred and ten acres and sowed it with wheat. He afterwards returned to Columbia for his family. In 1802, becoming dissatisfied with his purchase, he was permitted to exchange it for a tract in township No. 6, in which purchase William Root, of Albany County, joined him. In the sale of this township two hundred acres were reserved for the support of a resident clergyman. Captain Pratt was a Congregationalist, and intended to establish a church of that order in this new settlement. With this view, he required every person to whom he sold land to give a note to the amount of fifteen dollars on each hundred acres purchased, payable within a given time, with legal interest annually till paid to the Trustees of the Religious Society which should be formed. Rev. John Niles, a licentiate of a Congregational Association, settled in 1803 on a lot of eighty acres, given him by Captain Pratt as an inducement to settle. The Sabbath after Mr. Niles' arrival he held religious services at the house of Jared Pratt, being the first held in the town.

In the winter of 1804, William P. Curtis, Samuel Tuthill, Pomeroy Hull and Salisbury Burton, with their families, settled in the town. Noah Niles, Cyril Ward, Aaron Bull, Enoch Niles, Harmon Fowler, Rufus Blodgett and Stephen Hall, all originally from New England, settled in 1805-6. Isaac Waldo, Judge Hopkins, John Hopkins, Dea. Ebenezer Rice, Robert Porter, Dea. Gamaliel Loomis, Samuel Hayes and others, arrived about the same time. The first extensive clearing in Prattsburgh was one of seventy acres, including the Public Square of the village, made in 1803, under the direction of Captain Pratt.

The first frame building erected in the town was a barn, by Joel Pratt, Jr., in 1804. This was a sort of resting place, for several years, for families just arrived, sometimes half a dozen at once taking up their quarters here till their own homes were arranged. It was also the place of religious worship previous to the building of the first church. The first merchants of the town were Joel Pratt, Jr. and Ira Pratt, and the first hotel keeper was Aaron Bull. The first child born was Mariette Pratt, in 1802, and the first death that of a daughter of William P. Curtis, in 1804. The first marriage was that of Isaac Pardee and Patty Waldo, in 1806. The first school was taught in a church by Horace Bull, in 1806-7. The first mill was erected on Five Mile Creek, by Robert Porter.

The Congregational Church was organized in 1804, consisting of eleven members. The first church edifice was erected in 1807, it was a framed building and stood at the south-east corner of the public square. Some were disposed to build it of logs, but Capt. Pratt was greatly opposed to that, and "retorted upon the Society the anathema pronounced against those who dwelt in ceiled houses, while the temple of the Lord laid waste." Captain Pratt, under whose direction and encouragement the town was settled, continued to reside here till his death, in 1820, greatly respected, and esteemed by all who knew him.

Judge Porter was for many years one of the most prominent citizens of the town, holding at different times all the most responsible offices in the gift of the people of his town.

Rev. James H. Hotchkin, author of "The History of the Presbyterian Church in Western New York," was for many years a citizen of Prattsburgh; he died Sept. 2, 1856. He was the son of Beriah Hotchkin, a pioneer missionary, graduated at Williams College, in 1800, studied theology with Dr. Porter, of Catskill, and removed to Prattsburgh in 1809, where he labored twenty-one years. "He had a mind of a strong masculine order, well disciplined by various reading, and stored with general knowledge. The doctrinal views of the good old orthodox New England stamp, which he imbibed at first, he maintained strenuously to the last, and left a distinct impression of them wherever he had an oppor-

tunity to inculcate them. His labors through the half century were 'abundant' and indefatigable. He had the happiness of closing his life in the scenes of his greatest usefulness."

The population of Prattsburgh, according to the census of 1865, was 2,606, and its area 34,000 acres.

There are seventeen school districts in the town, employing thirty-four teachers. The whole number of pupils in 1867 was 672, and the average attendance 328. The amount expended for school purposes the same year was \$2,914.38.

PULTENEY, named from Sir William Pulteney, the former owner of the Pulteney Tract, was formed from Bath, February 12, 1808. Prattsburgh was taken off in 1813, and a part of Urbana in 1848. It lies upon the west shore of Crooked Lake, and is the north-east corner town of the County. The surface is a rolling upland, from 700 to 900 feet above the surface of the lake. The declivities along the lake are broken by numerous narrow ravines formed by small streams. The soil is chiefly a shaly and gravelly loam, and in some parts, near the lake, it is clayey.

Harmonyville (Pulteney p. o.) contains two churches and about twenty houses.

Bluffport (South Pulteney p. o.) contains about the same number.

Peltonville, in the northern part, and *Gulicksville*, a landing on the lake, are hamlets.

The first settlement was made on "Bully Hill," by John Van Camp and D. Thompson, in 1797. Some of the other early settlers were Samuel Miller, G. F. Fitzsimmons, John Block, James and George Simms, Henry Hoffman, Abraham Bennett and Shadrach Norris. Samuel and Nathaniel Wallis, John Ells, William White, James Daily, Erastus Glass, Harmon Emmons and Seth Pierce arrived in 1806.

The first marriage was that of Christopher Tomer and Jane Miller, in 1809, and the first death that of a child of James Daily, in 1806. Melchior Waggoner built the first saw-mill, in 1810, and the first grist-mill in 1814. Shadrach Norris kept the first inn, in 1807, and Augustus Tyler the first store, in 1808. The first school was taught by Polly Wentworth, in 1808. Rev. Ephraim Eggleston, the first settled preacher, removed to the town in 1805.

The census of 1865 gives the town a population of 1,387, and an area of 19,000 acres.

There are ten school districts in the town, employing twenty-two teachers. The whole number of pupils in 1867 was 333, and the average attendance 159. The amount expended for school purposes the same year was \$2,226.17.

RATHBONE, named from General Ransom Rathbone, who settled in the town in 1842, was formed from Addison, Cameron and Woodhull, March 28th, 1856. It is an interior town, lying just south of the center of the County. Its surface consists of a high, rolling upland, broken by the valleys of Canisteo River and a branch of Tuscarora Creek. The upland is from 300 to 400 feet above the valleys. Naked and precipitous ledges of rocks crop out on the hillsides along the valleys. The soil is a shaly and clayey loam upon the hills, and alluvium in the valleys.

Rathboneville (p. v.) on Canisteo River, is a station on the Erie Railroad, and contains a church, a flouring mill and about 40 houses.

West Addison (p. o.) and *Cameron Mills* (p. o.) are hamlets.

James Hadley and William Benham were the first settlers, in 1793. Among the early settlers we find the names of Isaac and Jonathan Tracy, Martin Young, William Morey, Moses Powers, Zephaniah Townsend, Thomas Maybury and Samuel Colgrove.

Isaac Tracy built the first saw-mill, in 1806, and Lemuel Benham kept the first inn, in 1804. The first store was kept in 1842, by General Rathbone.

The population in 1865 was 1,464, and its area 22,000 acres.

There are ten school districts, employing twenty teachers. The whole number of pupils in 1867 was 586, and the average attendance 186. The same year the town expended \$2,383.47 for school purposes.

THURSTON was formed from Cameron, February 28th, 1844, and named in honor of William B. Thurston, a land owner. It is an interior town, and lies a little south-east of the center of the County. Its surface is chiefly a high, broken upland, forming a part of the dividing ridge between Conhocton and Canisteo Rivers. The summits of the hills are from 500 to 600 feet above the river valleys. The principal streams are Stockton's Creek, in the north-west, and Michigan Creek in the south, flowing in deep, narrow ravines, bordered by steep hillsides. The soil is a shaly and gravelly loam.

Merchantville, in the east; *Bonny Hill*, in the north-east, and *Risingville*, (p. o.) in the west, are hamlets. *Thurston* and *South Thurston* are post offices.

The first settlers were William Smith, Luke Bonny and Anderson Carpenter, at Bonny Hill, in 1813. Amos Dickens settled in 1814, and Joseph Fluent in 1817. The first settlers at Aldrich settlement were William Jack, Samuel Fisk and Thomas Aldrich, in 1823.

The first birth was that of Irena Smith, in 1813, and the first marriage that of Joseph Fluent and Fanny Dickinson, in 1818.

The first death was that of Anderson Carpenter, killed by the falling of a tree, in 1817. The first school was taught at Bonny Hill, by Caroline Vinan, in 1818, and the first store was kept by Harlow Sears, at Merchantville. The first religious society (M. E.) was formed in 1814. Rev. Buel Parker was the first preacher.

The population in 1865 was 1,176, and its area 23,000 acres.

There are ten school districts, employing twenty-one teachers. The whole number of pupils in 1867 was 475, and the average attendance 193. The same year the town expended for school purposes \$1,977.12.

TROUPSBURGH, named in honor of Robert Troup, agent of the Pulteney Estate, was formed from Middletown (now Addison,) and Canisteo, February 12th, 1808. The town was reduced somewhat in territory in 1827 by taking off parts of Greenwood and Jasper, and in 1828 it was still further reduced in size by taking off a part of Woodhull. A part of Canisteo was annexed in April, 1818. It lies upon the south border of the County, west of the center. Its surface consists principally of a hilly upland, broken by the deep valleys of small streams. The highest summits are 2,500 feet above tide, and are the highest in the County. The principal stream is Troup's Creek, flowing south. The soil is a slaty and clayey loam.

Troupsburgh Center, (Troupsburgh p. o.) situated on Troup's Creek, near the center of the town, contains an academy and about twenty houses.

South Troupsburgh (p. v.) contains about 100 inhabitants.

East Troupsburgh (p. o.), *West Troupsburgh* (p. o.), and *Young Hickory* (p. o.) are hamlets.

Samuel B. Rice, from Connecticut, was the pioneer settler of this town, in 1805; he located a little east of the center of the town. Peter Young and Peter Dolson, from Addison, settled near Mr. Rice, in 1806. Lieutenant Reynolds and Jonathan Rogers settled at the same place in 1809; George Martin in 1810, and James Works in 1811.

The first child born was Polly Young, and the first marriage was that of Zebulon Tubbs and Sarah Rice; the first death was that of Jeremiah Martin. Abner Thomas taught the first school, a little east of Troupsburgh village; Lieut. Reynolds kept the first inn, four miles from the center, and Ichabod C. Leach the first store, two miles from the center. George Martin erected the first grist-mill, at Troupsburgh village. The first religious society (M. E.) was formed at the house of Samuel Cady, by Rev. Parker Buell, the first preacher.

The population of this town in 1865 was 2,100, and its area 38,000 acres.

There are sixteen school districts, employing seventeen teachers. The whole number of pupils in 1867 was 760, and the average attendance 253. The amount expended for school purposes was \$2,337.94.

TUSCARORA was formed from Addison, December 13th, 1859. It includes township number one of the third range of the Phelps and Gorham purchase. It is situated on the south border of the County, east of the center. The surface is a hilly upland, broken by the valley of Tuscarora Creek in the north-west part.—The streams are all small. The soil is chiefly a clay loam, with gravel and alluvium along the valley of Tuscarora Creek.

South Addison, (p. v.) in the north part, contains about twenty houses.

Addison Hill is a post office.

The settlement of this town was commenced about 1792 or 1793.

The census of 1865 gives the town a population of 1,523, and an area of 23,000 acres.

The number of school districts in the town is twelve, and the number of teachers employed twenty-five. The whole number of pupils is 572, and the average attendance 193. The amount expended for school purposes in 1867 was \$2,600.72.

URBANA was formed from Bath, April 17, 1822. A part was annexed to Bath in 1839; a part of Wheeler was annexed May 3, 1839, and a part of Pulteney, April 12, 1848. It lies at the head of Crooked Lake, north-east of the center of the County. Its surface is divided by Pleasant Valley, a continuation of Crooked Lake Valley, into two series of highlands, rising from 800 to 1,000 feet above the lake. Cold Spring Creek rises in this valley, flows north-east and empties into the lake. The soil is alluvium in the valleys, and upon the hilltops a heavy, gravelly loam. From their sheltered situation, the slopes of the hills descending to the south and east, are well adapted to the culture of the grape. In 1857 thirty acres were devoted to vineyards, and the success was so great that the number of acres was doubled in 1858. There are about two thousand acres in the town, with a south and east inclination, adapted to this purpose. The town is noted for the production of a superior quality of very fine wool.

Hammondsport, (p. v.) at the head of Crooked Lake, was incorporated June 12, 1856, and contains six churches, the Hammondsport Academy, three hotels, several manufactories, and about 900 inhabitants. The "Urbana Wine Company," organized with a capital of \$250,000, is employed in grape culture and the manufacture of wine. Their vineyards are capable of producing 300 tons of grapes annually. This Company manufacture a superior quality of wine. "The Directors of the Company pledge their

personal reputation that their wines are pure." J. W. Davis is the President of the Company. The "Pleasant Valley Grape Growers Association," is an organization for the promotion of horticulture and pomology. A Fair is held annually, T. M. Younglove, President.

North Urbana (p. v.,) contains two churches and about twenty houses.

Cold Spring is a hamlet.

The first settlers of Pleasant Valley, in this town, were William Aulls and Samuel Baker. Mr. Aulls was from the southern part of Pennsylvania. He made the first clearing and built the first house in the Valley in the spring of 1793, and in the fall of the same year removed his family to the same place.

Samuel Baker was a native of Connecticut. When fifteen years of age he was taken by the Indians and remained a prisoner till released by the surrender of Burgoyne at Saratoga. He afterwards enlisted in Col. Willett's corps, and served for a time in the army. Previous to 1793, Mr. Baker had spent several years of pioneer life in the valley of the Tioga, but not obtaining a satisfactory title to his land, and having heard from Harris, the hunter, of a beautiful valley in Steuben County, selected a farm of three hundred acres in Pleasant Valley, built a house upon it, and in the following spring removed his family from the Tioga. He resided here till his death, in 1842, at the age of 80. He was for several years Associate and First Judge of the County Court.

In 1795 the whole Valley was occupied. Beginning with Judge Baker's farm, and going towards the lake, the next one was occupied by Captain Amos Stone; William Aulls, Ephraim Aulls and James Shelter occupied the next farms. The other farms between Hammondsport and the lake were occupied by Capt. John Shether, Eli Read, William Barney and Richard Daniels. Most of these had been soldiers of the revolution. Of Captain Shether it is said, he was, during the war, a Captain of Dragoons, and had the reputation of being an excellent officer, and a favorite of Gen. Washington. He lived on his farm at the head of Crooked Lake, in good style, and fared sumptuously. He was a generous, hospitable man, and a true patriot.

For many years the settlement in Pleasant Valley was the most prosperous and one of the most important in the County. The soil was very productive and yielded a supply for the inhabitants, and furnished much food also for the less fortunate inhabitants of Pine Plains, as Bath was called. An old settler of Pleasant Valley gives the following account of Bath:

"If it had not been for the Valley, the pine plains would have been depopulated. After Court had been in session two or three days, you would see a black boy come down here on a horse, and

with a big basket, foraging. He would go around to all the farms to get bread, meat, eggs, or anything that would stay life. Bath was the hungriest place in all creation. You couldn't trust a leg of mutton to anybody but the land agent."

Cold Spring Valley was occupied by Gen. McClure in 1802. He erected mills and kept them in operation till 1814, when Henry A. Townsend took possession of the Valley and resided in the "Cold Spring House" till his death, in 1839. Mr. Townsend removed from Orange County to Bath in 1796, was elected County Clerk in 1799, and continued to hold the office till 1814. Mr. Lazarus Hammond removed from Dansville to Cold Spring in 1810, and afterwards resided near Crooked Lake till his death. He was Sheriff of the County in 1814, and afterwards Associate Judge of the County Court.

The first child born in this town was Samuel Baker, jr.; the first marriage that of Jonathan Barney and Polly Aulls, in 1794; and the first death that of John Phillips, in September of the same year. Eliphalet Norris taught the first school, at Pleasant Valley, in 1795; Caleb Chapman kept the first inn, at North Urbana, and Henry A. Townsend the first store, at Cold Spring, in 1815; John Shether built the first sawmill, in Pleasant Valley, in 1795, and Gen. George McClure the first gristmill, at Cold Spring, in 1802; Elder Ephraim Sanford (Bap.) preached the first sermon, at the house of Mr. Baker, in 1795.

The population in 1865 was 1,711, and the area 24,000 acres.

The number of school districts is eleven, employing eighteen teachers. The whole number of pupils in 1867 was 415, and the average attendance 175. The amount expended for school purposes the same year was \$3,235.77.

WAYLAND, named from Rev. Dr. Wayland, of Rhode Island, was formed from Cohocton and Dansville, April 12, 1848. A part of Fremont was taken off in 1854. It is the most western town upon the north border of the County. The surface is an upland, rolling in the north, and moderately hilly in the south. It forms a portion of the watershed between Susquehanna River and Lake Ontario; and its highest summits are from 1,600 to 1,800 feet above tide. The streams are small creeks and brooks. Loon and Mud Lakes are situated in a valley in the south part of the town, and their waters flow in opposite directions. The outlet of the former is subterranean for half a mile, and where it comes to the surface it is of sufficient size to form a valuable mill stream.—The soil in the north is gravel and muck, and in the south a shaly loam.

Wayland (Wayland Depot p. o.) is situated in the north-east part of the town, and contains about 40 houses. It is a station on the B., N. Y. & E. R. R.

Perkinsville is situated two miles south-west of Wayland, and contains two churches and about thirty houses.

Patchen's Mills is a hamlet.

The first settlement was made in 1806, by Adam Zimmerman, at the depot. The north part of the town was settled by Captain Thomas Bowles. Among other early settlers were John H. Miller, David Brown, Stephen Hicks, Thomas Begole, Solomon James, Elisha Brownson, Isaac Willey, Walter and Dr. Warren Patchen, Benjamin Perkins and Samuel Draper. No road passed through the town except the ancient one from Bath to Dansville. The settlers were generally poor, and suffered the hardships incident to a new country. Rev. E. Brownson relates the following among other hardships of the early times :

"In 1815 there was a scarcity of bread. I went through the towns of Springwater, Livonia and Sparta, and thence to Dansville, in search of grain for sale, and none was to be had in those towns, nor in Western New York. People had to hull green wheat and rye for food. I found a field of rye on William Perine's farm which was thought nearly fit to cut. I went home and got some neighbors, and, with oxen and cart, went and cut some of it, threshed it, and took it to the mill and had it mashed, for it was too damp to grind, and thought ourselves the happiest people in the world, because we had bread."

The first sawmill was built by Benjamin Perkins, and the first grist mill by Dugald Cameron and Abijah Fowler, in 1816. Samuel Taggart kept the first inn, in 1827, and James L. Monier the first store, in 1830. The first school was taught by Thomas Wilbur, in 1811.

The population in 1865 was 2,621, and the area 25,000 acres.

The number of school districts in 1867 was twelve; the number of teachers employed thirteen; the whole number of pupils was 945, and the average attendance 186. The town expended for school purposes in 1867 \$1,855.42.

WAYNE, named in honor of General Anthony Wayne, was formed as "Frederickstown," March 18, 1796. Its name was changed April 6, 1808. Reading (Schuyler Co.) was taken off in 1806; Orange (Schuyler Co.) in 1813, and Barrington (Yates Co.) and Tyrone (Schuyler Co.) in 1822. A part was annexed to Tyrone, April 17, 1854. It is situated upon Crooked Lake, on the east border of the County. Its surface is a rolling upland, from 400 to 500 feet high, descending abruptly to the lake. Little Lake, lying upon the east border, is a beautiful sheet of water. The soil is a gravelly and slaty loam, underlaid by hardpan.

Wayne, (p. v.,) locally known as "Wayne Hotel," is on the line of Tyrone, (Schuyler Co.,) and contains three churches and about forty houses.

Wayne Four Corners is a post office.

The first settlement was made in 1791, by Zephaniah Hoff, Henry Mapes, Widow Jennings and Solomon Wilson. Enos, Joseph and James Silsbee, Abraham Hendricks, Joshua Smith, John Holdridge, Elijah Reynolds and Ephraim Tyler were among the early settlers.

The first birth was that of Elizabeth Wixon, November 6, 1793, and the first marriage, that of Ephraim Sanford, Jr., and Julia Hoff; James Silsbee kept the first store, and Enos Silsbee the first inn. The first school was taught by Nathaniel Frisbee, in 1797.—Rev. Ephraim Sanford (Bap.) was one of the first settlers, and for many years the only clergyman in town.

This town is the smallest in the County, both in extent of territory and population. In 1865 the population was 814, and its area 13,000 acres.

There are five school districts, and ten teachers employed. The whole number of pupils in 1867 was 227, and the average attendance 95. The amount expended for school purposes was \$1,220.65.

WEST UNION was formed from Greenwood, April 25, 1845. It is the south-west corner town of the County. Its surface is a broken and hilly upland, and the highest summits are from 2,000 to 2,400 feet above tide. Large forests still remain standing in the town. Bennett's Creek is the principal stream; it flows north through the town near the center. The soil is a heavy slaty loam. Lumbering is extensively carried on.

Rexville (p. v.) contains a hotel, a carriage shop and three stores.

Wileysville (p. o.) is a hamlet.

West Union is a post office.

The first settlement was made in 1822, by Abraham N. Olmsted, at Rexville. The greater part of the land embraced in this town was owned in England, and by heirs under age; this was one cause of the late settlement. Fred Hauber, William Buryer and William Bray, from Delaware County, came in 1823, and located near Rexville. John Wiley, William Fisher and Benjamin Wilks settled at Wileyville in 1849.

Uriah Stevens taught the first school; Charles Rexford kept the first inn, and Walter B. Olmsted the first store, at Rexville; John Wiley built the first saw and grist mill, in 1849-50. The first church (M. E.) was formed at Rexville in 1831.

The population in 1865 was 1,382, and the area 23,000 acres.

There are ten school districts, employing ten teachers. The number of pupils is 490; and the average attendance 166. The amount expended for schools in 1867 was \$1,349.26.

WHEELER, named in honor of Captain Silas Wheeler, the first settler, was formed from Bath and Prattsburgh, February 25th, 1820. A part of Avoca was taken off in 1843, and a part of Urbana in 1839. It is an interior town lying north-east of the center of the County. Its surface is a high, rolling upland, broken by the valleys of Five Mile and Ten Mile Creeks and of several small lateral streams. The soil is a shaly and clayey loam, well adapted to grazing and tillage.

Mitchellville, in the south-east part, contains about twenty houses; and *Wheeler Center* (Wheeler p. o.) contains a church and about twenty houses.

The first permanent settlement was made in 1799, by Captain Silas Wheeler, a native of Rhode Island, but recently of Albany County. Captain Wheeler was a soldier of the Revolution; he was with Benedict Arnold in his perilous march through the forests of Maine, and at the assault of Quebec, stood near Montgomery when he fell. He was four times taken prisoner, twice by land and twice upon the high seas, as a roving privateersman. After his second capture, on the coast of Great Britain, he was confined in jail at Kinsale, Ireland, and condemned to be hanged as a pirate. He escaped by the aid of a friendly Irishman, and of the distinguished orator and statesman, Henry Grattan. Mr. Grattan procured for him a passport, protected him from press gangs and the police, and secured for him a passage to Dunkirk, in France. Captain Wheeler's first trip to mill is worthy of record, as it gives an insight into the hardships and privations of the new settler. There were at this time three mills in the neighboring towns, viz: at the Friend's Settlement, at Naples and at Bath. The mill at the last named place had suspended operations, for the reason that there was nothing to grind. Capt. W's first business was to make a cart, which he did after the most primitive style. The wheels were sawn from the end of a log of curly maple; the box was made to correspond; and with a yoke of oxen attached to this vehicle, he started for Naples. Two pioneers went before with axes to clear the road, while the Captain, with his bovine vehicle, bouncing over logs and stumps, and floundering through the bushes, followed. The first day's march was six miles, the second brought them to their place of destination. Captain Wheeler was famous throughout all the land for his anecdotes, and many an otherwise weary hour has been beguiled by listening to his adventures. He died in 1828, aged 78.

Nathan Rose, William Holmes and Turner Gardner settled in the town in 1799, and Col. Jonathan Barney and Thomas Aulls in 1800. Philip Martle, Otto F. Marshall, and others named Bear, Fervol and Rife, were among the early settlers. The "Gulf Road" to Bath was opened by Capt. Wheeler, and the "Kennedyville Road" was opened a year or two afterwards.

The first birth in the town was that of William, son of Jonathan Barney, Nov. 1st, 1801; and the first death was that of the same child, December 1st, 1802. Hon. Grattan H. Wheeler was a party to the first marriage. Captain Wheeler built the first saw-mill, in 1802, and George W. Taylor the first grist-mill, in 1803-4. John Beals kept the first inn, in 1820, and Cornelius Younglove the first store, in 1835. The first school was taught by Uriel Chapin. Rev. E. Eggliston (Bap.) was the first preacher.

The population in 1865 was 1,297, and the area 28,000 acres.

The number of school districts in the town is eleven, employing twenty-one teachers. The whole number of pupils is 356, and the average attendance 143. The amount expended for school purposes in 1867 was \$2,029.78.

WOODHULL, named in honor of Gen. Nathaniel Woodhull, of the Revolution, was formed from Troupsburgh and Addison, Feb. 18, 1828. A part of Rathbone was taken off in 1856. It is the central town on the south border of the County. Its surface is a hilly upland, a large extent of which is still covered with forests. The principal stream is Tuscarora Creek, which flows east through the northerly part of the town. The soil is a clayey and gravelly loam. Lumbering is carried on to some extent.

Newville (Woodhull p. o.) is situated on Tuscarora Creek, and contains three churches, four stores, a tannery, three wagon shops, and several other mechanics' shops.

Hedgesville is a hamlet.

The first settlement was made in 1805, by Stephen Dolson, Daniel Johnson, Patrick Breakhill, Bethuel Tubbs and Samuel B. Rice. Caleb Smith settled in the town in 1808.

The first birth was that of Polly Smith; the first marriage that of Levi Rice and Cynthia Tubbs, and the first death that of Benjamin Tubbs. Caleb Smith built the first gristmill, in 1805; Ichabod S. Leach kept the first inn, and Josiah Tubbs the first store. The first school was taught by Abner Thomas. The first church (Pres.) was organized in 1830; and the Rev. Mr. Pomeroy was the first pastor.

The population of this town in 1865 was 2,130, and its area 33,000 acres.

There are sixteen school districts, employing thirty-four teachers. The whole number of pupils in 1867 was 841, and the average attendance 278. The amount expended for school purposes the same year was \$3,065.39.

BIOGRAPHICAL SKETCHES.

CHARLES WILLIAMSON.

CHARLES WILLIAMSON was a native of Belgray, in the County of Dumfries, Scotland. He enlisted in the British army early in life, and during the American Revolution held the commission of Captain in the 25th Regiment of foot. The regiment was ordered to America, but the vessel upon which it embarked was captured near the Atlantic coast by a French privateer, and Captain Williamson was carried to Boston, where he remained a prisoner until the close of the war. He then married, returned to Scotland, made the tour of the Continent, and returned to England. Here he made the acquaintance of some of the leading men and statesmen of England, and his knowledge of American affairs, together with his expressed desire to return hither, pointed him out as a suitable person for agent of the London "Association," just organized for the purchase and settlement of lands in America. The "Association" was generally known in America as the "Pulteney Estate." He sailed for this country, accompanied by two intelligent Scotchmen, John Johnston and Charles Cameron, as assistants. Northumberland, Pennsylvania, was the headquarters of his correspondence during the preliminary arrangements to the settlement. From this place a road was opened through the forest, via Blossburgh, thence down the Tioga to Painted Post; thence up the Canisteo to Hornellsville; thence to Dansville, and down the Canascraga to Genesee River. The attempt to establish a German Colony at the last named place proved a failure. In 1794, when the British Governor of Canada threatened to drive out the settlers in Western New York, Mr. Williamson received the commission of Colonel from the Governor of New York. He was elected a member of the State Legislature in 1796, and for three succeeding years; and for

ten years exerted a greater influence over Western New York than almost any other man. At the close of his agency, in 1801, Col. Williamson returned to England, but afterwards visited America occasionally. He died in 1807, while on a mission from the British Government to Havana. Col. Williamson was a man of spirit, energy and great versatility of talent. Prepossessing in person, easy and frank in manner, of generous and friendly disposition, he readily won the hearts of the young pioneers who opened his roads, felled his forests and erected his buildings. He could easily adapt himself to the circumstances of all men, and was welcomed alike to the palace of the peer and the cabin of the backwoodsman. He is described as "dark of feature, tall, slender and erect of figure. His habits were active, and he pleased the foresters by vaulting lightly to his saddle, and scouring the woods at full gallop." One of the early settlers, and an influential man in the County, says, "He was a gentleman in every sense of the word. He was well qualified for the duties conferred upon him as agent of such an immense estate, and for the settlement and growth of a new country, so long as Sir William Pulteney would furnish the means to improve it."

GEN. GEORGE McCLURE.

GEORGE McCLURE, one of the early settlers of Steuben County, was born in the north of Ireland in 1770. His ancestors were "Scotch Covenanters," who emigrated from their native country to escape the cruel persecution to which they were exposed. From the age of four years till he was fifteen, he attended school, and then learned the trade of a carpenter. At the age of twenty he resolved to come to America, and soon after embarked on board the ship *Mary*, of Londonderry, for Baltimore. After a quick and pleasant passage of five weeks, he landed in Baltimore, his whole property consisting of "three suits of clothing, three dozen linen shirts and a chest of tools." He commenced work at his trade the next day after landing, and worked two months for seventy-five dollars. This he thought a good beginning, and "better than to have remained in Ireland, and worked for two shillings and sixpence a day." Desiring to see more of the land of liberty, he started on foot to visit some relatives near Chambersburgh, Penn., leaving his baggage to be sent by the first opportunity presented. There were no stages at this time except between large places, the trade of the backwoods being carried on by pack-horses. He remained in the vicinity of Chambersburgh till the spring of 1793, when he discovered an advertisement signed by Charles William-

son, offering steady employment and good wages to mechanics and laborers to go to the "Genesee Country." Mr. McClure immediately set out for Northumberland, but on his arrival learned that Captain W. had started with a company to open a road through the wilderness to his place of destination, 140 miles distant. McClure had an uncle near Northumberland, at whose house he remained until he heard of Williamson's arrival at Bath. Having persuaded his uncle to accompany him, they started, each mounted on a good horse, with "provisions enough for a four weeks' journey." They had traveled about twenty miles when they arrived at a stream so swollen by recent rains that it was impossible to ford it. The uncle was faint-hearted, and declared he would go no further. At length a canoe was discovered, and they decided to cross in that and let their horses swim by its side. The passage was made in safety. Other similar difficulties presented themselves, but all were surmounted, and in due time they arrived at Bath. For a time he was employed to work at his trade by Col. Williamson, but afterwards engaged in various enterprises, some of which are mentioned in connection with the towns in which they were located. There was scarcely any branch of business in which he did not engage with greater or less success. During the war of 1812-15 he held a commission of Major General, and was in active service. He held most of the offices of the County at different times, being Justice of the Peace, Judge of the Court of Common Pleas, Surrogate and High Sheriff. He was Post Master of Bath for about eight years, and for three years in succession represented the people of Steuben in the State Legislature. In 1834 he removed to Elgin, Illinois, where he resided till his death in 1851.

BENJAMIN PATTERSON.

One of the characters of Steuben County from its earliest settlement, was BENJAMIN PATTERSON. He was born in Loudon County, Virginia, in 1759. His mother was a cousin of Daniel Boone, the first settler of Kentucky. Early in life he removed to Pennsylvania, and here, amidst its wilds, formed a taste for hunting and the exciting life which he afterwards followed. During the Revolutionary war he served in a rifle corps, organized for the defense of the border, and in this service met with many exciting adventures. Sometimes he was scouting among the most fearless; sometimes skirmishing in the forests with the wily savage, and

sometimes acting as guide to travelers and emigrants in the wild woods of the Genesee. For many years his home was near Northumberland, on the west branch of the Susquehanna; but the advent of farmers, the clearing of land and the destruction of game, induced him to leave those haunts for the more congenial ones of the deeper forest, where he would not be disturbed by the woodman's ax. In 1796 he boated his goods up the river to Painted Post, and kept for seven years the old tavern at Knoxville. He then moved up two miles above Painted Post, to a farm, which the first year produced a crop of "twenty-two wolves, nine panthers, a few bears, deer, shad and salmon in countless numbers." He possessed great physical strength, and was never worsted in a hand to hand encounter. It is related that a party of Indians, with a few white men, had gathered around a fire, near the Genesee, when the savages began to insult and abuse a white man who stood by, and presently threw him into the fire. He scrambled out, and was again thrown into the fire by the Indians. Patterson, a stranger to them, standing near, sprang forward and dragged the man from the fire, saying "Don't burn the man alive!" Several of the party then stepped forward and assaulted the hunter, but turned him over to Jones, the interpreter, who was supposed to have no equal in a rough and tumble fight. Jones was badly beaten, and kept his wigwam for several days. Patterson retained to old age a love for the sports of his youth, and found his chief pleasure in their pursuit. When attending Court at Bath, as a jurymen, he was in the habit of going out early in the morning and shooting a deer before breakfast. When an old man, and living upon his farm upon the Tioga, and game was becoming scarce, he was accustomed to lay aside his rifle every year when he had killed a hundred deer. He was a man of keen observation, of remarkable memory, of good judgment, intelligent, and of strict integrity. He possessed great powers of narration, interesting not only the rough frontier men, but the educated and refined. The late Chief Justice Spencer once met him, and was so interested in his conversation that he sat up all night to listen to his narrations, and afterwards, whenever he was holding Court at Bath, would send for Patterson, provide for him at the hotel, and pass as much time as possible with him when off the bench. Patterson died at Painted Post, in 1830.

COL. IRA DAVENPORT.

COL. IRA DAVENPORT was born at Spencertown, Columbia County, N. Y., September 29th, 1795. At the age of fourteen he went

to Harpersfield, Delaware County, to act as clerk in a store in which his father had an interest. Here he remained till 1815, the 21st year of his age, when he commenced business for himself. With a single wagon load of goods, he drove three hundred miles, to the little backwoods village of Hornellsville, built a store with his own hands and commenced the sale of the merchandise brought with him. Col. Davenport remained in business at Hornellsville, engaging in all the business enterprises of the times, till 1847. He had stores at Baker's Bridge, Angelica, Burns, Canisteo, North Almond, Hammondsport, Dansville, Almond, Independence, and was also a partner in a mercantile house, and in a coal company in New York. He was also largely engaged in running lumber and arks down the river from Hornellsville. In 1847 removed to Bath and there resided till his death, May 2d, 1868. While in life he was known as an enterprising and successful business man; he will be known to posterity as the founder of the "Davenport Institution for Female Orphan Children." He began to erect a building designed for children of this class in 1861. In 1863 the corporation was organized, and July 19th, 1864, the first orphan was received into the Institution. Col. Davenport conveyed to the Corporation sixty-five acres of the Cameron farm, in the village of Bath, with the main building of the Institution, which cannot be valued less than \$75,000. Besides this he endowed it with funds to the amount of \$100,000, to which his brother, Mr. Charles Davenport, added \$30,000. Additions to the building are already in process of erection. By his will, Col. Davenport left the further sum of \$50,000 to the Institution, making in all \$225,000 for the support of orphan girls.

We clip the following from an article in the Knickerbocker Magazine, showing the characteristics of some of the early magistrates of the County:

"Among them was a jolly old Virginian, Judge H——, a sportsman of the old school of buff breeches and fair top-boots, well known throughout the country for genial habits and generous hospitality. He had been appointed a Judge of the Court of Common Pleas. Though little versed in legal technicalities, he possessed a fund of genuine common sense, which made him a good Judge. On one occasion, in the absence of the first Judge, it fell to him to charge the Grand Jury. The substance of the charge, so characteristic of the man and of his opinions, is here given:

Gentlemen of the Grand Jury:—In the absence of the first Judge, it becomes my duty to address you. If you expect much of a charge, you will be disappointed, as it will be nothing but a squib. I see among you many gentlemen who understand the duties of Grand Jurors much better than I do. I need only say, then, you know your duties, go ahead and perform them. The Sheriff has handed me his criminal calendar, by which it appears he has five poor devils in jail for various offenses; two of them are for horse-stealing. Now, gentlemen, there are grades in crime, and common sense would indicate that the punishment should be in proportion to the criminality of the offense, as exhibited by the circumstances of each case. That I suppose is the law; if it is not, it ought to be so. You will understand what I mean by this, when I inform you that one of these scamps stole a slab-sided Yankee mare, while the other took a Virginia blood-horse. Two others are indicted for mayhem. One of them for biting off a negro's nose, which I think exhibits a most depraved appetite; the other for gouging out an Irishman's eye, a most ungentlemanly way of fighting. I hope you will look well to these fellows. The last is a poor cuss who stole a jug of whisky. The article is so plenty and cheap that it may be had by asking, anywhere, and stealing it is the meanest kind of offense, and deserves the severest punishment that the law will permit. The great men at Albany have made it our special duty to charge you in regard to private lotteries. What is the mighty crime involved in this business I cannot see, when hustling and pitching coppers is tolerated; but I suppose they know, and as the law makes it our duty, I charge you to look out for them. Sheriff, select two constables, and march these men off to their duties.'"

STEUBEN COUNTY BUSINESS DIRECTORY.

EXPLANATIONS TO DIRECTORY.

Directory is arranged as follows: 1. Name of individual or firm. 2. Post office address in parentheses. 3. Business or occupation.

A Star (*) placed before a name, indicates an advertiser in this work. For such advertisement see Index.

Figures placed after the occupation of *farmers*, indicate the number of acres of land owned or leased by the parties.

Names set in CAPITALS indicate subscribers to this work.

For additions and corrections see Errata following the Introduction.

ADDISON.

(Post Office Addresses in Parentheses.)

- | | |
|---|--|
| Abeel, Miss A., (Addison,) milliner, Tuscarora st. | BALDWIN, HENRY, (Addison,) (<i>Darrin & Baldwin</i> ,) dealer in all kinds of lumber, also real estate, office Baldwin Block. |
| *ADDISON ADVERTISER, (Addison,) Johnson & Roberts, editors and proprietors. | BALDWIN, HORACE D., (Addison,) attorney and counselor at law, (and notary public. |

Aber & Stewart,

Manufacturers of all Kinds of

EDGE TOOLS.

This old, well known and reliable firm is located at

BATH, STEUBEN COUNTY, N. Y.,

Between the village and Cook's Mills, where they have been doing business for the last 20 years in the manufacture of Edge Tools, together with general **Blacksmithing**. Their Tools are justly celebrated for their fine quality and even temper, as hundreds in this County can testify. And in the line of Blacksmithing they cannot be excelled; especially in **Fancy Horse Shoeing**, to which they pay especial attention. Work warranted and charges reasonable.

T. I. ABER,
Residence 60 Main St.

ROBERT STEWART,
Residence 41 Morris St.

Dodge & Lord,
Manufacturers of
MELODEONS
AND
REED
Organs,

Of every description and in the various styles of finish, and containing all modern patent improvements known to the trade, such as TREMOLO, SUB BASS, COMBINATION VALVE, PATENT KNEE SWELL AND OCTAVE COUPLER. Styles adapted to the **PARLOR, SCHOOLS, CHURCHES, LECTURE ROOMS AND LODGES**, and containing from one to four Sets of Reeds, or more, as desired.

The usual discount to clergymen, churches and the trade. Also retail customers will here find the advantages of cheapness of material and light expenses, as compared with those of city manufacture. All work warranted first-class, and for a term of FIVE YEARS. Factory, Hintermister Block, 21 State St., opposite Watkins' Exchange,

THE OLD

ESTABLISHED

PHOTOGRAPH GALLERY,

112 Main Street,
Hornellsville, New York.

WM. L. SUTTON, Proprietor.

The fact that the above Establishment has been in successful operation for the last twelve years, is a sufficient guarantee that all work executed by him or his assistants will be of a superior style, and as good as can be done in the country. Satisfaction guaranteed in every case. Particular attention given to copying and enlarging old pictures into Photographs. In fact, all kinds and styles of pictures known to the Art, made at the above Gallery. All are invited to call and examine specimens of his work, whether they wish to purchase or not.

W. L. SUTTON.

Fairchild Bros. Celebrated Grape Box.

Highest Prices obtained for Grapes shipped in this Box. Recommended by all Grape Growers who have used them, and Commission Merchants who have handled them, to be the best Package in use.

ADDRESS

FAIRCHILD BROS.,

Hammondsport, Steuben Co., N. Y.

RECOMMENDATIONS.

Commission House of JOHN C. DAVIS, No. 5 Erie Buildings, and 288 Duane St., }
NEW YORK, July 13, 1867. }

Messrs. FAIRCHILD BROS.:—*Gents*: We would recommend to all *Grape Packers* to secure *your style* of package in preference to any other now in use, as the most desirable one for our market, it being neat, light and the best for transportation. It also takes the preference for the retail trade and shipping abroad. Our experience would suggest Pine as the best material for making the boxes; it should be well seasoned to prevent mould. Yours Truly,

JOHN C. DAVIS & CO.

Office of C. W. IDELL, Fruit and General Produce Commission Merchant, }
West Street, Foot of Dey, NEW YORK, June 4, 1866. }

Messrs. FAIRCHILD BROS.—*Gentlemen*: Permit me to congratulate you on the invention of your five pound Grape Box. In eighteen years experience in the market I have never met with a box that gave such general satisfaction. They are neat, cheap, and give general satisfaction to both wholesale and retail dealers. Last season I sold about eighteen tons of grapes in your boxes, and sent them to several Eastern and Southern cities, and in no single instance did they fail to give satisfaction.

Yours Truly,

CHAS. W. IDELL.

Dentistry.**Music.****DR. M. H. WILCOX,****SURGICAL & MECHANICAL DENTIST.**

All operations performed in the most skillful manner. Particular attention paid to preserving the Natural Teeth, by treating and filling with great care. Teeth extracted without pain, by using Nitrous Oxide, or Laughing Gas, Chloroform or Ether.

Plate work of all kinds carefully made.

All work is fully warranted to give satisfaction. Dr. Wilcox is an old established Dentist, and feels confidence in offering his services to the inhabitants of Corning and its surrounding towns.

Dr. Wilcox also deals extensively in **MUSICAL INSTRUMENTS** of all kinds, being agent for Chickering's, Steinways, Hains Bros., and Decker Bros. Pianos, Mason & Hamlin, Shoninger & Hintermister's Organs and Melodeons.

Has Pianos, Organs and Melodeons to rent, and rent allowed if the Instrument is purchased. Also sells Instruments upon monthly or quarterly installments. Persons wishing to buy will do well to call and see me before purchasing elsewhere, as I can make them very liberal terms.

Office on Market St., opp. the Dickinson House, Corning, N. Y.

M. H. WILCOX, Surgeon Dentist.

DAVID S. WAGENER,**PULTENEY, STEUBEN CO., N. Y.,**

DEALER IN ALL KINDS OF

**GRAPE VINES,**

ONE AND TWO YEARS OLD,

WARRANTED GENUINE VARIETIES**AND OF BEST QUALITY.**

PRICES EXTREMELY LOW. Liberal deduction to Trade to Purchasers of large quantities. I have a splendid assortment of the best varieties, and particularly the IONA and ISRAELLA.

NEW DRUG STORE!

A Druggist of over ten years experience would respectfully announce to the people of Hornellsville and surrounding country, that he has opened a Drug Store at No. **95 LODER ST.**, where can be found a select Stock of **DRUGS, MEDICINES, PERFUMERY & STATIONERY**, which were bought for cash and will be sold for the same. We shall expose for sale none but the purest and best Drugs and Medicines, **WINES & LIQUORS**, (for Medical and Sacramental purposes.) A complete stock of **DYE WOODS AND COLORS, POPULAR PATENT MEDICINE, AND DRUGGIST'S ARTICLES GENERALLY.** Believing that nothing impure in the Drug line should be sold, we shall offer none but the purest and best of goods, and hope by honest and fair dealing, and attention to business, to merit a share of public patronage.

R. E. HARRIS.

A SPECIALITY

THE SENECA BLACK CAP,

AND

Davison's Thornless Raspberries.

Waterloo, N. Y., 1868.

The undersigned who is the one who first introduced the Seneca Raspberry to the public, will now be prepared to furnish No. One First Class Plants, of Senecas and Davison's Thornless, which are to be the leading Raspberries and should go together.

The THORNLESS is early, ripens a trifle earlier than the Doolittle; the SENECA ripens about two weeks later than THORNLESS, which makes the season complete in the berry line.

All wishing good, first-class plants of these two valuable berries, can rely on me for them, as I will send out no poor plants.

Send stamp and get my prices, when issued next fall.

My soil enables me to grow plants equal to any grown in the country, and they are pronounced No. One, by reliable dealers. Yours Truly,

WARREN WIGHT,

Waterloo, Seneca Co., N. Y.

P. S.—Write your name very plain, that there may be no mistake, and send early.

RETAIL RATES.

SENECAS—\$75 per 1000. \$10 per 100. \$2 per doz.
DAVISON'S THORNLESS—15 " 100. 3 " doz.

Commission, Orders Solicited.

Office in my New Warehouse, near the
Erie Railway Depot.

W. H. PURDY & CO.,

MUSIC DEALERS,

19 Liberty St.,

BATH, N. Y.

W. H. PURDY.

D. W. GATES.

HAYDEN BROS., RETAIL WOOLEN MILLS,

PORT BYRON, N. Y.

ESTABLISHED IN 1824.

Is the most successful establishment of the kind in the State. Every yard is warranted to be wrought from **Pure Wool**. No waste, shoddy or shearings were ever used in the manufacture of our goods.

Parties wanting **Cassimeres, Tweeds, Grays, Ladies' Cloths, Flannels, &c.**, of a superior quality, should order directly from the Mill.

Samples sent when required.

SYRACUSE STORE, 29 WARREN STREET.

Thomas Davison, dealer in Boots, Shoes, Leather and Findings, 22 Liberty street, Bath, N. Y., advertises on page 138. Mr. Davison is an enterprising business man, selects his stock and gives his personal supervision to its manufacture. If you want a *good article* call on Davison and he will certainly give you *fits*.

The Empire House, at North Cochocton, N. Y., has been thoroughly refitted and newly furnished and is in every respect a comfortable place for the weary traveler. Mr. Melvin Wilkinson, the proprietor, is a landlord who anticipates the wants of his guests and will see that they are supplied. See card on page 138.

PUBLISHER'S NOTICES.

Dr. Wm. R. Hunter, Surgical and Mechanical Dentist, Jasper, N. Y., publishes a card on page 190. Those who are so unfortunate as to lose the teeth which nature has given them can here be supplied with any desirable pattern. Dr. Hunter will spare no pains to render his work satisfactory.

J. E. Seeley, M. D., Homeopathic Physician and Surgeon, 155½ Main street, Hornellsville, N. Y., publishes a card on page 190. Those who prefer that system of practice will find Dr. Seeley able to treat them in the most satisfactory manner, and ready at all times of night or day to minister to their necessities. Give him a call.

The Corning Democrat is published at Corning, Steuben Co., N. Y., by Frank B. Brown and Daniel E. De Voe. It has an extensive circulation in Steuben and adjoining counties and advocates the principles of the Democracy with an able pen. The *Job Office* in connection with the paper, contains a good assortment of materials for executing all work intrusted to its enterprising proprietors. See card on page 142.

R. S. Curtis, dealer in Furniture and Undertaker, No. 59 Main street, Hornellsville, N. Y., publishes a card on page 154. Mr. Curtis keeps constantly on hand a large and elegant assortment of furniture for the parlor, chamber or kitchen, which he will sell at reasonable prices. Everything usually found in a first-class undertaking establishment is kept constantly on hand. Mr. Curtis has an elegant Hearse which will be furnished to order. Give him a call.

W. N. Ormsby, dealer in Groceries and Provisions, Troupsburgh, N. Y., advertises on page 190. His stock of family groceries is large and of such a quality as to give general satisfaction. Give him a call; you cannot do better. Mr. O. is also a general Insurance Agent.

Mrs. O. R. Jenness, Fashionable Milliner, Market street, Corning, N. Y., keeps constantly on hand a general assortment of the most fashionable goods which she will sell at reasonable rates. Hats and Bonnets cleaned, dyed and altered to the latest styles. Call and see for yourselves. See card on page 190.

David S. Wagener, dealer in all kinds of Grape Vines, Pulteney, Steuben Co., N. Y., advertises on page 208. Mr. Wagener has a fine assortment of the best varieties of Vines, and of the best quality, which he will sell at prices to suit the times. Those who purchase of him may rely on getting the article represented, as all are warranted genuine. He has a splendid lot of Iona and Israella, which are favorites of some. Give him a call and raise for yourself a supply of this luscious fruit.

Wm. L. Sutton, the proprietor of the well known Photograph Gallery at 112 Main street, Hornellsville, N. Y., advertises on page 198. This establishment has been in successful operation for twelve years, and thousands can testify to the excellence of his pictures. Mr. S. is prepared to take pictures in all styles, and guarantees satisfaction in all cases. Call and see his assortment whether you wish pictures or not.

Fairchild Brothers advertise their celebrated Grape Box on page 198. This box is acknowledged by those who have used it to be far superior to any other in use. It is light, neat and the safest for transportation. For particulars see card and address Fairchild Brothers, Hammond's Port, Steuben Co., N. Y.

Howell & Barron, dealers in all kinds of Hardware, 18 Liberty Street, Bath, N. Y., keep a large and well selected assortment and do the heaviest business of any Hardware Store in town. They have the exclusive sale of the celebrated American Cooking Stove, Littlefield's Base Burning Morning Glory, for coal, and Lane's Base Burning Parlor Stove, for wood. These stoves are unsurpassed by any now in use, and the rapid sales indicate that they are everywhere appreciated. Messrs. Howell & Barron are honorable men and will deal fairly with all their customers. See card on page 200.

Dr. M. H. Wilcox, Surgical and Mechanical Dentist, Corning, N. Y., is prepared to perform all work in the best manner. Particular attention paid to filling teeth and preserving them. Artificial teeth, from one to a full set, inserted and warranted to give satisfaction. Dr. Wilcox keeps a general assortment of Musical Instruments on sale and to rent. Give him a call. See card, page 200.

The Addison Advertiser, published at Addison, Steuben County, N. Y., has an extensive circulation in Steuben and the adjoining counties in Pennsylvania. Its columns are filled with local and general news, and offers inducements to subscribers or advertisers not surpassed by any papers in the County. Messrs. Johnson & Roberts will make the paper worthy of an extensive patronage. See card, page 204.

Harris C. Sawyer, Druggist, and News Dealer, 95 Loder street, Hornellsville, N. Y., keeps a choice variety of drugs, medicines, and all the articles usually found in a first-class Drug Store. Mr. Sawyer has had an experience of more than ten years, and thoroughly understands his business; and those who favor him with their patronage will find him an honorable and reliable man. His card appears on page 208.

WILLIAMS, GEORGE H., (Woodhull,) farmer 125.

 Wood, Theodore, (Woodhull,) farmer 66.
 Youngs, Robert W., (East Woodhull,) farmer 108.

PUBLISHER'S NOTICES.

The Empire Stump Machine, Johnson & English, proprietors, Corning, N. Y., possesses many advantages over all other machines heretofore invented. It is simple in construction, light and durable, and is easily operated. Those who have used the machine speak in the highest terms of its capabilities, and, in unmistakable terms, recommend it as superior to all others in use. It is easily moved from place to place, and can be used on uneven ground with little difficulty. The first premium was awarded to this machine by the N. Y. State Fair of 1867, and was endorsed by the American Institute Farmers' Club, in 1868. See cut of Machine on page 265.

W. H. Purdy & Co., Music Dealers, 19 Liberty Street, Bath, N. Y., publish a card on page 252. They keep a great variety of music and musical instruments which they will dispose of at prices to suit the times. Give them a call and you will test the truth of our statement.

The Dickinson House, at Corning, Steuben County, N. Y., has for many years been the popular home of the traveler. Notwithstanding its wide-spread popularity, its present proprietor, George W. Fuller, still maintains the reputation of the house by his friendly greeting and his ever watchful care for the welfare of his guests. His father, D. A. Fuller, Esq., who has had many years experience as a landlord, is also connected with the hotel, while his younger son officiates as clerk. Take the *Fullers* together as managers, no duty will be overlooked and no guests will fail of receiving proper attention, but will be made to feel at home. This House, for comfort and convenience, is unsurpassed by any in Western New York. It is located near the center of the village, a short distance only from either Depot, and a porter is always on hand to convey baggage to and from the Hotel free of charge. That the entire Fuller family may long retain their present popularity is the desire of all. See card, page 154.

G. F. Case, Physician and Surgeon, Pultney, Steuben Co., N. Y., publishes a card on page 128. Doctor Case is ready at all times of the day or night to answer the calls of the afflicted and will take great pleasure in relieving their distresses. Give him a call if you must have a doctor.

Q

The great Dry Goods House of **J. C. Robie & Co.** is a continuation of the oldest and best known House in Steuben County. The senior member, R. Robie, commenced business in 1820, and, although he has made changes since that time, yet by strict attention, fair and honest dealing, he has maintained the foremost rank among the merchants of the country. During the panics of the last 40 years this House has maintained itself and its integrity, which many others failed to do. For a few years past the business has been conducted by his sons, who have kept up the good reputation of former years. We need not comment on the amount of business that this House does every year, but a reference to their card on page 64, will satisfy any one that they stand second to none in Western New York.

C. E. Myers, of the Hornellsville Gallery, No. 151 Main street, corner of Canis- teo, has fitted up rooms in superb style, where he is prepared to take pictures of all sorts and sizes in a manner to suit customers. A visit to his rooms will pay, even if you do not wish your picture taken. We cheerfully recommend all in want of pictures to give him a call, and if he cannot suit them they must be hard to please. His card appears on page 63.

The Corning Journal, published by G. W. Pratt, was established more than twenty years ago, and under its present able management is growing in favor and popularity. In connection with the *Journal*, the proprietor has one of the most extensive job offices in the County, where he is prepared to execute all work intrusted to his care in the best style of the art. Call at the *Journal* office for posters, business cards, bill heads &c. See card on page 124.

Messrs. M. S. & R. E. Harris, Hardware dealers, Cohocton, Steuben Co., N. Y., publish their card on page 224. They are an enterprising firm of young men, thoroughly understanding their business in all its branches. Careful management, enterprise, an interest in the wants of their customers, a large assortment of goods and low prices, have built them up an extensive and permanent trade in the short space of two years, and given their store an enviable reputation among the older establishments of the kind in the county.

ABSTRACT FROM CENSUS REPORT OF 1865.

REASONS FOR BUYING ALL
MUSICAL GOODS

At the Wholesale Music Store of
REDINGTON & HOWE,
 No. 2 Wieting Block, Salina St., Syracuse, N. Y.

1st.—Purchasers find in our store much the largest stock of Piano Fortes, Organs, Melodeons and Musical Merchandise to be met with any where in the State, outside of New York City. We offer another advantage: New York City Houses keep only one Maker's instruments or their own. Here you see eighteen.

2d.—You can see the instrument you wish to buy, and know exactly its tone. Persons at their homes are often in doubt whether to buy a Piano, Organ or Melodeon. There are always great varieties in tone and finish.

3d.—You can compare each instrument with those of several other makers, thereby judging what will suit you best.

4th.—You will find *first class* instruments. We are no experimental manufacturers. We select our entire stock from good reliable makers who are not ashamed to own their work, and will not allow the name of a dealer to be placed on their name boards as the manufacturer. We have no interest in any factory and no reason to recommend any instrument except for its reliability.

5th.—We have experts in each department to test *thoroughly* all goods we sell. The purchases we make are only of instruments selected expressly for our trade.

6th.—We warrant perfect satisfaction to every purchaser. We have always done this through a successful business experience of twelve years before coming to Syracuse.

7th.—As we buy much more largely than any other House in the State, we buy cheaper. We give our customers the benefit of this. You save money.

8th.—We have the best wholesale facilities, so that we supply all classes of dealers at the lowest New York and Boston prices. We have the only *Wholesale Agency* for the Steinway Piano Forte in Central or Western New York. We can of course, retail at the lowest prices.

9th.—We employ only the best tuners, who will see to the reliability of instruments after they leave our Ware Rooms. Our traveling agents will also assist in caring for instruments.

10th.—If you want *low priced* instruments, you will find them here cheaper than elsewhere. We can sell you at a profit and charge you only what the retail dealers *pay* for their goods.

11th.—Our buying facilities enable us to purchase a lower grade of instruments of large Eastern Factories, (which manufacture from two to four hundred instruments per month,) at a less price than the actual first cost of constructing the same, at any factory (Piano, Organ or Melodeon) in Central New York.

12th.—Our speciality is *first-class* goods. On no other can we maintain permanently our large business. We shall tell you therefore, candidly, the grade of instruments, if we offer you any other than first quality.

13th.—We can furnish you unequalled opportunities for exchanging instruments; new for new, or old for new.

14th.—The commercial standing of our house, furnishes you the strongest security for the reliability of the instruments, we, or our agents, sell you; and for the value of our warrant, (which we give you in addition to the warrant of the manufacturers.)

15th.—You are cordially invited to call at any time and examine and hear the instruments, (players always in attendance,) whether desiring to buy or not. Come and see for yourselves what are the best instruments. Or write to

REDINGTON & HOWE, No. 2 Wieting Block,
Opposite Main Entrance to Syracuse House.

NOTICES OF THE PRESS.

(From The Syracuse Daily Standard.)

The Mammoth Musical Emporium of Redington & Howe.

For some time we have designed an account of this immense establishment, that our readers might be posted in regard to one of the leading business establishments of our city, and which has been brought so rapidly to magnitude by the well directed tact and indomitable energy of its proprietors.

The store No. 2 Wieting Block, is one of the largest and most elegant on the main thoroughfare, and right in the very centre of the business part of the town. As we pass along the street, and more especially on entering the store, the eye is attracted by the elaborate and tastefully arranged exhibit in the show window of all the smaller class of musical instruments, &c., that make as an attractive a display as any window on South Salina Street. As we enter, glancing to the right, the eye quickly runs over a large array of Guitars, Violins, and all varieties of musical instruments and wares, on shelves, hanging up, and in cases. Upon the counter of this department is a Burdett Reed Organ, in a most elaborately carved case, worth \$1,500. It is a beauty. Next, upon the same side, we come to a long counter, behind which the shelves are loaded with Sheet Music. Prof. T. H. Hinton super-adds this department; the best guarantee that the assortment is not only well selected but complete. The opposite side of the store is crowded with Steiway and Dunham Pianos, the sides being lined with the unequalled Vox Humana Organs; with a large variety of Piano and Melodeon covers, and stools added above.

Passing by the center arch we come to rows and rows more of Pianos, Organs and Melodeons, of all varieties and styles. On the right is the department for Music Books,—a branch to which this house gives the most prompt attention. Drawers the entire length of the store (140 feet) are devoted to the storage of Violin and Guitar strings, Accordeons, Harmonicas, Piano Polish, and multitude of the different wares to be found in a complete music store, for the wholesale as well as retail trade. And still above, we find more Piano and Melodeon stools, cords of Violins, Guitars, Banjos, Drums, &c. &c. Goods are also stored in the basement—the whole size of the main store—finished and lighted for the purpose.

In glancing through this great establishment one particularly notices the large stock and *variety* of Piano Fortes, Organs and Melodeons, numbering more than fifty different kinds. The speciality of the proprietors is first-class instruments—on which the public can rely implicitly as being worthy in every way of confidence. This is an important matter for purchasers. Many dealers do not hesitate to tell buyers that second grade instruments are first class. Sometimes small dealers are really ignorant of what is a first class instrument. Others are themselves manufacturers of second quality instruments, and of course are bound to call their own as good as any made. Sometimes, also, they sell second and third rate goods as first grade for outrageous profits, calculating on only a brief business career in each place they visit. We say then, be careful to buy first class goods, and at a house where they are sure to have such.

Messrs. Redington & Howe, in a twelve years business history, have earned an unblemished reputation for giving perfect satisfaction to their customers. This they accomplish by *knowing* that everything sent out by them is exactly what it is represented to be. Besides, they are independent of any particu-

lar factory, and therefore the better fitted to judge between different makers. While R. & H. make a speciality of first class goods, they are enabled through their great advantages in buying, to sell second and third grade instruments at cheaper rates than any house in Central or Western New York. They buy at the large factories east, at a price actually less than the small makers can manufacture. The proof of the matter is in the trying. We say, go to Redington & Howe's and see what their facilities are. Their establishment is well worth a visit, even if one does not wish to buy anything. All will be made welcome.

(From the Syracuse Daily Courier and Union.)

THE IMMENSE MUSICAL ESTABLISHMENT OF REDINGTON & HOWE.—The enterprising wholesale Music Dealers of our city, Messrs. Redington & Howe, have just closed a most successful business year. Their sales have been immense—something entirely unparalleled in the history of the Music trade in Central New York. They have deserved their increasing success. Their store is the most magnificent emporium between New York and Chicago. Their stock would supply a dozen ordinary city music stores. There is the only strictly wholesale Music House in the State outside of New York City. They have even some advantages over the Metropolitan houses. Our Syracuse wholesale store keeps constantly on hand, the Pianos; Organs and Melodeons, of several different makers, (a total of eighteen, with over fifty different varieties,) while New York houses keep only one maker's instruments. Besides, business expenses are much less in Syracuse than in New York; consequently Redington & Howe are diverting much wholesale trade from New York, and building up for themselves a mammoth business in supplying *dealers*. The question is sometimes asked, whether other dealers cannot buy in New York, as cheaply as Redington & Howe. The dealers have thoroughly satisfied *themselves* that they cannot, for there is not a house in Central New York that will agree to take the great quantities of Musical Goods that Redington & Howe buy. Consequently, others *have* to buy on a higher tariff. It is on the same principle that Stewart of New York forced a neighboring house to withdraw. He could sell at a profit, cheaper than his competitor could buy. Messrs. Redington & Howe, have similar purchasing facilities. Indeed, they can justly be called the "Stewarts" of the Music trade in Central New York.

We are glad, also, to notice that Redington & Howe do a *first class* business in the Pianos, Organs and Melodeons they furnish. Their principal stock is composed of first grade instruments. These they advertise and recommend because they *know* their reliability. This house can furnish second class instruments cheaper than any other establishment in Central New York. (for the reason of buying cheaper,) so that if purchasers want a *low-priced* instrument, Redington & Howe's is the place to procure it. We advise our readers not to buy *any* instrument without first seeing or writing to Redington & Howe. They will also tell honestly the quality of the goods.

Another point: this house is financially responsible for all they recommend. Besides having the largest capital in the Music business in Central New York, they are backed up by as much more as they choose to call upon.

For everything in the musical line, go to Redington & Howe, No. 2 Wieting Block.

(From The Rochester Daily Union.)

"The House of Redington & Howe is attracting the attention of the trade everywhere, on account of their superior facilities for wholesaling the acknowledged first-class Pianos, Organs and Melodeons, as well as every variety of Musical Merchandise.

From the Syracuse Daily Journal.

They have a musical emporium second to none west of New York city. In saying this we do but simple justice to Messrs. Redington & Howe, who occupy one of the largest stores in Central New York, fitted up with an especial view to the accommodation of their rapidly increasing business. The various departments of the musical business have each received proper attention, and each is conducted with a view to meet the demands and cater to the tastes of a most fastidious public. First and foremost, Messrs. Redington & Howe have in their Piano Department a full line of the various makes of Pianos, thus restricting purchasers to no particular make of Piano, but affording them unusual facilities for the comparing of the various instruments. They have in their Organ and Melodeon Department all of the most approved instruments manufactured, and offer inducements superior to any establishment, to persons desirous of purchasing this kind of instruments. In this, as in the Piano trade, Messrs. Redington & Howe have the exclusive State agency for the sale of certain makes of Pianos, Organs and Melodeons, and all business connected with such instruments passes through their hands, thus giving them a chance to furnish at lower rates than any other establishment outside of the manufacturers.

This statement is established beyond a doubt, from the fact that the manufacturers of the best grades of instruments refuse to furnish smaller dealers with instruments as low as they do those dealers whom they designate as their wholesale agents. The fact is well known and conceded by all persons that any article can be manufactured at less cost where the manufacturers are turning out hundreds of such articles monthly than they can be made by manufacturers who make on a smaller scale. This would lead to the conclusion that this line of goods can be sold by Messrs. R. & H. at the lowest possible figures.

In the smaller instrument department their stock embraces the most complete and varied assortment ever opened in Central New York, with instruments from the various leading manufactories of this and other States. The sheet music department of this firm is one of the especial features of their trade, and to enable them to be first and foremost in the introduction of all new and popular sheet music, they have secured the services of our well known townsman, Professor T. H. Hinton, who superintends this department. His well known capability, is the surest guarantee of the manner in which this branch of their trade is conducted. In this department at all times may be found all the latest vocal and instrumental gems issued in New York, Philadelphia and Boston which will be received so as to enable Messrs. Redington & Howe to offer them to the public simultaneously with their appearance in the Eastern cities. The department of general musical merchandise has been supplied with everything pertaining in any wise to music, and which assortment they keep fully supplied.

The immense musical emporium of Messrs. R. & H. is open at all times to musicians and the public generally as a place where they can call at all hours of the day and examine for themselves the various features of a well conducted and stocked musical establishment. The acknowledged leadership in the musical business has secured for them the ticket-selling of all operas, concerts and other first class entertainments given in our city.

From the Daily Journal Oct., 24th, 1868.

SOMETHING NEW AND BEAUTIFUL.—Messrs. Redington & Howe have just received a newly patented Burdett organ, with what we should call a Fairy Bell accompaniment. By means of a stop the effect of a beautiful music box or Mandoline is added. The organ is a perfect gem—worthy of a special visit to their store.

This house is always foremost in introducing to the public in Central New York the various really valuable improvements that appear in musical

instruments. They are just as careful to reject the humbugs, and have actually declined the agency of several pianos and organs which less informed dealers here have since adopted and are trying to sell.

The immense business acquaintance of Redington & Howe, together with their high reputation in New York, Boston and Chicago, as the strongest and most energetic house in New York State (outside of the city), secures to them the first choice in regard to the agency of any manufacturers of musical instruments in the United States.

Their Mammoth trade enables them to buy cheaper than any other Central New York House, as they buy so much more largely. While their principal trade is in *first-class* articles, they are able to furnish second or third grade instruments, cheaper than the first cost of manufacture in this city. They buy of large eastern factories, which, on account of operating on a larger basis, can manufacture much cheaper than small concerns. And R. & H. buy very closely, because buying so much. On this account they can and do *sell* cheaper—qualities of the goods being considered, than any other house. For this reason parties in Albany, Troy, Utica, Rochester and Buffalo are sending to Redington & Howe for instruments.

We advise our readers to call there—No. 2 Wieting block—by all means, before buying any musical instrument or merchandise.

(From The Northern Christian Advocate, Auburn.)

“This is an old House, and has the best kind of a record for prompt business ability and for reliable and honorable dealing. They secure perfect satisfaction to all customers, whether wholesale or retail. Their facilities are the best of any establishment in Central or Western New York, and their prices correspondingly liberal. Pastors, Churches, Sabbath Schools and families will do well to correspond with or visit this House. Redington & Howe are known to us and we can recommend them as reliable dealers.”

(From The Auburn Daily Advertiser.)

“A prompt, honorable House, who have the best facilities in Western New York for the Music Business, and who secure satisfaction to all customers.”

(From The Oswego Daily Palladium.)

“They are thorough, honorable business men, with a larger capital and better facilities than any House in the State, outside of New York City. They keep the best instruments manufactured, and are fully responsible for the warrant they give of perfect satisfaction. We are certain that our citizens will do well to visit or correspond with this House.”

From the Syracuse Daily Journal, Nov., 14th, 1868.

MUCH MUSIC.—We had no adequate idea of the magnitude of Redington & Howe's transactions in musical instruments until permitted the other day to see their order book. We were surprised at the number of instruments making their way over the country. We noticed especially a single order recently sent, which surpasses the entire yearly business of many retail establishments. The order was for one hundred and seven Burdett organs and melodeons, having an aggregate value of over \$20,000. We now see why Redington & Howe pay the only wholesale dealer's license in the music line, assessed by “Uncle Sam” in Central New York. They sell such large quantities because they can sell cheaper than any other dealers, (as low, if necessary, as their competitors buy or manufacture their goods.) They are also well known to be entirely reliable and honorable in their transactions.

Numbers, Description and Prices, OF THE DUNHAM PIANO-FORTE.

No. 1—7	Octave.—Rosewood. Large front round corners, moulding on plinth, octagon legs, carved lyre, scroll desk.	\$550
No. 2—7	Octave.—Rosewood. Large front round corners, carved legs and lyre, scroll desk.	575
No. 3—7	Octave.—Rosewood. Large front round corners, serpentine and fancy moulding on plinth, Gothic legs, carved lyre, scroll desk, beveled top.	600
No. 4—7	Octave.—Rosewood. Large front round corners, serpentine and fancy moulding on plinth, carved legs and lyre, scroll desk, beveled top.	625
No. 5—7	Octave.—Rosewood. Four round corners, pearl and serpentine mouldings on plinth, carved legs and lyre, scroll desk, beveled top.	650
No. 6—7½	Octave.—Rosewood. Large front round corners, serpentine and fancy mouldings on plinth, carved legs, and lyre, scroll desk, beveled top.	725
No. 7—7½	Octave.—Rosewood. Four large round corners, pearl and serpentine mouldings on plinth, richly carved legs and lyre, etc.	750
No. 8—7½	Octave.—Rosewood. Four large round corners, heavy mouldings on rim and plinth, rich serpentine moulding on plinth, rich carved legs and lyre, scroll desk, beveled top.	800

No. 10—7	Octave.—Rosewood. Upright or Boudoir Piano.	550
No. 11—7	Octave.—Rosewood. Large Grand Piano, French repeating action, richly carved legs, lyre, etc.	1200
No. 12—7½	Octave.—Rosewood. Same style of case as No. 11.	1500

TO THE PUBLIC.

The great combination of improvements attained in the Dunham Piano-Forte in regard to tone, touch, power, equality, durability and workmanship, has built for it a reputation which, to-day, stands unrivalled in every section of the country, and has also elicited from the most eminent professors, critics, connoisseurs, and the most energetic of our competitors, the unanimous opinion that the Dunham Piano can not be excelled.

Being confident that the production of a good article is the best and surest road to success, we have always aimed for perfection in our manufactures, regardless of cost. The patronage which such a course of business has gained for us, without the meretricious aid of Medals or Foreign Decorations, has proven satisfactory to us beyond our most sanguine expectations, and placed us in the highest position of the Piano-Forte trade.

While claiming as we do, without the fear of contradiction, for our house, the honor of first introducing to the American public this last great era of Piano-Forte improvement, which has given to American Pianos the highest honors, and whose perfections have astonished the world, we would state that the First Grand Square Piano made by us some fifteen years since, served as the model for the great improvement in American Piano Fortes.

We also own the patent, now expired, for the cross or Over-Strings, which is now in general use—so popular has it become, and so peculiarly satisfactory has it proved to us, that we freely gave it to the world.

The Agraffe arrangement we have used in Pianos for a period of thirty years.

MERITS OF THE DUNHAM PIANO-FORTE.

Its Durability has become a proverb.

Thousands of them can be found in use, which have required no repairs, other than tuning, during a period of thirty years.

In Workmanship, It cannot be surpassed if equaled.

The best materials and the most accomplished workmen, only are employed in its construction.

In Power, Solidity, Purity, and Equality of Tone, it has no compeer.

It is pronounced by the elite of the musical profession, and the *dilettanti* the most perfect Piano made.

As a Safe Investment, it is the best.

Dealers throughout the country, who have sold thousands of them during our business career, have never had one returned for being defective; nor have they, during a period of nearly twenty years, been called on to pay five dollars for repairs on the whole number sold.

It can be sold after years of use, for nearly, if not quite, its original cost.

We have orders for any quantity of them, at an advance of 33½ per cent over any other make of half its age.

It is warranted in the most satisfactory manner.

The commercial standing of our house is sufficient guarantee that any claim will meet with instant liquidation.

The Juries of the Universal Exposition of Paris, admit that American Pianos are the best, therefore Americans must be the best judges. Convinced that such is the fact, we have always striven to meet their critical requirements, and their approbation and patronage has been our reward; and we shall continue to manufacture such Instruments as will command the **HIGHEST POSITION IN THE ART**, regardless of Foreign Medals or Royal Decorations.

DUNHAM & SONS.

THE DUNHAM PIANO-FORTE.

In asking attention to the preceding circular of the manufacturers, we add a few

REASONS FOR BUYING A DUNHAM PIANO.

This establishment is the oldest in the country and possessed of the most valuable experience, taking the lead in important improvements. (They were the inventors of the Overstrung Bass and own the Patent.)

They have the largest capital of any establishment, without exception.

Their workmanship is the most perfect and durable possible.

Their scales are the most perfect.

NOTE—We ask attention to the following criticism from Watson's Art Journal.

"Their new square is one of the most beautiful instruments we ever heard. In depth, purity, and grandeur of tone, it can hardly be equaled; its touch is exquisitely sensitive; the registers are perfectly equalized; it sings with a wonderful purity of vibration, and the quality of its sound is refined, limpid and melodious, and at the same time, great in sonority and brilliance.

It is truly a perfect Piano.

The house of Dunham has also been among the intellectual leaders of Piano improvers, and this new Piano is another step in advance, which will still further enhance its reputation."

The Action of the Dunham is perfect.

These Pianos have a peculiar timbre of tone, clear and melodeous, preferred by the majority of musicians to *that of any other Piano whatever.*

The price is more reasonable than that of any other first-class maker.

Finally the house is of the most honorable character and ensure beyond the possibility of doubt the *most perfect satisfaction* to every owner of one of the Dunham Pianos.

A most important improvement has just been introduced by Messrs. Dunham & Sons in the construction of the Upright or Boudoir Piano.

The large size of the Full Scale Square Piano has always been an objection from the amount of standing room required for the instrument. The Upright form has always been preferred and is the popular style in Europe and among the older musical nations.

While possessing a quality of tone so peculiarly its own and generally preferred to the other grades of Pianos, an objection has always been raised to its general use on account of its complicated action. Messrs. Dunham & Sons have removed this great objection in the new

Dunham Upright Grand.

This Piano has all the merits of the compactness and beauty of form of the Upright pattern and employs at the same time the simple action of the Square Piano.

The arrangement of the Scale in the Dunham Upright is diagonal instead of perpendicular, thereby giving an immense advantage in *power and beauty of tone*, as well as in the arrangement of the action. In full, round, rich power

IT EQUALS A FULL SIZED CONCERT GRAND!

with an indescribable sweetness that the Grand does not possess.

Another most important feature is *the wonderful cheapness in price* as compared with the same quality and quantity of tone in any other form.

We are the Manufacturer's Special Agents for the State of New York and portions of some other States, and supply dealers of all grades, as well as retail customers, at the Factory Prices.

REDINGTON & HOWE,

MUSIC PUBLISHERS AND DEALERS.

THE STEINWAY PIANOS.

As these wonderful instruments are so well known, we do not take the space to re-produce their price list, (ranging from \$650, to \$1800.)

These Piano-Fortes have twice taken the first prize over all the Pianos of the World, and are universally acknowledged to be the best that are made.

We sell them at wholesale and retail at lowest factory prices, being the manufacturers exclusive agents in this vicinity.

REDINGTON & HOWE.

THE CHICKERING PIANO

has long stood at the Head. We are dealers in these magnificent instruments. Prices from \$550, upward.

The Hallet, Davis & Co., Piano.

This standard instrument maintains its well established superiority. The Compeer and only Boston rival of the Chickering, (having several times taken the first prize over its world renowned neighbor,) it is furnished by the manufacturers at a very small margin of profit. It is sold wonderfully low for such a complete first-class Piano Forte, affording customers a large saving of money. When we consider its extremely reasonable price, in connection with its unsurpassed quality and durability, and the unexcelled perfection and beauty of its scales, this Piano is UNRIVALLED.

Prices from \$450, upward. We supply the Trade.

THE BRADBURY PIANO,

is well known to be of superior merit. We have them at Wholesale and Retail. Prices from \$575, to \$1,000.

THE CENTRAL PIANO-FORTE COMPANY'S PIANO,

Manufactured by an association of workmen from Steinway's factory, so closely resembles the Steinway, as to be called the Steinway's Compeer. We sell these to the Trade on very favorable terms. Retail Prices \$545, and upwards.

HINTS ON THE PRESERVATION OF THE PIANO.

It is evident that if the Piano is to remain in good order for many years, good care must be taken of it. The instrument should be closed when not in use, in order to prevent the collection of dust, pins, etc., on the sound-board; however, it must not be closed for a period of several months or longer, but be opened occasionally, and the daylight allowed to strike the keys, or else the ivory may turn yellow.

Any hard substance, no matter how small, dropped inside the Piano, will cause a rattling, jarring noise.

It is in every case desirable that an india-rubber or cloth should protect the instrument from bruises and scratches, as well as dampness.

The Piano should not be placed in a damp room, or left open in a draught of air—dampness is its most dangerous enemy, causing the strings and turning pins to rust, the cloth used in the construction of the keys of action, to swell, whereby the mechanism will move sluggishly, or often stick altogether. This occurs chiefly in the summer season, and the best Pianos, made of the most thoroughly seasoned material, are necessarily the most affected by dampness, the absorption being more rapid. Extreme heat is scarcely less injurious. The Piano should not be placed very near to an open fire or a heated stove, nor over close to the hot air from furnaces now in general use.

Moths are very destructive to the cloth and felt used in the Piano, and may be kept out of it by placing a lump of camphor, wrapped in soft paper, in the inside corner, care being taken to renew it from time to time.

Many persons are unaware of the great importance of having their Pianos kept in order, and only tuned by a *competent tuner*. A new Piano should be tuned at least every three or four months, during the first year, and at longer intervals afterward.

How to Unpack a Piano.

Take out the screws holding the lid of the box, remove the lid, take out the Piano legs and lyre, remove the board across the inside box. Place two benches or strong wide chairs, which should be covered with a quilt or other soft substance, alongside the box where the back of the Piano is, slide the Piano toward the end where the legs were—about six inches, have the Piano lifted out by four persons, one at each corner, and set it on the two benches or chairs on its back.

Unscrew the cross-boards on each end of the bottom, and put the lyre and legs on, which are numbered 1, 2, 3, 4, for their respective places. Have the four persons lift the Piano off the benches and set it down so that the four legs will touch the floor at the same time. Unlock the instrument (the key will be found tied to the lyre,) and wipe off the dust lightly with a soft silk handkerchief, or piece of buck-skin.

Purchasing Musical Instruments.

There is, probably, no article of household equipment, the construction of which the majority of purchasers know so little of as pianos. There are few articles that are used so continuously, and for the length of time that pianos are, hence the importance of durability. The finest case may cover a fifth rate interior; a fine tone piano when new may subsequently prove to be made of cheap material that fails after a few years use.

Cheap Pianos with which the country is flooded, are invariably the most expensive in the end, *i. e.*, if we estimate loss of tone and constant annoyance by the instrument being out of repair, of any account. It is wisest therefore, for purchasers to get their instruments of dealers, if they are to be found, who are known as practical men, both musically and mechanically, as well as honorable.—*Ogdensburg Daily Journal*.

THE BURDETT ORGANS.

REDINGTON & HOWE,

Are happy to announce that they have secured the State Agency for the above Organs. Our own opinion agrees with the acknowledgement of all leading Musicians as to the great superiority of the Burdett Organ, with its present patented improvements.

A careful examination of these Instruments will convince any lover of the *beautiful* in music, that these organs contain more purity of tone—more variety of expression—more power, than any other Organ known.

We would call especial attention to their last great improvements, the COMBINATION ORGAN of Mr. Burdett, and the wonderful VOX CELESTE STOP; the CAMPANELLA ATTACHMENT of Mr. R. M. Carpenter, together with his IMPROVED VOX HUMANA TREMOLO. Also, the improved HARMONIC ATTACHMENT, (doubling the power;) the PATENT MANUAL SUB-BASS, (giving a wonderful depth and volume of tone;) the ORCHESTRAL SWELL; the DOUBLE BLOW PEDALS, and others.

THE COMBINATION ORGAN

Has one and a half Banks of Keys, with four Sets of Reeds, tuned in a manner to give the greatest variety possible in a Reed instrument.

We have only space to mention one peculiar and beautiful stop in the Combination Organ, the effect of which heretofore has never been heard in a Reed Organ.

THE VIOLINCELLO STOP,

used for solos alone, is most entrancing when used with the Vox Humana. It seems almost to speak words—certainly it speaks to the heart of every listener. No one should fail to make inquiry about this Organ.

THE VOX CELESTE STOP

Is a new and most valuable improvement, which brings into use an extra set of reeds, which, by their peculiar arrangement and method of tuning, produce a wonderfully beautiful string quality of tone, with a most astonishing power, surpassing all the previous efforts of the inventor. This admirable improvement, which has created such a sensation among Organ makers, as well as with the Musical Public, is found only in the Burdett Organ.

THE CAMPANELLA ATTACHMENT,

The latest and best of all Mr. Carpenters inventions, now for the first time placed before the public, will, when listened to, tell its own sweet story. The Campanella is a stop resembling the tinkling of Fairy Bells, or the rippling waters of a fountain, making music so sweet and harmonious, that it passes Æolian-like over the senses—as passes the music of a Harp at night touched by Fairy fingers. This enchanting stop should certainly be heard by all lovers of music. The patent has been applied for by Mr. Carpenter, the inventor.

THE VOX HUMANA TREMOLO

of Mr. R. M. Carpenter, so much admired by musicians every where, needs only a word. It has already become a Household Glory, and no Organ is complete without the beauty it imparts to the tone. This stop should not be confounded with Mr. Carpenter's former invention. It is an *improved* Vox Humana—has no third pedal—is perfectly noiseless in its operation—has no clock work to get out of order—is entirely simple in construction—is found only in the Burdett Organ—and when once heard, delights and fascinates the listener.

We invite the most rigid scrutiny of these Organs by Dealers, the Profession and the Musical Public, to prove the justice of the title acknowledged to them as **THE BEST ORGAN IN THE WORLD.**

We have constantly on hand a large stock of these Excelsior Instruments. We supply all classes of dealers, as well as retail customers, at the lowest Factory rates. Agents will soon be found at all principal points.

Satisfaction warranted in all transactions. Send for Illustrated Catalogue.

REDINGTON & HOWE,

General Agents, No. 2, Weiting Block, Syracuse, N. Y.

PRICE LIST OF THE BURDETT ORGANS,

Containing R. W. Carpenter's Improved Vox Humana,
Patented, June 1st, 1867.

One Set of Reeds.

1. Four Octave—in paneled Walnut Case, with Vox Humana, 1 stop,	\$155
2. Five Octave—in paneled Walnut Case, “ “ 1 “	165
3. The same—in elegant Rosewood Case, “ “ 1 “	200
4. Six Octave—in paneled Walnut Case, “ “ 1 “	190
5. The same—in elegant Rosewood Case, “ “ 1 “	225

Two Sets of Reeds,

6. Four Octave—in paneled Walnut Case, with Vox Humana, 1 stop,	165
7. Five Octave—in paneled Walnut Case, “ “ 1 “	195
8. The same—in elegant Rosewood Case, “ “ 1 “	225
9. Five Octave—in paneled Walnut Case with manual Sub Bass, and Vox Humana, 2 stops,.....	225
10. The same—in elegant Rosewood Case, 2 stops,.....	255
11. Five Octave—with Harmonic Attachment and Manual Sub Bass and Vox Humana, 3 stops,.....	250
12. The same—in elegant Rosewood Case, with Vox Humana, 3 stops,	275
13. Six Octave—in paneled Walnut Case, “ “ 1 “	240
14. The same—in elegant Rosewood Case, “ “ 1 “	270
15. Six Octave—in paneled Walnut Case, with Harmonic Attachment, Manual Sub Bass, and Vox Humana, 3 stops,.....	285

Two and a Half Sets of Reeds.

16. Five Octave—in paneled Walnut Case, with Manual Sub Bass, Harmonic Celeste, and Vox Humana, 3 stops,.....	250
17. The same—in elegantly carved case, with Vox Humana, 3 stops,	280
18. Five Octave—in paneled Walnut Case, with Harmonic Attachment, Manual Sub Bass, Harmonic Celeste, and Vox Humana, 4 stops,	275

Three Sets of Reeds.

19. Five Octave—with Harmonic Attachment, Manual Sub Bass, and Vox Humana, 8 stops,.....	400
20. The same—with 1½ Octaves of Pedal Bass instead of Manual Sub Bass 8 stops,.....	450

Six Sets of Reeds.

21. Five Octave—two Keyboards with Manual Sub Bass, Harmonic Celeste and Vox Humana, 12 stops,.....	550
22. The same—with 1½ Octaves of Pedal instead of Manual Sub Bass,	570
The Combination Organ, with one and one-half banks of keys, four sets of reeds,.....	\$325

Campanella Attachment—on the different styles of Organs— \$25 extra.

Messrs. Burdett & Co., are also manufacturing two styles of Organs with less expensive cases, (5 Octave single reed, and 5 Octave double reed,) called the National Organ. These will be sold much cheaper, thereby obviating any necessity for customers to buy second grade Organs, because desiring to purchase at a low price.

*Styles 1 to 15 inclusive, are furnished, if required, without the improved Vox Humana, at \$25 less than the printed prices,

MELODEONS.

PORTABLE CASE.

41. Five Octave—Single Reed, Walnut Case,.....	95
42. Five Octave—Single Reed, Rosewood Case,.....	110

PIANO CASE.

46. Five Octave—Single Reed, Rosewood Case,.....	150
50. Six Octave—Single Reed, Rosewood Case,.....	180

☞ The Walnut Instruments are also furnished in elegantly carved Cases, at an advance of \$30 on the above prices.

THE ESTEY ORGANS.

This Veteran House (established in 1846) holds its rank at the head, and are now finishing every month hundreds of Organs and Melodeons, which are a just credit to American skill and enterprise.

The vast amount of patronage received, has been secured more by the actual merits of the instrument, than by extensive advertising and the pretentious parade of their wares before the public. They have employed and retained, from the first, some of the finest mechanics and inventors of the age, and have adopted, and patented more valuable improvements, than any other establishment in the land. As the result, their instruments stand unrivalled by anything found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe-Organ builders and performers—the last to discover excellence in reed tones—pronounce them much superior to others.

They possess the following improvements :

THE PATENT HARMONIC ATTACHMENT is an octave coupler used on a single manual, and doubles the power of the instrument without increasing its size or number of reeds. Thus, by the use of this improvement, an Organ containing two sets of reeds is instantly made equivalent to one of four; and a tri-reed equals an instrument of six sets of reeds, making the MOST POWERFUL instrument of its size yet known in this country.

THE PATENT MANUAL SUB-BASS brings into use an independent set of large and powerful SUB-BASS REEDS, which are played with the ordinary keys and controlled by a stop. The manner in which this set of reeds is placed upon the air chamber increases the volume of tone at least one-third. This new and valuable invention requires no extra room, and has all the effect of pedal bass, and can be used by any ordinary performer.

THE PATENT KNEE-SWELL, whereby the player has complete control over the instrument, obtaining a perfect CRESCENDO or DIMINUENDO, more beautiful than the Automatic Swell, or any other ever before used.

THE PATENT ORGAN BELLOWS greatly enhances the power and quality of the tone without increasing the size of the case.

THE PATENT REED BOARD, whereby the tone is greatly improved, rendering it more like a Pipe Organ than is found in any other instrument. This important improvement is covered by two patents.

THE PATENT VOX HUMANA TREMOLO.

In attempting to describe the effect of this stop, we are at a loss for language; its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a lifetime of practice for an artist upon the Violin.

It changes entirely the reed-tone, giving the sympathetic sweetness of the HUMAN VOICE, making it so melodious and pure that it never fails to enchant the appreciative listener.

The Tremolo is produced by means of a REVOLVING FAN placed just back of the swell, which imparts to the tone a charming wave-like effect hitherto unknown in instrumental music.

THE VOX JUBILANTE

Is a new and beautiful stop, peculiar to the ESTEY ORGANS. The character of the tone is marked and wonderfully effective, giving a style of music hitherto unattained in instruments of this class. This is accomplished by an extra set of reeds, ingeniously arranged, and adjusted to meet this special, and hitherto un-supplied want. It is considered by competent judges a great success.

Send for Illustrated Catalogue, giving accurate pictures of the styles.

REDINGTON & HOWE,
Wholesale Agents.

Popularity of the Dunham Piano.

We are sometimes asked why the Dunham Piano Forte has not been more prominently before the public for the last eight years. We give the reason. At the commencement of the late war, the Dunham, senior, concluded to decrease the very large manufacturing done by himself, so long as public attention should be so completely absorbed in the stirring events then transpiring, consequently he diminished his force employed and sent during the war the greater portion of his pianos to the Canadian Provinces, (Where the demand for the Dunham Pianos call for more than five hundred instruments every year).

At the conclusion of the war, he associated with him two sons as partners, built a new factory, and the firm of JOHN B. DUNHAM & SONS are now manufacturing very largely.

The high opinion of their pianos entertained by Piano Dealers is evinced by the great desire of the principal houses to secure the Dunham agency.

Leiter Brother's Jewelry House.

These gentlemen occupy a portion of the shelf and counter room in our store with a very fine stock of well assorted Jewelry and Silver Ware. Their connections with a New York Importing House enable them to sell at wholesale and retail cheaper than any House west of New York City.

Situations for Music Teachers.

We keep a registry of Music Teachers in Central New York. Also a list of those desiring locations.

We can, therefore, always put parties in any town or village in correspondence with good reliable music teachers, who can be secured at reasonable rates. We charge nothing either to the teachers or the public. We act cheerfully without pay, as we desire to extend our acquaintance.

Teachers should send us their name, terms, &c., when desiring a new field of employment. Individuals wishing teachers are invited to write us freely at any time.

Wieting Hall.

The largest, best, most central and most popular Hall in the city, can be leased for Concerts, Lectures and all varieties of first class entertainments. Particulars can be learned in our office.

Correspondence Invited.

It is impossible in our present limits to give full particulars of our trade and varieties of musical goods we sell. We invite therefore, inquiries by mail, or otherwise in regard to any department of the music business. We can send to any address, circulars with fuller details than our catalogue admits of, or forward written information. We do so with pleasure.

REMEMBER that it costs no more to write one thousand miles to us than five miles to some smaller House.

REMEMBER that we save you much more than cost of freight on what you buy of us. We guarantee to do it.

REMEMBER that unless you are satisfied with our treatment to you, *you have nothing to pay.*
